Drugs And The Limits Of Liberalism Moral And Legal Issues:

Drugs and the Limits of Liberalism Pablo De Greiff, 2018-10-18 Society's drug problem will persist and debates over how to solve it will continue getting nowhere until we define our terms. This book is an effort to do just that: to parse the legal, moral, and philosophical underpinnings for any discussion of drug policy. Does liberal political theory with its commitment to individual freedom offer any guidance in the matter of drugs, particularly regarding their legal status? Do the commitments that citizens of liberal democracies make to ideals such as rationality, equality, justice, and democratic forms of decision making have implications for drug policy? These are the questions addressed in this volume, which explores the possibilities and limitations of philosophical reflection on this pressing practical social issue. The authors, distinguished political and legal philosophers, search out the justification of policies that manage problems of drug consumption and social disintegration but do so in keeping with the moral and political commitments of a liberal democratic society. Their subjects range from the rationality or irrationality of drug consumption to the scope of liberty, from the proper aims of legislation to the rhetoric of the war on drugs, particularly as deployed by former Drug Czar William Bennett.

The Palgrave Handbook of Philosophy and Psychoactive Drug Use Rob Lovering, 2024-10-14 In this Handbook, philosophers from around the world address the metaphysics, epistemology, and value of psychoactive mind-altering drug use. In so doing, they attempt to answer questions such as: What does the fact of drug-induced mind-altering experiences tell us about the nature of the mind, free will, and God? What does it tell us about what and how we can know? Are drug-induced mind-altering experiences valuable morally, aesthetically, or otherwise? Is the acquisition of drug-induced mind-altering experiences ever immoral? Should the acquisition of drug-induced mind-altering experiences ever be legally prohibited? The Handbook gives an overview of the current research and sets the stage for future directions in philosophical thought relating to psychoactive drug use.

Liberalism Versus Conservatism François B. Gérard, 2000 Everyone eschews labels yet we all seem to possess them in the minds of legions of politicians, marketers, and even the ever-peering government. We are being targeted daily by flaming liberals, left-wing liberals, right-wing conservatives, compassionate conservatives, religious conservatives, and liberals, pinko liberals, middle of the road liberals, conservatives, and liberals, pinko liberals, middle of the road liberals, and conservatives, and of course by neoconservatives and neoliberals. The search is on for kindred souls, the types who will open their wallets to support whatever it is the hucksters are peddling. But what do these concepts mean, and do their torchbearers grasp the underlying philosophies, or do they care? This bibliography lists over hundreds of entries under each category, which are then indexed by title and author.

Pharmaceutical Freedom Jessica Flanigan, 2017 Jessica Flanigan defends patients' rights of self-medication on the grounds that the same moral reasons against medical paternalism in clinical contexts are also reasons against paternalistic pharmaceutical policies, including prohibitive approval processes and prescription requirements.

[On the Moral Right to Get High](#) Rob Lovering, 2025-06-29 Is getting high immoral? In this book, Rob Lovering defends the claim that it is not. More

specifically he argues that recreational drug use of which getting high is a token is neither intrinsically nor generally extrinsically immoral In other words he contends that recreational drug use is neither immoral in and of itself nor generally immoral due to an immoral making factor with which it may be contingently linked e g harm Lovering does so by offering two arguments for recreational drug use s ultima facie all things considered moral permissibility and critiquing twenty four arguments for its immorality Meant to be a companion to Lovering s *A Moral Defense of Recreational Drug Use* Palgrave Macmillan 2015 which was written for a general audience this book is written for an academic specifically philosophical audience and explores recreational drug use in a deeper more philosophically and empirically rigorous way The Constitution of the War on Drugs David Pozen,2024 In *The Constitution of the War on Drugs* David Pozen provides an authoritative critical constitutional history of the drug war casting new light on both drug prohibition and U S constitutional development Pozen shows the plausibility of a constitutional path not taken in the 1960s and 1970s a path that would have led to a less punitive approach to drug control He explains how and why constitutional resistance to drug prohibition collapsed And he offers a roadmap to constitutional reform options available today **US Foreign Policy and the War on Drugs** Cornelius Friesendorf,2007-02-22 This book examines the geographic displacement of the illicit drug industry as a side effect of United States foreign policy To reduce the supply of cocaine and heroin from abroad the US has relied on coercion against farmers traffickers and governments but this has only exacerbated the world s drugs problems *US Foreign Policy and the War on Dr* *Corners in the City of God* Jonathan Tran,Myles Werntz,2013-10-24 David Simon s *The Wire* lays out before us a city in which people struggle under the weight of poverty political corruption economic despair educational collapse and the drug trade This volume explores the various theological ethical and philosophical challenges presented by *The Wire* As each season of *The Wire* unfolds the moral complexities of life in the city deepen as the failures of one system have unforeseen effects in other corners of the city Fleshing out the ongoing tension between the earthly city and the City of God *Corners in the City of God* is a theological companion to David Simon s masterpiece inviting the reader to wrestle with the implications of belonging fully to the cities of the world in all of their splendor and tragedy

