Containing Nationalism:

Containing Nationalism Michael Hechter, 2000 Nationalism has become the most prevalent source of political conflict and violence in the world Scholarship has provided scant guidance about the prospects of containing the dark side of nationalism its widely publicized excesses of violence such as ethnic cleansing and genocide Departing from the usual practice of considering only a few examples of nationalism drawn from a limited geographical and historical canvas this book is based on fundamental theoretical ideas about the formation and solidarity of groups Containing Nationalism offers a unified explanation of the dynamics of nationalism across the broad sweep of time and space Among other things it explains why nationalism is supported by specific forms of inequality between cultural groups and why it is inclusive at some times and exclusive at others Nationalism is the attempt of culturally distinct peoples to attain political self determination Self determination was generally afforded by traditional states which employed a form of governance based on indirect rule After the late 18th century the rise of the modern state led to a new form of governance characterized by direct rule Containing Nationalism argues that the impetus for the most common type of nationalism arises from the imposition of direct rule in culturally heterogeneous societies Direct rule stimulates national identity by making cultural distinctions more salient for individuals life chances At the same time it reduces the resources of local elites giving them a motive to mobilize nationalist opposition to central authorities All told these effects heighten the demand for sovereignty The book suggests that political institutions that reintroduce indirect rule offer the leaders of modern countries the best available means of containing nationalist violence within their borders

Containing Nationalism Michael Hechter, 2001-08-30 Nationalism has become the most prevalent source of political conflict and violence in the world Scholarship has provided scant guidance about the prospects of containing the dark side of nationalism its widely publicized excesses of violence such as ethnic cleansing and genocide Departing from the usual practice of considering only a few examples of nationalism drawn from a limited geographical and historical canvas this book is based on fundamental theoretical ideas about the formation and solidarity of groups Containing Nationalism offers a unified explanation of the dynamics of nationalism across the broad sweep of time and space Among other things it explains why nationalism is largely confined to modern history why it is supported by specific forms of inequality between cultural groups and why it is inclusive at some times and exclusive at others Nationalism is the attempt of culturally distinct peoples to attain political self determination Self determination was generally afforded by traditional states which employed a form of governance based on indirect rule After the late 18th century the rise of the modern state led to a new form of governance characterized by direct rule Containing Nationalism argues that the impetus for the most common type of nationalism arises from the imposition of direct rule in culturally heterogeneous societies Direct rule stimulates national identity by making cultural distinctions more salient for individuals life chances At the same time it reduces the resources of local elites giving them a motive to mobilize nationalist opposition to central authorities All told

these effects heighten the demand for sovereignty The book suggests that political institutions that reintroduce indirect rule offer the leaders of modern countries the best available means of containing nationalist violence within their borders

Containing nationalism Michael Hechter,2000 [Containing Nationalism](#) Michael Hechter,2000-02-24 Nationalism has become the most prevalent source of political conflict and violence in the world Scholarship has provided scant guidance about the prospects of containing the dark side of nationalism its widely publicized excesses of violence such as ethnic cleansing and genocide Departing from the usual practice of considering only a few examples of nationalism drawn from a limited geographical and historical canvas this book is based on fundamental theoretical ideas about the formation and solidarity of groups Containing Nationalism offers a unified explanation of the dynamics of nationalism across the broad sweep of time and space Among other things it explains why nationalism is supported by specific forms of inequality between cultural groups and why it is inclusive at some times and exclusive at others Nationalism is the attempt of culturally distinct peoples to attain political self determination Self determination was generally afforded by traditional states which employed a form of governance based on indirect rule After the late 18th century the rise of the modern state led to a new form of governance characterized by direct rule Containing Nationalism argues that the impetus for the most common type of nationalism arises from the imposition of direct rule in culturally heterogeneous societies Direct rule stimulates national identity by making cultural distinctions more salient for individuals life chances At the same time it reduces the resources of local elites giving them a motive to mobilize nationalist opposition to central authorities All told these effects heighten the demand for sovereignty The book suggests that political institutions that reintroduce indirect rule offer the leaders of modern countries the best available means of containing nationalist violence within their borders *Critique of Political*

Decolonization Bernard Forjwuor,2023-05-24 What is political independence As a political act what was it sanctioned to accomplish Is formal colonialism over or a condition in the present albeit mutated and evolved In *Critique of Political Decolonization* Bernard Forjwuor challenges what in normative scholarship has become a persistent conflation of two different concepts political decolonization and political independence This scholarly volume is an antinormative and critical refutation of the decolonial accomplishment of political independence or self determination in Ghana He argues that political independence is insufficiently a decolonial claim because it is framed within the context of a country where a permanent colonial settlement was never deemed necessary for the consolidation of future colonial political obligations So while territorial dissolution was politically engineered by Ghanaians the colonial merely reconstitutes itself in different legal and ideological forms Forjwuor offers new methodological theoretical and conceptual approaches to engaging the questions of colonialism political independence political decolonization justice and freedom and constructs multiple conceptual bridges between traditional disciplinary fields of inquiry including politics history law African studies economic history critical theory and philosophy and political theory Using the Ghanaian experience as a rich case study Forjwuor rethinks what colonialism

and decolonization mean and asserts that decolonization is primarily a question of justice

