Conserving Human Life:

Artificial Nutrition and Hydration and the Permanently Unconscious Patient Ronald P. Hamel, James J.

Walter, 2007-09-13 During the past few decades high profile cases like that of Terry Schiavo have fueled the public debate over forgoing or withdrawing artificial nutrition and hydration from patients in a persistent vegetative state PVS These cases whether involving adults or young children have forced many to begin thinking in a measured and careful way about the moral legitimacy of allowing patients to die Can families forgo or withdraw artificial hydration and nutrition from their loved ones when no hope of recovery seems possible Many Catholics know that Catholic moral theology has formulated a well developed and well reasoned position on this and other end of life issues one that distinguishes between ordinary and extraordinary treatment But recent events have caused uncertainty and confusion and even acrimony among the faithful In his 2004 allocution Pope John Paul II proposed that artificial nutrition and hydration is a form of basic care thus suggesting that the provision of such care to patients neurologically incapable of feeding themselves should be considered a moral obligation The pope's address which seemed to have offered a new development to decades of Catholic health care ethics sparked a contentious debate among the faithful over how best to treat permanently unconscious patients within the tenets of Catholic morality In this comprehensive and balanced volume Ronald Hamel and James Walter present twenty one essays and articles contributed by physicians clergy theologians and ethicists to reflect the spectrum of perspectives on the issues that define the Catholic debate Organized into six parts each with its own introduction the essays offer clinical information on PVS and feeding tubes discussions on the Catholic moral tradition and how it might be changing ecclesiastical and pastoral statements on forgoing or withdrawing nutrition and hydration theological and ethical analyses on the issue commentary on Pope John Paul II's 2004 allocution and the theological commentary court decisions and public policy resulting from the Clarence Herbert and Claire Conroy legal cases A valuable resource for students and scholars this teachable volume invites theological dialogue and ethical discussion on one of the most contested issues in the church today

Saving Human Lives Robert E. Allinson, 2006-05-20 This is a pioneering work Recent disasters such as the tsunami disaster continue to demonstrate Professor Allinson's thesis that valuing human lives is the core of ethical management His unique comparison of the ideas of the power of Fate and High Technology his penetrating analysis of the very concept of an accident demonstrate how concepts rule our lives His wide ranging investigation of court cases and government documents from the seventeenth through the twentieth centuries and from places as diverse as the USA UK and New Zealand provide ample supporting evidence for the universality and the power of explanation of his thesis Saving Human Lives will have an impact beyond measurement on the field of management ethics The Sacredness of Human Life David P.

Gushee, 2013-01-14 A comprehensive examination of the sacredness of human life encompassing biblical roots theological elaborations historical cases and contemporary ethical perspectives Gushee argues that viewing human life as sacred is one

of the most precious legacies of biblical faith albeit one that the church has too often failed to uphold *The Age of Light, Soap, and Water* Mariana Valverde, 2008-01-01 BACK IN PRINT WITH A NEW INTRODUCTION The turn of the last century saw a great wave of moral fervour among Protestant social reformers in English Canada Their targets for moral reform were various sex hygiene immigration policy slum clearance prostitution and white slavery Mariana Valverde's groundbreaking *The Age of Light Soap and Water* examines the work and the ideas of moralist clergy social workers politicians and bureaucrats who sought to maintain or create a white Protestant Canada The morality idealized by evangelical feminist and medical activists was not as is often assumed completely repressive and puritanical On the contrary the self defined social purity movement at the centre of this book talked endlessly about sex in order to create a healthy sexuality among both native born and immigrant Canadians Sexual health was linked to racial purity and both of these were in turn linked to efforts to abolish urban slums by means of symbolic as well as physical light soap and water Back in print with a new introduction by the author this classic work offers fascinating insights on the social history of Canada clearance prostitution and white slavery Mariana Valverde's groundbreaking *The Age of Light Soap and Water* examines the work and the ideas of moralist clergy social workers politicians and bureaucrats who sought to maintain or create a white Protestant Canada The morality idealized by evangelical feminist and medical activists was not as is often assumed completely repressive and puritanical On the contrary the self defined social purity movement at the centre of this book talked endlessly about sex in order to create a healthy sexuality among both native born and immigrant Canadians Sexual health was linked to racial purity and both of these were in turn linked to efforts to abolish urban slums by means of symbolic as well as physical light soap and water This study uncovers a little known dimension of Canadian social history and shows that moral reform was not the project of a marginal puritanical group but was central to the race class and gender organization of modern English Canada