Counter-Terrorism Networks in the European Union Claudia Hillebrand,2012-10-03 *Counter Terrorism Networks in the European Union* Maintaining Democratic Legitimacy after 9 11 presents a model of democratic legitimacy for within international counter terrorism co operation Exploring the current practices of European Union EU counter terrorism policing developed after 9 11 it highlights the current significant challenges to democratic legitimacy and seeks to present tools and solutions which ensure democratic counter terrorism actions and the protection of human rights Counter terrorism policing is now a global concern with co operation between security authorities of different countries a crucial feature in the fight to prevent terrorism and extremism Yet given the emphasis on pre emption this type of policing tends to interfere to a far greater extent with the rights of the individual than traditional policing This book scrutinises the current focus of

enhanced communication between counter terrorist associates at member state and EU levels within Europe alongside analysis of just how far the traditional protective mechanisms of accountability and oversight are managing to keep up with this development It proposes that current forms of counter terrorism policing within the EU should be understood as networks sets of expert institutional nodes or individual agents from at least two countries that are interconnected in order to authorize and provide security with regard to counter terrorism using the European Police Office Europol as a key example

Pleasure Consuming Medicine Kane Race,2009-07-17 An exploration of the symbolic role that the illicit drug user fulfills for the neoliberal state and of counterpublic health measures that do not cast health as antithetical to pleasure **Why**

Privacy Isn't Everything Anita L. Allen,2003 Accountability protects public health and safety facilitates law enforcement and enhances national security but it is much more than a bureaucratic concern for corporations public administrators and the criminal justice system In *Why Privacy Isn't Everything* Anita L. Allen provides a highly original treatment of neglected issues affecting the intimacies of everyday life and freshly examines how a preeminent liberal society accommodates the competing demands of vital privacy and vital accountability for personal matters Thus None of your business is at times the wrong thing to say as much of what appears to be self regarding conduct has implications for others that should have some bearing on how a person chooses to act The book addresses such questions as What does it mean to be accountable for conduct For what personal matters am I accountable and to whom Allen concludes that the sticky webs of accountability that encase ordinary life are flexible enough to accommodate egalitarian moral legal and social practices that are highly consistent with contemporary feminist reconstructions of liberalism **Stoneover** Nikolay Anguelov,Jeffrey

Moyer,2022-01-14 *Stoneover* The Observed Lessons and Unanswered Questions of Cannabis Legalization examines the political and social entrepreneurs that champion marijuana decriminalization efforts their constituents attitudes toward legalization the specific successful reform measures at the state level and the consequent market dynamics in cannabis commerce Each chapter presents a unique dataset with specific contributions in understanding local and national trends and outcomes of more than two decades of cannabis legalization efforts Using detailed analyses of user data the contributors tackle such social issues as legalization activism in the context of calls to defund the police the impact of reforms on immigrant communities the demographic and economic characteristics of legal dispensary customers medical administrative structures youth usage and mortality related to marijuana and other drug use *Stoneover* offers policy makers information for future policy designs with a goal to decrease negative externalities and social inequity **Electronica, Dance and Club**

Bioethics, Medicine and the Criminal Law: Volume 3, Medicine and Bioethics in the Theatre of the Criminal Process Margaret Brazier,Suzanne Ost,2013-05-02 To date little analysis exists of the criminal process's roles as a regulator of medical practice and as an arbiter of bioethics nor whether criminal law is an appropriate forum for judging ethical medical dilemmas The conscription of criminal law into moral controversy and the perceived rise in criminal investigations of medical errors sets the backdrop for this innovative historical and theoretical analysis of the relationship between medicine bioethics and the criminal process Case studies on abortion end of life and the separation of conjoined twins reveal how judges grapple with bioethics in criminal cases and the impact of theatre on the criminal law's response to ethically controversial medical cases A central argument is that bioethics and criminal law are not necessarily incompatible rather it is the theatre surrounding interactions between bioethics and criminal law that often distorts and creates tension

Tolerance : Experiments with Freedom in the Netherlands Cees Maris,2018-08-27 This book presents a collection of philosophical essays on freedom and tolerance in the Netherlands It explores liberal freedom and its limits in areas such as freedom of speech public reason sexual morality euthanasia drugs policy and minority rights The book takes Dutch practices as exemplary test cases for the principled discussions on these subjects from the perspective of political liberalism Indeed the Netherlands may be viewed as a social laboratory in human tolerance During the Cultural Revolution of the 1960s Holland

took the lead in a global emancipation process towards a society based on equal freedom. It was the first country to legalize euthanasia, soft drugs, and gay marriage. In the final sections, the book examines the question of whether the political murders on the politician Pim Fortuyn and the film director Theo van Gogh, the reactions to Ayaan Hirsi Ali's film *Submission*, as well as the success of the populist politician Geert Wilders, are signs of the end of Dutch tolerance. Although it recognizes that the political climate has taken a conservative turn, the book shows that the Netherlands still shows remarkable tolerance.

A Moral Defense of Recreational Drug Use Rob Lovering, 2015-08-12 Why does American law allow the recreational use of some drugs such as alcohol, tobacco, and caffeine but not others such as marijuana, cocaine, and heroin? The answer lies not simply in the harm the use of these drugs might cause but in the perceived morality or lack thereof of their recreational use. Despite strong rhetoric from moral critics of recreational drug use, however, it is surprisingly difficult to discern the reasons they have for deeming the recreational use of some drugs morally wrong. In this book, Rob Lovering lays out and dissects various arguments for the immorality of using marijuana, cocaine, heroin, and other drugs recreationally. He contends that by and large, these arguments do not succeed. Lovering's book represents one of the first works to systematically present, analyze, and critique arguments for the moral wrongness of recreational drug use. Given this, as well as the popularity of the morality-based defense of the United States drug laws, this book is an important and timely contribution to the debate on the recreational use of drugs.

For anyone seeking to clarify their understanding and thinking about rights and wrongs in public affairs.
