Constructing The Holocaust:

Constructing the Holocaust Dan Stone, 2003 On the one hand then this is traditional historiography the history of history writing On the other hand the problem is approached via recent work in the philosophy of history closely analysing historical works as texts This is an interdisciplinary study that brings to bear on historiography the kind of textual analysis usually reserved for fiction testimony or film The Holocaust precisely because it throws into doubt older methodologies demands the search for new ones Showing how Holocaust historians inadvertently and paradoxically reinscribe into the wider culture patterns of thought that the Holocaust repudiated Constructing the Holocaust tries to respond to the Holocaust in a way that recognises its potential impact on usually unquestioned beliefs and unspoken methodological assumptions

Constructing the Enemy Rajini Srikanth, 2011-12-09 In her engaging book Constructing the Enemy Rajini Srikanth probes the concept of empathy attempting to understand its different types and how it is or isn't generated and maintained in specific circumstances Using literary texts to illuminate issues of power and discussions of law Srikanth focuses on two case studies the internment of Japanese citizens and Japanese Americans in World War II after the bombing of Pearl Harbor and the detainment of Muslim Americans and individuals from various nations in the U S prison at Guantanamo Bay Through primary

Global Political Leadership Małgorzata Zachara-Szymańska ,2022-01-01 Global Political Leadership explores contemporary shifts in leadership and the related leadership crisis in the global world Globalization is now perceived as a threatening and hostile force with many of its advocates and political supporters turning away from it but its processes cannot be reversed New powers emerge old ones re emerge and uncertainty about the future global order is increasing This book tells the inside stories of global power games and asks important questions about the leadership crisis in the western world The author provides an interpretative framework for contemporary shifts within the western political sphere based on the concept of global leadership This framework presents the nature of the transformation caused by global processes as part of which force and coercion have ceased to be the main modus operandi of the international realm The issue of global political leadership has often been neglected in international relations literature while being widely exploited by managerial and organizational studies However all social organizations have gone global within the last several decades they are more interconnected and more dependent on global processes so the question of effective leadership strategies matching these new realities is highly necessary even or especially at a time when globalization is no longer seen as a leading political programme This book will be of great interest to students and scholars of global affairs politics and international relations leadership and development and diplomatic studies The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

Representations of Anne Frank in American Literature Rachael McLennan,2016-08-05 This book explores portrayals of Anne Frank in American literature where she is often invoked if problematically as a means of encouraging readers to think widely about persecution genocide and victimisation often in

relation to gender ethnicity and race It shows how literary representations of Anne Frank in America over the past 50 years reflect the continued dominance of the American dramatic adaptations of Frank s Diary in the 1950s and argues that authors feel compelled to engage with the problematic elements of these adaptations and their iconic power At the same time though literary representations of Frank are associated with the adaptations critics often assume that these texts unquestioningly perpetuate the problems with the adaptations This is not true This book examines how American authors represent Frank in order to negotiate difficult questions relating to representation of the Holocaust in America and in order to consider gender coming of age and forms of inequality in American culture in various historical moments and of course to consider the ways Frank herself is represented in America This book argues that the most compelling representations of Frank in American literature are alert to their own limitations and may caution against making Frank a universal symbol of goodness or setting up too easy identifications with her It will be of great interest to researchers and students of Frank the Holocaust in American fiction and culture gender studies life writing young adult fiction and ethics
