Dresden im Luftkrieg Götz Bergander, 1998 **Memorials in the Aftermath of Armed Conflict** Marie Louise Stig Sørensen, Dacia Viejo-Rose, Paola Filippucci, 2019-12-13 Through case studies from Europe and Russia this volume analyses memorials as a means for the present to make claims on the past in the aftermath of armed conflict The central contention is that memorials are not backward looking inert reminders of past events but instead active triggers of personal and shared emotion that are inescapably political bound up with how societies reconstruct their present and future as they negotiate their way out of and sometimes back into conflict A central aim of the book is to highlight and illustrate the cultural and ethical complexity of memorials as focal points for a tension between the notion of memory as truth and the practice of memory as negotiable By adopting a relatively bounded temporal and spatial scope the volume seeks to move beyond the established focus on national traditions to reveal cultural commonalities and shared influences in the memorial forms and practices of individual regions and of particular conflicts **Die Zerstörung Dresdens 13. bis 15. Februar 1945** Rolf-Dieter Müller, Thomas Widera, 2025-01-20 Dieser Band enth lt die zentralen Ergebnisse der Dresdner Historikerkommission zur Ermittlung der Opferzahlen der Luftangriffe auf die Stadt Dresden am 13 14 Februar 1945 die erstmalig s mtliche verf gbaren Quellen gesichtet diskutiert und ausgewertet hat Dabei handelt es sich um Beitr ge zur Aktenberlieferung im Stadtarchiv Dresden zur damaligen Gesamtkriegslage zur milit rischen Bedeutung Dresdens im Fr hjahr 1945 zur Zahl der Opfer infolge britischer Luftangriffe in anderen deutschen St dten sowie zur Anzahl ausw rtiger Fl chtlinge die bei der Bombardierung Dresdens ihr Leben verloren haben Der Bericht ber arch ologische Grabungsbefunde zeigt Ergebnisse der Stadtarch ologie die die Dresdner Altstadt systematisch erforschte Gepr ft wird auch ob r ckstandsloses Verbrennen von Menschen unter den Bedingungen des 13 14 Februars 1945 m glich war Weitere Beitr ge setzen sich mit der Frage der Tieffliegerangriffe auseinander und werten Erinnerungen von berlebenden der Luftangriffe aus Erg nzt werden die Resultate durch die pers nlichen Erinnerungen G tz Berganders *Dresden* Elizabeth A. Ten Dyke, 2014-05-22 The collapse of the German Democratic Republic prompted the East Germans to confront their personal cultural and international past This study of the Wende the turn of events in 1989 is based on ethnographic and anthropological research conducted in the early 1990s Liz Ten Dyke has developed a finely nuanced portrait of the city and its residents as they were caught up in the economic political and social turmoil that characterized the immediate post socialist period By weaving together scholarly research oral history and ethnographic excursions or narratives of salient experiences this book makes an important contribution to the study of social aspects of the past Moving beyond paradigms presently shaping the study of memory it details the paradoxes and contradictions inherent in remembering making manifest the link between such contradictions and larger symbolic and political economic contexts In this way the author situates the study of memory in history and shows that it is the mutability of memory in conjunction with the uncertainty of history that render the past a dynamic and powerful force

in human society **The Heritage of War** Martin Gegner, Bart Ziino, 2011-08-16 The Heritage of War is an interdisciplinary study of the ways in which heritage is mobilized in remembering war and in reconstructing landscapes political systems and identities after conflict It examines the deeply contested nature of war heritage in a series of places and contexts highlighting the modes by which governments communities and individuals claim validity for their own experiences of war and the meanings they attach to them From colonizing violence in South America to the United States Civil War the Second World War on three continents genocide in Rwanda and continuing divisions in Europe and the Middle East these studies bring us closer to the very processes of heritage production The Heritage of War uncovers the histories of heritage it charts the constant social and political construction of heritage sites over time by a series of different agents and explores the continuous reworking of meaning into the present What are the forces of contingency agency and political power that produce define and sustain the heritage of war How do particular versions of the past and particular identities gain legitimacy while others are marginalised In this book contributors explore the active work by which heritage is produced and reproduced in a series of case studies of memorialization battlefield preservation tourism development private remembering and urban reconstruction These are the acts of making sense of war they are acts that continue long after violent conflict itself has ended The Routledge Handbook of German Politics & Culture Sarah Colvin, 2014-11-27 The Routledge Handbook of German Politics and Culture offers a wide ranging and authoritative account of Germany in the 21st century It gathers the expertise of internationally leading scholars of German culture politics and society to explore and explain historical pathways to contemporary Germany the current Berlin Republic society and diversity Germany and Europe Germany and the world This is an essential resource for students researchers and all those looking to understand contemporary German politics and culture *Bombing, States and Peoples in Western Europe 1940-1945* Claudia Baldoli, Andrew Knapp, Richard Overy, 2011-06-30 This is the first book to treat bombing during WWII as a European phenomenon and not just the Blitz on Britain and Germany With Western Europe now at the heart of a united continent it is even more difficult to explain how only 70 years ago European states destroyed much of the urban landscape from the air There were many blitzes between 1940 and 1945 with an estimated 700 000 people killed The purpose of this book is to provide the basis for a comparison of the experience of western states under the impact of bombing In particular it considers the political cultural and social responses to bombing rather than the military strategic and social dimensions which have formed the core of the discussion hitherto This book will correct the popular perception of the British Blitz as the key bombing experience by exposing the reality of life under the bombs for communities as far apart as Brest Palermo and Rostock An international panel of historians consider the issues raised amidst the bombing of human rights and protection of civilians in this seminal event in 20th history **The Collapse of the German War Economy, 1944-1945** Alfred C. Mierzejewski, 2017-10-10 In this book Alfred Mierzejewski describes how the German economy collapsed under Allied