Reconciling Human Needs and Conserving Biodiversity: Large Landscapes as a New Conservation Paradigm

Bila-Isia Inogwabini, 2020-02-18 Protected areas have often been defined as the backbones of biodiversity conservation Protected areas have often been defined as the backbones of biodiversity conservation However legitimate demands formulated by countries for their economic development growing human populations forest fragmentations and needs of local communities for sustainable livelihoods are also pressing demands on protected areas stringently pressuring conservation community to identify means to reconcile long term biodiversity conservation and communities livelihoods Hence integrating conservation activities within the global framework of economic development of countries with high biodiversity had become part of conservation paradigms Integrated development as a route to conservation strict protected areas community managed areas etc have been tried but resulted in debatable outcomes in many ways The lukewarm nature of these results brought landscape approach at the front of biodiversity conservation in Central Africa Since the late 1990s the landscape approach uses large areas with different functional attributes and shifts foundational biodiversity conservation paradigms

Changes are brought to the role traditionally attributed to local communities aligning sustainable development with conservation and stretching conservation beyond the confines of traditional protected areas These three shifts need a holistic approach to respond to different conservation questions There are only a few instances where the landscape experience has been scientifically documented and lessons learnt drawn into a corpus of knowledge to guide future conservation initiatives across Central Africa To subjugate one biodiversity conservation landscape as one case study emerged as a matter of urgency to present the potential knowledge acquired throughout the landscape experiment including leadership and management processes tried results at least partially achieved and why such and such other process or management arrangement were been chosen among many other alternatives etc The challenges of the implementation of the conservation landscape approach needed also to be documented This book responds to the majority of these questions drawing its content from the firsthand field knowledge it discusses these shifts and documents what has been tried how successful unsuccessful it was and what lessons learnt from these trials Theoretical questions such as threat index and ecological services etc are also discussed and gaps in knowledge are identified

Annual Report of the Operations of the United States Life-saving Service for the Fiscal Year Ending June 30, 1876 Anonymous,2025-08-10 Reprint of the original first published in 1876 The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage Stories of Vigilant Courage Adam Hildebrand,2008-08 If you find yourself at the bedside of a child with multiple handicaps and complex medical needs you need to read this book Whether you are a nurse doctor parent or family member health care professional or a personal ally of an individual who is disabled you will benefit from reading the stories in the book and the analysis of issues by the editor It sometimes happens that some people

whether a professional or not will be tempted to think of such children as better off dead an extremely dangerous assumption
 Illness and suffering do not diminish the value of a person s life and no one has the right to decide whether or not a person should live or die This book gives firsthand accounts of the experiences of handicapped children and their families in health care settings Their experiences vary from doctor to doctor nurse to nurse and hospital to hospital The key difference is that some people held a strong belief that every person s life has intrinsic value and that their lives were sacred Yet others measured the value of a life according to external factors such as level of disability impairments and level of suffering whether presumed or real You can guess which people gave better care and which children lived longer and better accordingly In spite of the difficult challenges that handicapped children and their families face as described in these stories this book is a book of hope You will be inspired by the courageous tenacity of parents who literally stood at the bedside of their children often for months and protected and affirmed the well being of their child This is a book about people who made a difference a difference between life and death

On Being Human Ray S. Anderson,2010-10-01 What does it mean to be human How does a right understanding of personhood affect decisions on critical life situations What implications does a biblical perspective on personhood have for the pastoral ministry of healing and hope In answering these questions Ray S Anderson focused on the person as determined by and sustained by the creative power of God He explored the the implications of a biblical understanding of personhood for such critical issues as human sexuality family relationships abortion and death He broke new ground in relating pastoral care and counseling to contemporary issues which challenge Christians and their understanding of the meaning of human life
