Boardwalk of Dreams Bryant Simon, 2004-07-29

During the first half of the twentieth century Atlantic City was the nation's most popular middle class resort the home of the famed Boardwalk the Miss America Pageant and the board game Monopoly By the late 1960s it had become a symbol of urban decay and blight compared by journalists to bombed out Dresden and war torn Beirut Several decades and a dozen casinos later Atlantic City is again one of America's most popular tourist spots with thirty five million visitors a year Yet most stay for a mere six hours and the highway has replaced the Boardwalk as the city's most important thoroughfare Today the city doesn't have a single movie theater and its one supermarket is a virtual fortress protected by metal detectors and security guards In this wide ranging book Bryant Simon does far more than tell a nostalgic tale of Atlantic City's rise near death and reincarnation He turns the depiction of middle class vacationers into a revealing discussion of the boundaries of public space in urban America In the past he argues the public was never really about democracy but about exclusion During Atlantic City's heyday African Americans were kept off the Boardwalk and away from the beaches The overly boisterous or improperly dressed were kept out of theaters and hotel lobbies by uniformed ushers and police The creation of Atlantic City as the Nation's Playground was dependent on keeping undesirables out of view unless they were pushing tourists down the Boardwalk on rickshaw like rolling chairs or shimmying in smoky nightclubs Desegregation overturned this racial balance in the mid 1960s making the city's public spaces more open and democratic too open and democratic for many middle class Americans who fled to suburbs and suburban style resorts like Disneyworld With the opening of the first casino in 1978 the urban balance once again shifted creating twelve separate heavily guarded glittering casinos worlds walled off from the

dilapidated houses boarded up businesses and lots razed for redevelopment that never came Tourists are deliberately kept away from the city's grim reality and its predominantly poor African American residents Despite ten of thousands of buses and cars rolling into every day gambling has not saved Atlantic City or returned it to its glory days Simon's moving narrative of Atlantic City's past points to the troubling fate of urban America and the nation's cultural trajectory in the twentieth century with broad implications for those interested in urban studies sociology planning architecture and history

Sleep and Dreams Rudolf Steiner, 2003 What are Dreams Every age every culture perhaps every person have different answers We can at least agree on one thing however dreams are other Their presence in our lives demonstrates that we are not limited to a single mode of consciousness The world of sleep is largely a blank for us an abyss of non consciousness yawning between one day and the next but the very fact that we can dream announces our potential for awareness within that abyss We spend a third of our life asleep a fact that dream theorists rarely consider This startling collection of lectures by Rudolf Steiner selected and introduced by the psychologist Michael Lipson provides a truly unique way of approaching dreams based on an understanding of the spiritual nature of human beings A radically new view of dreams as the threshold to spiritual reality arises once we acknowledge that physical existence is only the tip of an iceberg hidden largely in the spiritual world Sleep death and meditation are the three realms in which consciousness has the opportunity to deepen its immersion in the divine flow of existence In principle we can become infinitely more self aware in each of them since human consciousness is not fixed neither in contents nor in terms of alertness All day long the contents of our consciousness change and during the night the level changes These lectures permit readers to glimpse the fantastic depths of experience we normally sleep through and to contemplate Steiner's astounding program to maintain self aware consciousness through sleep through death through all being Contents The Secrets of Sleep Sleep and the Three Part Soul Sleep and the World of the Stars Understanding Sleep through Imagination Inspiration and Intuition An Active Spirit Dreams and the Spiritual Researcher Our inner Undercurrent A Continual Dreaming Preparing for a New Birth Dreaming and the Etheric Body Inspiration Bringing the Unconscious to Consciousness Confronting the Totality of Our Lives through Dreams The Logic and Illogic of Dreams Dreams and Human Development Interpreting Dreams Dreams The Human Essence in Spiritual Connection