bombing in the last year of World War II He presents a broad based original study of German wartime industry and transportation and of Allied air force planning and intelligence including the first complete analysis in English of the German National Railway The German industrial economy was extraordinarily dependent on the timely adequate distribution of coal by railroad and inland waterway The German National Railway in particular was the pivot of the finely balanced armaments production and distribution system created by Albert Speer But Allied strategists did not immediately recognize this Only in late 1944 when Deputy Supreme Allied Commander Sir Arthur Tedder built a new strategic consensus was this vital coal transport nexus severed The result was the rapid paralysis of the Nazi war economy Mierzejewski measures the economic consequences of the bombing by considering broad indices such as armaments and coal production railway performance and weapons deliveries to the armed forces In addition he shows how individual companies in each of Germany's major economic regions fared By drawing on previously unexamined files of private German manufacturing companies the Reich Transportation Ministry and Allied air intelligence agencies Mierzejewski creates a rare combination of economic analysis and military history that provides new perspectives on the German war economy and Allied air intelligence

Cultural Heritage in Transition Bart Zweegers, 2022-02-26 This book introduces the multilevel perspective to analyze how local national and international actors and institutions in the heritage field interact More specifically a comparative study is made of controversies regarding six UNESCO World Heritage

sites in Germany and the United Kingdom The six cases involve traditional monuments the cathedral of Aachen and the castle and cathedral of Durham industrial heritage the Zollverein Coal Mine in Essen and the former tin and copper mines in Cornwall and cities Dresden and Liverpool Studying how long term landscape developments interact with local actors and nationally organized regimes reveals important differences between the decentralized German and the centralized British approach to heritage preservation These differences not only have consequences for the governance of heritage preservation in the two countries but also for their relations with international organizations such as UNESCO Kleine Geschichte

Mathias Berek, 2009 Trotz intensiver Bearbeitung des Forschungsfelds Erinnerungskultur bestehen zwei Probleme bis heute Das Verhältnis zwischen Individuum und Kollektiv bleibt weitgehend ungeklärt und zu oft wird von der Existenz einer wahren unverfälschten Erinnerung ausgegangen Die vorliegende Theorie der Erinnerungskulturen bietet eine Lösung für diese Probleme an indem sie Erinnerungskultur als Teil des gesellschaftlichen Wissensvorrats analysiert und zwar systematisch in ihrer Entstehung Struktur und Funktion Sie ergänzt die Beschreibung der kulturellen Existenz des Menschen als animal symbolicum um das Kapitel der Erinnerung Dabei bringt die Arbeit die konstruktivistische Wissenssoziologie von Peter L. Berger und Thomas Luckmann mit der Lebenswelt Analyse von Alfred Schütz zusammen Auf dieser theoretischen Basis systematisiert sie die Ergebnisse der Gedächtnisforschung von den Neuro- und Literaturwissenschaften über die Psychologie und Soziologie bis zu den Geschichtswissenschaften um zu einer kohärenten Theorie des kollektiven Gedächtnisses zu gelangen Erinnerungskulturen sorgen dafür gesellschaftlichen Zusammenhalt herzustellen und sind deshalb stets Gegenstand politischer Auseinandersetzungen Eine wahre Erinnerung kann es in den komplexen Prozessen kollektiven Gedächtnisses nicht geben Deutsche Erinnerungsorte Etienne François, Hagen Schulze, 2009 *Bombs Away!* Wilfried Wilms, William

Crawford, Stuart J. Foster, 2007-12-01 The Second World War stands as the most devastating and destructive global conflict in human history More than 60 nations representing 1.7 billion people or three quarters of the world's population were consumed by its horror Not surprisingly therefore World War II stands as a landmark episode in history education throughout the world and its prominent place in school history textbooks is almost guaranteed As this book demonstrates however the stories that nations choose to tell their young about World War II do not represent a universally accepted truth about events during the war Rather wartime narratives contained in school textbooks typically are selected to instill in the young a sense of national pride common identity and shared collective memory To understand this process War Nation Memory describes and evaluates school history textbooks from many nations deeply affected by World War II including China France Germany Japan USA and the United Kingdom It critically examines the very different and complex perspectives offered in many nations and analyses the ways in which textbooks commonly serve as instruments of socialisation and in some cases propaganda Above all War Nation Memory demonstrates that far from containing neutral knowledge history textbooks prove fascinating cultural artefacts consciously shaped and legitimated by powerful ideological cultural and sociopolitical forces dominant in the present
