Construction Contract Administration:

Administration of Construction Contracts Santosh Srivastava, 2016-04-08 A contract or an agreement is associated with almost everything wherein more than one person or party is involved Whether it s a marriage purchase of a property or construction of a project all need a proper contract and in turn they need resilient and robust contract administration Today large value and complex contracts have to cater to the needs of globalization increased regulations and the ever changing technologies These complexities have contributed to an environment rendering administration of a contract difficult Therefore projects are prone to delays additional unforeseen expenses and may also all together lead to a project failure This has also led many organizations to view a contract as a tool to have undue control by imposing rigid standards and conditions oblivious to the fact that these may not always be to their advantage It is with this intent that this book has been written by an experienced contracts manager who has had a first hand experience of the struggle while going through a jargon of clauses and documents within a contract The basis of expectations requires an overall understanding of the contract and the author expects that this book comes handy to such a professional in his her pursuit of excellence

Introduction to Construction Contract Management Brian Greenhalgh, 2016-08-05 This book is an introduction to construction contract administration and management covering the delivery and execution stage of a construction project and the various issues which the contract administrator needs to proactively manage It can therefore be used as a contract administrator s resource book covering what needs to be done and why to keep a construction project on track from a commercial and contractual perspective It is particularly appropriate for students and new practitioners from varied construction professions and whilst it covers domestic UK projects it will be particularly useful for those studying and working on international projects where terminology procedures and legal systems may differ from the UK The content is split into four parts and is subdivided into easy to read chapters replicating the timeline of a project during the construction stage Part A covers initiating the construction stage project delivery mechanisms contract administration and health and safety management Part B covers managing the construction stage contractor performance and relationship management Part C covers finalising the construction stage project completion and close out Part D covers claims and disputes Introduction to Construction Contract Management will be particularly useful for students enrolled on global construction programmes together with international distance learning students and non cognate graduates starting out on an international career in construction contract administration and quantity surveying

Fundamentals of Building Contract Management Thomas E. Uher, Philip Davenport, 2002 Contracts are vital to the construction delivery process they direct and govern every move This book strips the legal mystique and jargon from contracts and exposes their basic logic

Construction Contract Administration Charles S. Phillips, 2014-05-14 This book is designed to help those working with privately awarded construction projects meet construction safety goals It serves as a guide and general reference for the many subjects that must be considered in the

production and site management of a construction contract *The Aqua Group Guide to Procurement, Tendering and Contract Administration* Mark Hackett, Gary Statham, 2016-03-22 This key text for the building team is an authoritative guide and gives a detailed account of the team's roles and responsibilities with best industry practice required to ensure that building projects meet clients' expectations on time, cost and quality. The second edition of *The Aqua Group Guide to Procurement, Tendering and Contract Administration* has been edited, enlarged and updated by a high profile author team with unparalleled experience of both private and public sectors as well as of teaching on QS courses. It covers the entire building process from inception to final account and throughout the emphasis is on current best practice. This edition has new material on the CDM regulations, JCT contracts, the RIBA Plan of Work, the RICS New Rules of Measurement, BIM and Sustainability as well as a general update for industry changes especially on procurement, internationalisation and PFI. With clear and thorough explanations you are taken through self-contained chapters covering the detail of the briefing stage, procurement methods, tendering procedures and contract administration. The period from starting a college course to successful completion of professional examinations represents a long and steep learning curve. The range of skills and the knowledge required to perform work efficiently and effectively might at first seem rather daunting. Although designed as an introductory textbook for undergraduates in construction, architecture and quantity surveying, *The Aqua Group Guide* offers an excellent overview of contract administration and will provide you with sufficient understanding to hold you in good stead for your early years in professional practice.

JCT Contract Administration Pocket Book Andrew Atkinson, 2015-06-05 Successfully managing your JCT contracts is a must and this handy reference is the swiftest way to doing just that. Making reference to best practice throughout the JCT Standard Building Contract SBC, Q and DB used as examples to take you through all the essential contract administration tasks including Procurement paths, Payment, Final accounts, Progress completion and delay, Subcontracting, Defects and quality control. In addition to the day to day tasks this also gives you an overview of what to expect from common sorts of dispute resolution under the JCT as well as a look at how to administer contracts for BIM compliant projects. This is an essential starting point for all students of construction contract administration as well as practitioners needing a handy reference to working with the JCT.

Contract Administration Ian Davies, 2019-06-27 The RIBA Plan of Work 2013 Guide Design Management is part of a brand new series providing must read practical guidance to running efficient and successful projects using the new RIBA Plan of Work 2013.
