*Speech of the Grail* Linda Sussman, 1995-06 In *Speech of the Grail* storyteller and ceremonialist Linda Sussman explores a new way to speak one that heals and transforms She takes for her guide Wolfram von Eschenbach's epic tale of the Grail showing how it depicts a path of initiation toward healing speech to doing the truth in word and action The Grail The word stirs a deep response in the Western imagination Joseph Campbell called the medieval stories where it is first mentioned the founding myth of Western civilization because according to this mythology there is no fixed law no established knowledge of god set up by prophets or priests that can stand against the revelation of a life lived with integrity in the spirit of its own brave truth Campbell and many other scholars artists and seekers have seen the Western wisdom path disclosed in the image of each knight entering the forest where no one else has made a path The quest is to recover the elusive Grail thereby returning its sustenance to the world The presence of the Grail nurtures an invisible web of relationships that connect individual destiny to service of others and to the earth thereby granting meaning Linda Sussman from her introduction Sussman begins with a beautiful retelling of the story allowing readers to inwardly reproduce the potent inner images of the text Then she shows that it is not so much a path toward perfection as a recovery of the proper relationship with our own imperfections She shows too that it is a path in which male and female aspects work together to overcome evil      Social and Cultural Anthropology Nigel Rapport, Joanna Overing, 2000 *Social and Cultural Anthropology The Key Concepts* is the ideal introduction to this discipline defining and discussing its central terms with clarity and authority Among the concepts explored are cybernetics écriture the feminine gossip human Rights moralities stereotypes thick description and violence Each entry is accompanied by extensive cross referencing and an invaluable list of suggestions for further reading      **The West Side of Any Mountain** J. Scott Bryson, 2005-04-01 In contrast to nature poets of the past who tended more toward the bucolic and pastoral many contemporary nature poets are taking up radical environmental and ecological themes In the last few years interesting and evocative work that examines this poetry has begun to lay the foundation for studies in ecopoetics Informed in general by current thinking in environmental theory and specifically by the work of cultural geographer Yi Fu Tuan *The West Side of Any Mountain* participates in and furthers this scholarly attention by offering an overarching theoretical framework with which to approach the field One area that contemporary theorists have found problematic is the

dualistic civilization wilderness binary that focuses on the divisions between culture and nature thereby increasing the modern sense of alienation Tuan's place space framework offers a succinct vocabulary for describing the attitudes of ecological poets and other nature writers in a way that avoids setting up an adversarial relationship between place and space Scott Bryson describes the Tuanian framework and employs it to offer fresh readings of the work of four major ecopoets Wendell Berry Joy Harjo Mary Oliver and W S Merwin The West Side of Any Mountain will be of great interest to scholars and teachers working in the field of contemporary nature poetry It is recommended for nature writing courses as well as classes dealing with 20th century poetry contemporary literary criticism and environmental theory

**The Myth of the Werewolf** Roger Bartra, 2024-12-23 This is a historical and anthropological study of the myth of the werewolf aimed at reflecting on the metamorphoses of evil and understanding the long evolution of a mythical structure Legends and folklore allow us to explore the brutal bestiality of a figure loaded with sexuality eroticism and desire From ancient times to the present day the tragic narrative universe of a strange and dangerous wild world is unfolded with elements of tenderness that has contributed to defining the profile of civilization as its opposite The myth was contaminated with religious fanaticism when werewolves were persecuted and burned during the times of the witch hunts
