"*Why We Drop Out*" Deborah L. Feldman, Antony T. Smith, Barbara L. Waxman, 2017-07-14 These engaging narratives and unique insights will help readers to better understand the interplay of school related and personal factors that lead students to drop out of school It is essential reading for K12 educators school principals counselors psychologists and everyone concerned with our nations dropout crisis **Dropping Out** Russell W. Rumberger, 2011-10-15 Most kids in the developed world finish high school but not in the United States More than a million drop out every year and the numbers are rising

Dropping Out provides answers to fundamental questions Who drops out and why What happens to them when they do How can we prevent at risk kids from short circuiting their futures **Dropouts From Schools** Lois Weis, Eleanor Farrar, Hugh G. Petrie, 1989-01-01 The authors examine the major groups within the dropout population the myriad of factors within schools that lead to dropping out and the larger social and economic context within which dropping out occurs The resulting synthesis of knowledge and perspectives provided here will enhance our understanding of an important topic that has to this time been given too little attention

Leaving to Learn: How Out-of-School Learning Increases Student Engagement and Reduces Dropout Rates Elliot Washor, Charles Mojkowski, 2013-10-11 In this provocative book authors Washor and Mojkowski observe that beneath the worrisome levels of dropouts from our nation s high school lurks a more insidious problem student disengagement from school and from deep and productive learning To keep students in school and engaged as productive learners through to graduation schools must provide experiences in which all students do some of their learning outside school as a formal part of their programs of study All students need to leave school frequently regularly and of course temporarily to stay in school and persist in their learning To accomplish this schools must combine academic learning with experiential learning allowing students to bring real world learning back into the school where it should be recognized assessed and awarded academic credit Learning outside of school as a complement to in school learning provides opportunities for deep engagement in rigorous learning **Dropping Out of School** Heidi Watkins, 2012-10-26 This volume explores issues related to dropping out of school including reasons for dropping out of school the economic impact of dropping out of school and new strategies to decrease dropout rates A collection of essays presents diversity of opinion on each topic including both conservative and liberal points of view in an even balance Essay sources include the Alliance for Excellent Education Advancement Project Dale Mezzacappa Jeff Kelly Lowenstein and Sarah Karp **School Dropout and Completion** Stephen Lamb, Eifred Markussen, Richard Teese, Nina Sandberg, John Polesel, 2010-11-29 School dropout remains a persistent and critical issue in many school systems so much so that it is sometimes referred to as a crisis

Populations across the globe have come to depend on success at school for establishing careers and gaining access to post school qualifications Yet large numbers of young people are excluded from the advantages that successful completion of school brings and as a result are subjected to consequences such as higher likelihood of unemployment lower earnings

greater dependence on welfare and poorer physical health and well being Over recent decades most western nations have stepped up their efforts to reduce drop out and raise school completion rates while maintaining high standards How school systems have approached this and how successful they are varies This book compares the various approaches by evaluating their impact on rates of dropout and completion Case studies of national systems are used to highlight the different approaches including institutional arrangements and the various alternative secondary school programs and their outcomes The evaluation is based on several key questions What are the main approaches How do they work For whom do they work And how successful are they in promoting high rates of completion and equivalent outcomes for all This book examines the nature of the dropout problem in advanced industrialized countries with the goal of developing a broader international understanding that can feed into public policy to help improve completion rates worldwide