Nationalism and Minority Identities in Islamic Societies Maya Shatzmiller, 2005 The movement of nation building in Islamic societies away from the secular or Pan Arab models of the early twentieth century toward a variety of nationalisms was accompanied by growing antagonism between the Muslim majority and ethnic or religious minorities The papers in *Nationalism and Minority Identities in Islamic Societies* offer a comparative analysis of how these minorities developed their own distinctive identities within the modern Islamic nation state The essays focus on identity formation in five minority groups Copts in Egypt Baha is and Christians in Pakistan Berbers in Algeria and Morocco and Kurds in Turkey and Iraq While every minority community is distinctive the experiences of each show that a state's authoritarian rule uncompromising attitude towards expressions of particularism and failure to offer tools for inclusion are all responsible for the politicization and radicalization of minority identities The place of Islam in this process is complex while its initial pluralistic role was transformed through the creation of the modern nation state the radicalization of society in turn radicalized and politicized minority identities Minority groups though at times possessing a measure of political autonomy remain intensely vulnerable Contributors include Juan R I Cole University of Michigan David L Crawford Fairfield University Michael Gunter Tennessee Technological University Azzedine Layachi St John's University Richard C Martin Emory University Paul S Rowe University of Western Ontario Maya Shatzmiller University of Western Ontario Charles D Smith University of Arizona Pieternella van Doorn Harder Valparaiso University the late Linda S Walbridge University of Oklahoma and M Hakan Yavuz University of Utah Announcing the series *Studies in Nationalism and Ethnic Conflict* General Editors Sid Noel and Richard Vernon co directors of University of Western Ontario's Nationalism and Ethnic Conflict Research Group *Studies in Nationalism and Ethnic Conflict* is a series that examines the political dimensions of nationality in the contemporary world The series includes both scholarly monographs and edited volumes which consider the varied sources and political expressions of national identities the politics of multiple loyalty the domestic and international effects of competing identities within a single state and the causes of and political responses to conflict between ethnic and religious groups The volumes are designed for use by university students scholars and interested general readers

Citizenship and Identity John Schwarzmantel, 2003-08-29 *Citizenship and Identity* offers an analysis of contemporary politics and of the scepticism and apathy which characterise the political life of modern democracies Starting from exploration of liberal democracy and a critique of the fragmentation of contemporary politics this book develops a republican perspective as an alternative framework for political institutions and civic participation

Ethnic Nationalism in Korea Gi-Wook Shin, 2006 This book explains the roots politics and legacy of Korean ethnic nationalism which is based on the sense of a shared bloodline and ancestry Belief in a racially distinct and ethnically homogeneous nation is widely shared on both sides of the Korean peninsula although some scholars believe it is a myth with little historical basis Finding both positions problematic and treating identity formation as a social and historical construct

that has crucial behavioral consequences this book examines how such a blood based notion has become a dominant source of Korean identity overriding other forms of identity in the modern era It also looks at how the politics of national identity have played out in various contexts in Korea semicolonialism civil war authoritarian politics democratization territorial division and globalization

Historical And Political Economy Of Education In India Dr. M. Kumar ,Dr. N. Rekha, This book is written to meet the requirements of the new B Ed and M Ed syllabus based on the common core for Tamilnadu and other state university This book focus on education in ancient Indian middle India east Indian company education under British rule national integration international understanding political police of Indian economic in education Indian constitutional provisions on education political policy of education in India This book useful for post graduate and graduate students and teachers educators

Nationalism in the New World Don Harrison Doyle,Marco Antonio Villela Pamplona,2010-01-25 Nationalism in the New World brings together work by scholars from the United States Canada Latin America and Europe to discuss the common problem of how the nations of the Americas grappled with the basic questions of nationalism Who are we How do we imagine ourselves as a nation Debates over the origins and meanings of nationalism have emerged at the forefront of the humanities and social sciences over the past two decades However these discussions have been mostly about nations in Europe the Middle East Asia or Africa In addition their focus is usually on the violence spawned by ethnic and religious strains of nationalism which have been largely absent in the Americas The contributors to this volume Americanize the conversation on nationalism They ask how the countries of the Americas fit into the larger world of nations and in what ways they present distinctive forms of nationhood Such questions are particularly important because as the editors write the American nations that came into being in the wake of revolutions that shook the Atlantic world beginning in 1776 provided models of what the modern world might become American nations were among the first nation states to emerge on the world stage As former colonies with multiethnic populations American nations could not logically rest their claim to nationhood on ancient bonds of blood and history Out of a world of empires and colonies the independent states of the Americas forged new nations based on a varied mix of modern civic ideals instead of primordial myths on ethnic and religious diversity instead of common descent and on future hopes rather than ancient roots

