Autobiography and Decolonization Philip Holden, 2008 Philip Holden reveals deeply gendered connections between the writing of individual lives and of the narratives of nations emerging from colonialism Autobiography and Decolonization is the first book to give serious academic attention to autobiographies of nationalist leaders in the process of decolonization attending to them not simply as partial historical documents but as texts involved in remaking the world views of their readers Holden examines Mohandas K Gandhi's *An Autobiography The Story of My Experiments with Truth* Marcus Garvey's fragmentary Autobiography Joseph Ephraim Casely Hayford's *Ethiopia Unbound* Lee Kuan Yew's *The Singapore Story* Nelson Mandela's *Long Walk to Freedom* Jawaharlal Nehru's *An Autobiography* and Kwame Nkrumah's *Ghana The Autobiography of Kwame Nkrumah* Holden argues that these examples of life writing have had significant influence on the formation of new and often profoundly gendered national identities These narratives constitute the nation less as an imagined community than as an imagined individual Moving from the past to the promise of the future they mediate relationships between public and private and between individual and collective stories Ultimately they show how the construction of modern selfhood is inextricably linked to the construction of a postcolonial polity

Autobiography of William H. Seward, from 1801 to 1834 William Henry Seward, Frederick William Seward, 1877

Tudor Autobiography Meredith Anne Skura, 2010-02-15 Histories of autobiography in England often assume the genre hardly existed before 1600 But Tudor Autobiography investigates eleven sixteenth century English writers who used sermons a saint's biography courtly and popular verse a traveler's report a history book a husbandry book and a supposedly fictional adventure novel to share the secrets of the heart and tell their life stories In the past such texts have not been called autobiographies because they do not reveal much of the inwardness of their subject a requisite of most modern autobiographies But according to Meredith Anne Skura writers reveal themselves not only by what they say but by how they say it Borrowing methods from affective

linguistics narratology and psychoanalysis Skura shows that a writer's thoughts and feelings can be traced in his or her language Rejecting the search for the early modern self in life writing Tudor Autobiography instead asks what authors said about themselves who wrote about themselves how and why The result is a fascinating glimpse into a range of lived and imagined experience that challenges assumptions about life and autobiography in the early modern period *British Book News*, 1988

meant that when they came out he would be dead and unaware and indifferent and that he was therefore free to speak his whole frank mind The year 2010 marks the 100th anniversary of Twain s death In celebration of this important milestone and in honor of the cherished tradition of publishing Mark Twain s works UC Press is proud to offer for the first time Mark Twain s uncensored autobiography in its entirety and exactly as he left it This major literary event brings to readers admirers and scholars the first of three volumes and presents Mark Twain s authentic and unsuppressed voice brimming with humor ideas and opinions and speaking clearly from the grave as he intended Editors Harriet E Smith Benjamin Griffin Victor Fischer Michael B Frank Sharon K Goetz Leslie Myrick

Trump and Autobiography Nicholas K. Mohlmann, 2021-07-21 The 1970s and 1980s heralded the rise of neoliberalism in United States culture fundamentally reshaping life and work in the United States Corporate culture increasingly penetrated other aspects of American life through popular press CEO autobiographies and management books that encouraged individuals to understand their lives in corporate terms Propelled into the public eye by the publication of 1989's *The Art of the Deal* ostensibly a CEO autobiography Donald Trump has made a career out of reversing the autobiographical impulse presenting an image of his life that meets his narrative needs While many scholars have sought a political precedent for Trump's rise to power this book argues that Trump's aesthetics and life production uniquely primed him for populist political success through their reliance on the tropes of popular corporate culture Trump and Autobiography contextualizes Trump's autobiographical works as an extension of the popular corporate culture of the 1980s in order to examine how Trump constructs an image of himself that is indebted to the forms genres and mechanisms of corporate speech and narrative Ultimately this book suggests that Trump's appeal and resilience rest in his ability to signify as though he is a corporation revealing the degree to which corporate culture has reshaped American society's interpretive processes
