Congress. Senate. Committee on Energy and Natural Resources, 1981 *The Economy in the Reagan Years* Anthony S. Campagna, 1994-01-05 The arguments over the economic policies of the Reagan Administration will continue until sufficient time has elapsed for a consensus to be possible In the meantime it is necessary for contemporary scholars to record their opinions as a base for the consensus Campagna has recorded his conclusions based on considerable research on Reagan Administration policies He begins by describing what was planned by the government From there he discusses what actually happened and devotes the remainder of the work to his opinion of what has been left with which the future must deal Campagna concludes that the Reagan economic policies failed He establishes a position for others to attack or defend in their own publications in the continuing argument *Harvard Business School Core Collection* Baker Library, 1993 *Business Education Index* ,1981 An author and subject index of business education articles compiled from a selected list of periodicals and yearbooks published during the year *Macroeconomics* Rudiger Dornbusch, Stanley Fischer, Richard Startz, 1998
