Heroes Sages and Madmen is not a book for everyone but its potent message is about everyone It reveals a direct and honest no nonsense revelation for spiritual aspirants who with courage heroism and sincerity are ready to go beyond the limitations of popular religion academic philosophy physical exercise yoga and mental meditation It is a revealing new fresh and amazing look into the four major traditional Paths of Enlightenment It takes you where very few will go It takes you into the midst of the personal attainments blisses challenges pitfalls and dangers of spiritual practices And it takes you into the consciousness and personal strategies of the far reaching socially popular and pretentious pop guru The seventy nine short conversations in this book are guaranteed to convey many key secret spiritual teachings of the past These secret spiritual teachings are traditionally known only by true and ripe spiritual Heroes and authentic Sages Saints and Yogis Within these pages you can discover what causes the social bondage personal dissatisfaction and the failing habitual struggles for inner Happiness and Peace In the midst of the enigma and quagmire of ordinary thinking and analytical minds the author reveals and restates many ancient esoteric secrets of spirituality And most importantly the author shows how you can find a way out of your spiritual social and personal dilemmas In the questions and answers in these conversations many universal truths are delineated from major philosophies religions and spiritual practices and then their apparent differences are explored summed up and reconciled The questions and answers in this book originated from dozens of sincere spiritual aspirants from group sessions e mails personal notes formal letters telephone conversations and one on one sessions since the early 1980s Each question and answer is paraphrased by the author The information knowledge and wisdom in this book have been distilled directly from personal experience from a lifetime of spiritual study and practices The questions and answers are direct and sometimes surprising At other times the authors direct answers may challenge the spiritual assumptions of many neophyte and mature spiritual aspirants The purpose of each answer was to directly serve the sincere spiritual aspirants spiritual development and awakening beyond their popular religious academic philosophical and social belief assumptions In addition popular misunderstandings surrounding classical spiritual teachings and their four major traditional Paths of Enlightenment and practice of yoga are described evaluated and discussed in depth And lastly the thinking analytical meditation methods of popular spiritual movements in the West European cultures are considered in contrast to the contemplative meditations of the great Sages Saints and Yogis of the classical East Non European cultures Unfortunately the English language does not lend itself to explain and define the metaphysical principles and concepts of contemplative spirituality Contemporary English is predominately a language of definitions names forms and objects as demonstrated in English as used throughout the material world for business and commerce Other languages such as Sanskrit Pali Tamil and Hebrew are spoken and written to understand and verbally communicate both the dual physical world of objects and the

multidimensional transcendental spiritual world beyond social psychology and formulative physics For this reason the author has modified many spelling grammar and syntax rules to emphasize and endeavor to explain contemplative concepts that cannot be explained by academic English Therefore you may discover that many sections may contain imperfect spelling grammar and syntax that are ordinarily absent from professionally produced books To assure the authors metaphysical meani

Every Dream is about the Dreamer Barbara Condron,2004 Do other people dream about the same things you do Can dreams be a premonition Or a glimpse of some other dimension How can your child's dreams help you be a better parent What were your childhood dreams trying to tell you Why does the same dream repeat itself again and again Why do we wish some dreams would never end Since www.dreamschool.org became a presence on the Internet thousands of people from around the world have sent emails about their dreams The questions they ask are universal in much the same way as the dreams themselves are These correspondences reveal the common themes that run through our dreams and what they mean Once decoded they become personal mythologies revealing individual quests for success enlightenment and peace For decades students and teachers at the School of Metaphysics have studied dreams as a gateway into nocturnal consciousness

Conte MD PhD,2016-07-06 The book Mysteries of Life Death and Beyond illustrates the fantastic odyssey of human kind from the dawn of creation and through the evolution of mind body and spirit in order to attain our final destination of self realization and union with the Supreme Creator It provides an answer to the age old philosophical question what is the meaning of life Learn what was present prior to the Big Bang and what happened at the time of the Big Bang based upon our current scientific knowledge Discover how galaxies and our solar

system were formed and how life began on planet earth Understand the theory of evolution of the animal species and the eventual development of mankind Find out what really happened in the Garden of Eden and who were the fallen angels and were there really giants in those days Find out if there is life after death and where do we go Do we get more than one chance in life to attain heaven based upon the theory of reincarnation The concept of the triune brain indicates that the human brain is in essence made up of three parts the reptilian brain the limbic system and the neocortex each performing separate neurologic functions but yet interconnected Find out how each affects our thoughts and actions for both good and bad Learn how the seven major energy centers of the body help guide us from material existence up to the higher realms of spirituality and how you can balance each chakra **My Life as an Artificial Creative Intelligence** Mark

