Committee on the Judiciary, 2010 Management of Alcohol- and Drug-related Issues in the Workplace International Labour Office, 1996 Problems relating to alcohol and drug use may arise from personal family or social factors from certain work situations or from a combination of these elements Such problems may harm not only the workers health and well being but also their work and job performance Given this multiplicity of causes multiple approaches to prevention assistance treatment and rehabilitation are needed The elimination of substance abuse is difficult to achieve in practice but workplace policies to assist people with drink or drug problems seem to yield the best results for workers and employers alike **Confronting the Drug Problem** DIANE Publishing Company, 1994-04 **Drug Use Among Racial/ethnic Minorities** Andrea N. Kopstein, 1998 Current Trends and Issues in Drug Abuse Planning and Human Systems, Inc, 1979 **Nanotechnology-Based Sensing Platforms for Illicit Drugs** Sayan Ganguly, Poushali Das, Amin Reza Rajabzadeh, Seshasai Srinivasan, 2025-04-11 Nanotechnology Based Sensing Platforms for Illicit Drugs reviews different types of sensors that detect illicit drugs with a special focus on the advantages provided by incorporating nanotechnology in their design The book starts with the fundamentals classification progress the current state of research on nanotechnology based sensors and an overview of materials commonly used Subsequent chapters focus on the chemical interactive behaviors of drugs and their detection methods It includes a thorough discussion on the design fabrication and characterization of sensors for illicit drug detection Final sections provide an overall outlook on recent technological advances in drug detection devices and future research This book is a valuable resource for researchers scientists and professionals interested in biosensors nanotechnology and their applications in illicit drug detection Reviews cutting edge research in the fabrication characterization properties and application of sensors for illicit drugs Presents a wide range of applications for nanomaterials in sensor based technologies Highlights sensing mechanisms and their behavior against different molecules SAMHSA News , 1995 **Drug War Politics** Eva Bertram, Morris Blachman, Kenneth Sharpe, Peter Andreas, 1996-07-15 Why have our drug wars failed and how might we turn things around Ask the authors of this hardhitting expos of U S efforts to fight drug trafficking and abuse In a bold analysis of a century s worth of policy failure Drug War Politics turns on its head many familiar bromides about drug politics It demonstrates how instead of learning from our failures we duplicate and reinforce them in the same flawed policies The authors examine the politics of denial that has led to this catastrophic predicament and propose a basis for a realistic and desperately needed solution Domestic and foreign drug wars have consistently fallen short because they are based on a flawed model of force and punishment the authors show The failure of these misguided solutions has led to harsher get tough policies debilitating cycles of more force and punishment and a drug problem that continues to escalate On the foreign policy front billions of dollars have been wasted

corruption has mushroomed and human rights undermined in Latin America and across the globe Yet cheap drugs still flow abundantly across our borders At home more money than ever is spent on law enforcement and an unprecedented number of people disproportionately minorities are incarcerated But drug abuse and addiction persist The authors outline the political struggles that help create and sustain the current punitive approach They probe the workings of Washington politics demonstrating how presidential and congressional out toughing tactics create a logic of escalation while the criticisms and alternatives of reformers are sidelined or silenced Critical of both the punitive model and the legalization approach Drug War Politics calls for a bold new public health approach one that frames the drug problem as a public health not a criminal concern The authors argue that only by situating drug issues in the context of our fundamental institutions the family neighborhoods and schools can we hope to provide viable treatment prevention and law enforcement In its comprehensive investigation of our long futile battle with drugs and its original argument for fundamental change this book is essential for every concerned citizen