The Decline of Regionalism in Putin's Russia J. Paul Goode,2011-05-11 This book reassesses the process whereby after 2000 Putin reversed the process by which in the 1990s power had shifted from Moscow to the regions It focuses on the dynamics of regional boundaries juridical boundaries which defined a region s territorial extent and thereby its resources institutional boundaries that sustained regional differences and cultural boundaries that defined the ethnic or technocratic principles on which a region could claim legitimate existence

The Foundations of Ethnic Politics Henry E. Hale,2008-06-30 Despite implicating ethnicity in everything from civil war to economic failure researchers seldom consult psychological research when addressing the most basic question What is ethnicity The result is a radical scholarly divide generating contradictory recommendations for solving ethnic conflict

Research into how the human brain actually works demands a revision of existing schools of thought Hale argues ethnic identity is a cognitive uncertainty reduction device with special capacity to exacerbate but not cause collective action problems This produces a new general theory of ethnic conflict that can improve both understanding and practice A deep study of separatism in the USSR and CIS demonstrates the theory s potential mobilizing evidence from elite interviews three local languages and mass surveys The outcome significantly reinterprets nationalism s role in CIS relations and the USSR s breakup which turns out to have been a far more contingent event than commonly recognized *CONVASH 2019* Kundharu Saddhono ,Deny Tri Ardianto,Krichkanok Sudasna,Hasnul Jamal B Saidon,Khwanrat Chinda,Ahamad Tarmizi bin Azizan,2020-08-31 The 1st Conference of Visual Art Design and Social Humanities CONVASH 2019 is a seminar in the fields of art design and humanities held on November 2 2019 by the Faculty of Fine Arts and Design FSRD Universitas Sebelas Maret in Surakarta Indonesia Since its establishment as a Faculty 5 years ago The Faculty of Fine Arts and Designs has conducted 4 international conferences The 1st CONVASH 2019 is our international conference new brand and we have a commitment to hold CONVASH annually Conference of Visual Art Design and Social Humanities CONVASH 2019 is a tangible manifestation of FSRD s efforts to contribute to science and improve publication quality on the international level This event is expected to bring about collaboration scientific transfer and publications that can contribute to the scientific fields of arts design and humanities The conference aims to facilitate research presentations and knowledge exchange in art design technology and social humanities as well as create academic networks among students lecturers and researchers in the related fields Further this conference will bring opportunities to learn together to develop quality research in various fields expand the collaboration networks among universities and industries and become a forum to disseminate research and knowledge to a wider audience The committee received more than 130 papers from the participants and based on the results of the reviews only 96 papers were declared qualified to be presented at the seminar and subsequently published in the proceedings of CONVASH 2019 Finally the committee congratulates and expresses gratitude to the selected participants for the participation and paper publication in the proceeding of CONVASH 2019 The committee would also like to thank all parties who have supported and actively participated for the success of this event Hopefully this Proceeding can be used as a reference for technological development and learning improvement in the fields of education social arts and humanities

Region and State in Nineteenth-Century Europe J. Augusteijn,H. Storm,2012-10-24 In reaction to the centralizing nation building efforts of states in nineteenth century Europe many regions began to define their own identity In thirteen stimulating essays specialists analyze why regional identities became widely celebrated towards the end of that century and why some considered themselves part of the new national self image *Encyclopedia of Government and Politics* Mary Hawkesworth,Maurice Kogan,2013-11-07 This is a brand new edition of the critically acclaimed Encyclopedia of Government and Politics which has been fully revised and updated to provide a systematic account of politics and political studies at the

beginning of the new millennium Providing a penetrating analysis of government and politics at a global regional and nation state level the Encyclopedia assesses both traditional and contemporary approaches and projects the paths of future research The articles provide a degree of critical analysis far beyond a simple descriptive outline of the subject Internationally respected contributors have been carefully selected to present contending approaches to related topics both to clarify the political implications of the various methodologies and to enrich the portrayal of political life With its expanded revised and updated coverage Encyclopedia of Government and Politics is more than ever an indispensable tool for students teachers professional analysts and policy makers

Nationalist Violence in Postwar Europe Luis de la Calle Robles,2015-07-23

This book offers the first comprehensive analysis of nationalist violence in postwar Europe and of its complex causes