Amerika,2022-05-10 A series of intellectual provocations that investigate the creative process across the human nonhuman spectrum Is it possible that creative artists have more in common with machines than we might think Employing an improvisational call and response writing performance coauthored with an AI text generator remix artist and scholar Mark Amerika interrogates how his own psychic automatism is itself a nonhuman function strategically designed to reveal the poetic attributes of programmable worlds still unimagined Through a series of intellectual provocations that investigate the creative process across the human nonhuman spectrum Amerika critically reflects on whether creativity itself is at root a nonhuman information behavior that emerges from an onto operational presence experiencing an otherworldly aesthetic sensibility Amerika engages with his cyberpunk imagination to simultaneously embrace and problematize human machine collaborations He draws from jazz performance beatnik poetry Buddhist thought and surrealism to suggest that his own artificial creative intelligence operates as a finely tuned remix engine continuously training itself to build on the history of avant garde art and writing Playful and provocative My Life as an Artificial Creative Intelligence flips the script on contemporary AI research that attempts to build systems that perform more like humans instead self reflexively making a very nontraditional argument about AI s impact on society and its relationship to the cosmos Before Buddha Was Buddha Rafe Martin,2018-03-20 Discover how ordinary beings a deer a robber a monkey a parrot and more make up the past lives of the Buddha before he was Buddha The jataka tales are ancient Buddhist stories found in both the Pali Canon and Sanskrit tradition recounting the many past lives and ongoing spiritual work of Shakyamuni Buddha on his way to his final birth as Siddhartha Gautama In them we find the Buddha facing difficulties making tough choices doing hard work falling down and getting back up the kind of continuing effort of spiritual practice that all beings face Before Buddha was Buddha focuses on a selection of particular jataka tales in which the Buddha in past lives faces temptations and struggles with self doubt as well as his own shortcomings In these tales he s not beyond life s messes its challenges and disasters but is down in the mix trudging through the mud with the rest of us Each story presented in brief is followed by a commentary pointing to its relevance to our lives and practice realization today **Instinct for Freedom** Alan Clements,2009 Canonical Texts:

Bearers of Absolute Authority – Bible, Koran, Veda, Tipiaka Rein Fernhout, 2023-12-28 This book introduces a new approach to the comparative study of sacred texts here the Christian Bible the Islamic Koran the Hindu Veda and the Buddhist Tipiaka The author demonstrates that in spite of their great differences these works show a fundamental analogy Considered as canonical within their own religious context each text possesses absolute authority in comparison with other authoritative texts from their respective religious traditions This fundamental analogy allows one to describe the growth and history of these canons step by step as a process that takes place in analogous phases that are clearly distinguishable The author follows a strictly phenomenological method he tries to understand the development of these canons in terms of a potential that lies within the phenomena themselves i e the texts while refraining in any way from assessing their claim to absolute authority In part I the author describes the development from the revelation of the texts to a climax with respect to reflection on the canons This climax has been reached in all four cases Part II investigates the crisis that these canons are currently undergoing as a consequence of the modern intellectual climate Can we expect that this crisis will be overcome by the canons And if so will they be in a position of mutual exclusion or will they form a sort of unity such as for example the Old and New Testament in the Christian Bible Finally the author traces what the religions themselves have postulated about the future of their respective canons The result is surprising the current crisis is only faint reflection of what according to age old predictions awaits the canons in the future

Opening a Mountain Steven Heine, 2004-02-26 With the growing popularity of Zen Buddhism in the West virtually everyone knows or thinks they know what a koan is a brief and baffling question or statement that cannot be solved by the logical mind and which after sustained concentration can lead to sudden enlightenment But the truth about koans is both simpler and more complicated than this In Opening a Mountain Steven Heine shows that koans and the questions we associate with them such as What is the sound of one hand clapping are embedded in larger narratives and belong to an ancient Buddhist tradition of encounter dialogues These dialogues feature dramatic and often inscrutable contests between masters and disciples or between masters and an array of natural and supernatural forces rouge priests wild foxes hermits wizards shapeshifters magical animals and dangerous women To establish a new monastery to open a mountain the Zen master had to tame these wild forces in regions most remote from civilization In these extraordinary encounters fingers and arms are cut off pitchers are kicked over masters appear in and interpret each other s dreams and seemingly absurd statements are shown to reveal the deepest insights Heine restores these koans to their original traditions allowing readers to see both the complex elements of Chinese culture and religion that they reflect and the role they played in Zen s transformation of local superstitions into its own teachings Offering a fresh approach to one of the most crucial elements of Zen Buddhism Opening a Mountain is essential reading for anyone seeking to understand the full story behind koans and the mysterious worlds they come from
