Defining Iran Shabnam J. Holliday, 2016-05-13 *Defining Iran* presents a new and revealing analysis of the way in which Iranian political discourses compete with each other by examining them within the framework of national identity construction. By deconstructing the intellectual roots and development of Iranian national identity, Shabnam Holliday advocates the need to study Iran's heritage and historical experience to understand key shifts and processes in contemporary Iranian politics. Holliday convincingly argues that competing discourses of national identity advocated by political figures from Musaddiq to the current administration demonstrate a politics of resistance to both internal and external forces. With a particular emphasis on Khatami's presidency, this study compares the meanings attached by significant members of the Iranian political elite to concepts including Iran's pre-Islamic heritage, Islamic heritage, civilization, democracy, and the West. Furthermore, discourses of Iranian national identity exist not in isolation but rather as part of a continuous process of construction and reconstruction in Iran's journey of political development, a process manifested so vividly in the revolution of 1979 and the fallout from the 2009 presidential election. *Defining Iran* simultaneously furthers our understanding of the conceptualization of national identity both generally and specifically in the case of Iran and political dynamics which shape contemporary Iran.

Translating National Identities Between China and the West Xinnian Zheng, 2025-05-30 This book explores the discursive construction of national identities in diplomatic political discourse focusing on translation's pivotal role. It examines diplomatic exchanges between China and the West from 1792 to 1867, a period marked by China's national identity crisis. By combining Descriptive Translation Studies (DTS) with Discourse Historical Approach (DHA), the book uncovers how translation shaped the national identities of both China and the West during a time of intercultural conflict and change. Through the analysis of 29 authentic historical documents, the book offers a groundbreaking analysis of how translators at the Qing court initially portrayed China as superior and the West as inferior. However, as China's global position shifted, so did its translation strategies, gradually transforming China's national identity to be seen as equal to the West. During diplomatic interactions, translators played a crucial role in shaping perceptions of both Chinese and Western identities, thereby influencing international relations. Essential for scholars and students of translation studies, political discourse, and Chinese history, this book goes beyond traditional analysis, offering a new perspective on the intricate relationship between translation, power, and identity. Its blend of qualitative and quantitative methods provides a comprehensive view of East-West relations during a pivotal period in world history.

The Oxford Handbook of Identity Development Kate C. McLean, Moin U. Syed, 2015 Identity is defined in many different ways in various disciplines in the social sciences and sub-disciplines within psychology. The developmental psychological approach to identity is characterized by a focus on developing a sense of the self that is temporally continuous and unified across the different life spaces that individuals inhabit. Erikson proposed that the task of adolescence and young adulthood was to define the self by answering the question "Who Am I?" There have been many

advances in theory and research on identity development since Erikson's writing over fifty years ago and the time has come to consolidate our knowledge and set an agenda for future research. The Oxford Handbook of Identity Development represents a turning point in the field of identity development research. Various and disparate groups of researchers are brought together to debate, extend, and apply Erikson's theory to contemporary problems and empirical issues. The result is a comprehensive and state-of-the-art examination of identity development that pushes the field in provocative new directions. Scholars of identity development, adolescent and adult development, and related fields, as well as graduate students, advanced undergraduates, and practitioners will find this to be an innovative, unique, and exciting look at identity development.

Security as Practice Lene Hansen, 2013-04-03. This important text offers a full and detailed account of how to use discourse analysis to study foreign policy. It provides a poststructuralist theory of the relationship between identity and foreign policy and an in-depth discussion of the methodology of discourse analysis. Part I offers a detailed discussion of the concept of identity, the intertextual relationship between official foreign policy discourse and oppositional and media discourses, and of the importance of genres for authors' ability to establish themselves as having authority and knowledge. Lene Hansen devotes particular attention to methodology and provides explicit directions for how to build discourse analytical research designs. Part II applies discourse analytical theory and methodology in a detailed analysis of the Western debate on the Bosnian war. This analysis includes a historical genealogy of the Western construction of the Balkans, as well as readings of the official British and American policies, the debate in the House of Commons and the US Senate, Western media representations, academic debates, and travel writing and autobiography. Providing an introduction to discourse analysis and critical perspectives on international relations, this book will be essential reading for students and scholars of international relations, discourse analysis, and research methodology.

Construction of an Identity Discourse Subhakanta Behera, 2002. This book focuses primarily on the Oriya identity as defined and constructed in the two important Oriya identity texts: *E Oriya Literature* and *The Jagannath Cult*.

Entrepreneurial Identity Thomas N. Duening, Matthew L. Metzger, 2017-05-26. Entrepreneurship is an academic discipline that, despite decades of growth in research and teaching activity, lacks a traditionally distinct or common theoretical domain. In this book, editors Thomas N. Duening and Matthew Metzger explore entrepreneurial identity facets of entrepreneurship education in forming and developing this identity and the development of entrepreneurs in general. Chapters focus primarily on macro-level identity issues, i.e., how do these entrepreneurial archetypes form, persist, and sometimes change, or micro-level identity issues, i.e., how can educators and resource providers identify, communicate, and incentivize identity construction among aspiring entrepreneurs, topics that will be of interest to researchers and students alike.

U.S. Foreign Policy Discourse and the Israel Lobby Keith Peter Kiely, 2017-08-01. This book seeks to debunk the popular myth of an all-powerful pro-Israel lobby. Here, Kiely demonstrates how discourses surrounding American identity and US foreign policy towards the Israeli-Palestinian conflict, which has deep

roots in American historicity have constructed an understanding of the conflict which is inherently more susceptible to the Israeli narrative Kiely argues that the so called power of what other researchers such as Mearsheimer and Walt 2006 2007 call The Israel Lobby are limited by these discourses It is the author s contention that groups such as The American Israel Public Affairs Committee AIPAC serve to amplify and reproduce existing representations within these discourses which align the United States and Israel in terms of cultural historical and political values while simultaneously reinforcing dominant representations of the Palestinian Other

The Language of Nation-State Building in Late Qing China Qing Cao, 2023-01-31

The Language of Nation State Building in Late Qing China investigates the linguistic and intellectual roots of China s modern transformation by presenting a systematic study of the interplay between language innovation and socio political upheavals in the final decade of the Qing Dynasty This book examines the formations internal tensions and promotion of such macroconcepts as nation people guomin nation minzu society qun state guojia and revolution gemin as novel ideas borrowed from Europe but mediated through Meiji Japan Using corpus based discourse analysis of the full text corpus 4.2 million words of the two most influential periodicals Xinmin Congbao and Minbao this book scrutinises the multi faceted formulations of these concepts and their impact It underscores the adaptation and appropriation of European post enlightenment values to the socio political conditions of late Qing society The analysis centres on the epic debate 1905-7 between these two periodicals that offered two distinctive visions of future China Comparable to the great eighteenth century debate between Edmund Burke and Thomas Paine on the French Revolution the Chinese debate has hitherto attracted little scholarly attention outside China Yet it not only turned the tidal wave of public opinion against the Manchu monarchy and contributed to its downfall in 1911 it has also given rise to a radical undercurrent of intellectual thinking whose ramifications have been keenly felt throughout twentieth century China This book represents the first study in English on this press debate that contributes significantly to the intellectual foundation of modern China This book will be useful and relevant to academics postgraduate students and final year undergraduate students in the field of Chinese studies and anyone interested in the role of language in shaping modern intellectual history