Nations and Democracy Amanda Machin,2014-11-13 A figure of enduring ingenuity the nation has for centuries played a part on the socio political stage Whether centre stage or background scenery it has featured in violent tragedies revolutionary drama and nostalgic fable Today the nation is cast simultaneously in the roles of villain and hero While it is renounced by those advocating trans national post national and cosmopolitan forms of belonging it has lately also been asserted as the solution to various social failures in liberal democracies This appears to leave us with two alternatives to jettison the nation in order to move towards a less parochial world a world in which new forms of belonging underpin more inclusive politics Or to celebrate the nation as way of ensuring the social cement that can unite a diverse society Using the ideas of Wittgenstein and Lacan Amanda Machin expertly explains that the overlapping and conflicting language games of the nation produce it as an object of desire in an uncertain world The nation is not a pre political thing but a matter of persistent political contestation and coalition She reveals that the nation still has a vital part to play in democratic politics but that this role is one of improvisation While they endure as tools of emancipatory promise nations nonetheless remain potential categories of violent exclusion They cannot be pinned down as easily as anti national and pro national alternatives suggest It is precisely the indeterminacy of the nation that gives it ongoing importance for democracy today Providing an urgent riposte to dominant accounts this thought provoking and highly original account demands a re politicisation of the nation This book will appeal to those engaged in theory and empirical research on nations and nationalism and the question of their link to democracy in a changing world as well as those interested in psychoanalysis and Wittgenstein

The Oxford Handbook of the History of Nationalism John Breuilly,2013-03-07 The Oxford Handbook of the History of Nationalism comprises thirty six essays by an international team of leading scholars providing a global coverage of the history of nationalism in its different aspects ideas sentiments and politics Every chapter takes the form of an interpretative essay which by a combination of thematic focus comparison and regional perspective enables the reader to understand nationalism as a distinct and global historical subject The book covers the emergence of nationalist ideas sentiments and cultural movements before the formation of a world of nation states as well as nationalist politics before and after the era of the

nation state with chapters covering Europe the Middle East North East Asia South Asia Southeast Asia sub Saharan Africa and the Americas Essays on everyday national sentiment and race ideas in fascism are accompanied by chapters on nationalist movements opposed to existing nation states nationalism and international relations and the role of external intervention into nationalist disputes within states In addition the book looks at the major challenges to nationalism international socialism religion pan nationalism and globalization before a final section considering how historians have approached the subject of nationalism Taken separately the chapters in this Handbook will deepen understanding of nationalism in particular times and places taken together they will enable the reader to see nationalism as a distinct subject in modern world history

The Liberty of Strangers Desmond King, 2004-12-09 Harry S Truman once said Ours is a nation of many different groups of different races of different national origins And yet the debate over what it means and what it takes to be an American remains contentious Nationalist solidarity many claim requires a willful blending into the assimilationist alloy of these United States Others argue that the interests of both nation and individual are best served by allowing multiple traditions to flourish a salad bowl of identities and allegiances rather than a melting pot Tracing how Americans have confronted and relinquished but mostly clung to group identities over the past century Desmond King here debunks one of the guiding assumptions of American nationhood namely that group distinction and identification would gradually dissolve over time creating a postethnic nation Over the course of the twentieth century King shows the divisions in American society arising from group loyalties have consistently proven themselves too strong to dissolve For better or for worse the often disparaged politics of multiculturalism are here to stay with profound implications for America's democracy Americans have now entered a post multiculturalist settlement in which the renewal of democracy continues to depend on groups battling it out in political trenches yet the process is ruled by a newly invigorated and strengthened state But Americans resolute embrace of their distinctive identities has ramifications not just internally and domestically but on the world stage as well The image of one people American nationhood so commonly projected abroad camouflages the country's sprawling often messy diversity a lesson that nation builders worldwide cannot afford to ignore as they attempt to accommodate ever evolving group needs and the demands of individuals to be treated equally Spanning the entire twentieth century and encompassing immigration policies the nationalistic fallout from both world wars the civil rights movement and nation building efforts in the postcolonial era *The Liberty of Strangers* advances a major new interpretation of American nationalism and the future prospects for diverse democracies

A Companion to Cultural Geography James Duncan, Nuala C. Johnson, Richard H. Schein, 2008-04-15 *A Companion to Cultural Geography* brings together original contributions from 35 distinguished international scholars to provide a critical overview of this dynamic and influential field of study Provides accessible overviews of key themes debates and controversies from a variety of historical and theoretical vantage points Charts significant changes in cultural geography in the twentieth century as well as the principal approaches that currently animate

work in the field A valuable resource not just for geographers but also those working in allied fields who wish to get a clear understanding of the contribution geography is making to cross disciplinary debates
