Drug Laws 1998 California Edition:

Lies, Damned Lies, and Drug War Statistics, Second Edition Matthew B. Robinson, Renee G. Scherlen, 2014-01-01 Revised and updated edition that analyses how the Office of National Drug Control Policy employs statistics to misleadingly claim the War on Drugs is a success First published in 2007 *Lies Damned Lies and Drug War Statistics* critically analyzed claims made by the Office of National Drug Control Policy ONDCP the White House agency of accountability in the nation s drug war since 1989 as found in the six editions of the annual National Drug Control Strategy between 2000 and 2005 In this revised and updated second edition of their critically acclaimed work Matthew B Robinson and Renee G Scherlen examine seven more recent editions 2006 2012 to once again determine if ONDCP accurately and honestly presents information or intentionally distorts evidence to justify continuing the drug war They uncover the many ways in which ONDCP manipulates statistics and visually presents that information to the public Their analysis demonstrates a drug war that consistently fails to reduce drug use drug fatalities or illnesses associated with drug use fails to provide treatment for drug dependent users and drives up the prices of drugs They conclude with policy recommendations for reforming ONDCP s use of statistics as well as how the nation fights the war on drugs Praise for the First Edition *Lies Damned Lies and Drug War Statistics* is surprisingly easy to read and Robinson and Scherlen have done a huge favor not only to critics of current drug policy by compiling this damning critique of ONDCP claims but also to anyone interested in how data is compiled presented and misused by bureaucrats attempting to guard their domains It should be required reading for members of Congress Drug War Chronicle Book Review The authors have performed a valuable service to our democracy with their meticulous analysis of the White House ONDCP public statements and reports They have pulled the sheet off what appears to be an official policy of deception using clever and sometimes clumsy attempts at statistical manipulation This document at last gives us a map of the truth Mike Gray author of *Drug Crazy How We Got into This Mess and How We Can Get Out* Robinson and Scherlen make a valuable contribution to documenting how ONDCP fails to live up to basic standards of accountability and consistency Ethan Nadelmann Executive Director Drug Policy Alliance [Federal Narcotics Laws and the War on Drugs](#) Thomas C Rowe, 2013-04-15 We re losing the war on drugsbut the fight isn t over yet *Federal Narcotics Laws and the War on Drugs* examines our current anti drug programs and policies explains why they have failed and presents a plan to fix them Author Thomas C Rowe who has been educating college students on recreational drug use for nearly 30 years exposes the truth about anti drug programs he believes were conceived in ignorance of the drugs themselves and motivated by racial cultural bias This powerful book advocates a shift in federal spending to move funds away from the failed elements of the war on drugs toward policies with a more realistic chance to succeedthe drug courts education and effective treatment Common myths and misconceptions about drugs have produced anti drug programs that don t work won t work and waste millions of dollars *Federal Narcotics Laws and the War on Drugs* looks at howand whythis has happened and what can be done to

correct it The book is divided into How did we get into this mess which details the history of anti narcotic legislation how drug agencies evolved and the role played by Harry Anslinger Commissioner of the United States Bureau of Narcotics from 1930 to 1962 What works and what doesn t work which looks at the failure of interdiction efforts and the negative consequences that have resulted with a particular focus on the problems of prisons balanced against the drug court system and a third section that serves as an overview of various recreational drugs considers arguments for and against drug legalization and offers suggestions for more effective methods than our current system allows Federal Narcotics Laws and the War on Drugs also examines the creation of the Federal Bureau of Narcotics current regulations and structures current federal sentencing guidelines current state of the courts and the prison system mandatory sentencing and what judges think interdiction for heroin cocaine and crack cocaine and marijuana early education efforts the DARE program drug use trends drug treatment models the debate over legalization Federal Narcotics Laws and the War on Drugs also includes several appendices of federal budget figures cocaine and heroin purity and price and federal bureau of prisons statistics This unique book is required reading for anyone concerned about the drug problem in the United States and what is and isn t being done to correct it

The Political Economy of Narcotics Julia Buxton, 2013-07-04 This book explores the origins history and organisation of the international system of narcotic drug control with a specific focus on heroin cannabis and cocaine It argues that the century long quest to eliminate the production trade in and use of narcotic drugs has been a profound failure The statistics produced by the international and domestic narcotic drug control agencies point to a sustained expansion of the drug trade despite the imposition of harsh criminal sanctions against those engaged as producers traffickers or consumers in the narcotic drugs market The roots of this major international policy failure are traced back to the outdated ideology of prohibition which is shown to be counterproductive utopian and a fundamentally inadequate basis for narcotic drug policy in the twenty first century Prohibition championed by many US policy makers has left the international community poorly positioned to confront those changes to the drug trade and drug markets that have resulted from globalisation Moreover prohibition based approaches are causing more harm than good as is demonstrated through reference to issues such as HIV AIDS the environment conflict development and social justice As the drug control system approaches its centenary there are signs that the global consensus on narcotic drug prohibition is fracturing Some European and South American states are pushing for a new approach based on regulation decriminalisation and harm reduction But those seeking to revise prohibition strategies faces entrenched resistance primarily by the U S This important text argues that successive American governments have pursued a contradictory approach acting decisively against the narcotic drug trade at home and abroad while at the same time working with drug traffickers and producer states when it is in America s strategic interest As a result US policy approaches emerge as a decisive factor in accounting for the failure of prohibition
