Contemplating Suicide The Language Of Ethics And Self Harm:

Contemplating Suicide Gavin J Fairbairn, Gavin Fairbairn, 2003-09-02 Fairbairn takes a fresh look at suicidal self harm and reaches many novel conclusions about the current language and ethics of suicide and contributing greatly to the development of understanding in this sensitive area

Contemplating Suicide Gavin J. Fairbairn, 1995 Contemplating Suicide Gavin J Fairbairn, Gavin Fairbairn, 2003-09-02 Suicide is devastating It is an assault on our ideas of what living is about In *Contemplating Suicide* Gavin Fairbairn takes fresh look at suicidal self harm His view is distinctive in not emphasising external facts the presence or absence of a corpse along with evidence that the person who has become a corpse intended to do so It emphasises the intentions that the person had in acting rather than the consequences that follow from those actions Much of the book is devoted to an attempt to construct a natural history of suicidal self harm and to examine some of the ethical issues that it raises Fairbairn sets his philosophical reflections against a background of practical experience in the caring professions and uses a storytelling approach in offering a critique of the current language of self harm along with some new ways of thinking Among other things he offers cogent reasons for abandoning the mindless use of terms such as attempted suicide and parasuicide and introduces a number of new terms including cosmic roulette which he uses to describe a family of human acts in which people gamble with their lives By elaborating a richer model of suicidal self harm than most philosophers and most practitioners of caring professions currently inhabit Fairbairn has contributed to the development of understanding in this area Among other things a richer model and vocabulary may reduce the likelihood that those who come into contact with suicidal self harm will believe that familiarity with the physical facts of the matter the actions of the suicider and the presence or absence of a corpse is always sufficient to justify a definite conclusion about the nature of the self harming act

posted by adolescents to an online health forum It adopts a mixed method corpus approach to health communication combining both quantitative and qualitative techniques Analysis in this way gives voice to an age group whose subjective experiences of illness have often been marginalized or simply overlooked in favour of the concerns of older populations

Cooley, 2015-06-22 This book brings together the relevant interdisciplinary and method elements needed to form a conceptual framework that is both pragmatic and rigorous By using the best and often the latest work in thanatology psychology neuroscience sociology physics philosophy and ethics it develops a framework for understanding both what death is which requires a great deal of time spent developing definitions of the various types of identity in the moment and identity over time and the values involved in death This pragmatic framework answers questions about why death is a form of loss why we experience the emotional reactions feelings and desires that we do which of these reactions feelings and desires are justified and which are not if we can survive death and how whether our deaths can harm us and why and how we should

prepare for death Thanks to the pragmatic framework employed the answers to the various questions are more likely to be accurate and acceptable than those with less rigorous scholarly underpinnings or which deal with utopian worlds *Suicide in Prisons* Graham Towl, David Crichton, 2017-05-03 The definitive guide from two leading authors central to developments in the field An invaluable book which covers everything from theoretical and community research to precisely what is known about prisoners and the risk of their completing suicide Covers the Harris Review and Government Response to it as well as the stance of politicians reform groups and other leading experts on what in 2017 is an escalating problem for UK prisons Contains analysis and data from over 30 years bringing together key knowledge and information at a critical time of concern and attention **The Evolution of Suicide** C A Soper, 2018-07-23 A fascinating read Contrary to what the title might suggest this is an upbeat exploration of suicide with a positive message Jeanine Connor Therapy Today December 2018 This thought provoking volume offers a distinctly human evolutionary analysis of a distinctly human phenomenon suicide Its pain and brain model posits animal adaptations as the motivator for suicidal escape and specific human cognitive adaptations as supplying the means while also providing a plausible explanation for why only a relatively small number of humans actually take their own lives The author hypothesizes two types of anti suicide responses active and reactive mechanisms prompted by the brain as suicide deterrents Proposed as well is the intriguing prospect that mental disorders such as depression and addiction long associated with suicidality may serve as survival measures Among the topics covered Suicide as an evolutionary puzzle The protection against suicide afforded to animals and young children Suicide as a by product of pain and human cognition Why psychodynamic defenses regulate the experiencing of painful events Links between suicidality and positive psychology The anti suicide role of spiritual and religious belief In raising and considering key questions regarding this most controversial act *The Evolution of Suicide* will appeal to researchers across a range of behavioral science disciplines At the same time the book s implications for clinical intervention and prevention will make it useful among mental health professionals and those involved with mental health policy **BULLYING: An assault on human dignity**, 2020-04-28 This inter disciplinary collection explores bullying and the abuse of power in a range of settings in which they make themselves known including schools workplaces and institutions of higher education from a range of perspectives including psychology sociology philosophy and ethics *The Bounds of Responsibility* Tadeusz Lewandowski, Elisabeta Gabriela Ilie, 2019-01-04 This volume was first published by Inter Disciplinary Press in 2014 This volume examines our fundamental obligations as humans The chapters offer innovative models and philosophies for responsible living covering the areas of consumption bioethics community inclusion disability the EU debt crisis and the body Each nevertheless grapples with the central question of what we owe others whether on the personal societal industrial governmental or international level and the problem of how far these responsibilities are realized and extended This book s title *The Bounds of Responsibility* is therefore meant to suggest both how responsibilities should in some cases be limited and can often be

limiting For while we cannot take full responsibility for all those we encounter we can neither break away from the obligations that define humans In analysing responsibility s limits the authors formulate conclusions of differing degrees but agree on the imperative to integrate some substantial philosophy of responsible living into social and economic structures for the common good

Watts,2019-06-21 Jesus as Divine Suicide makes the argument the death of Jesus follows established and well known models of self sacrificing individuals a model readily available to Roman and Jewish audiences Paul in his letter to the church in Galatia uses this model to present a premeditated self chosen death meant to bring about a change in the cosmos Watts understanding the emotional attachment to the word is careful to construct his argument based on a plethora of examples within Paul s reach if not the reach of Jesus The concept of devotio is explored using recent scholarship and examples are drawn from Jewish and Roman sources with the intention to show that not only did Paul use it but that it may help to solve some of the questions scholars have raised as to who gave Paul his language of the death of Jesus Watts goes on to argue the gruesome act of a self caused death would have not only been allowed even by Jewish sources but also would have had theological speculation supplied by the history of the devotion so that with minimal description Paul is able to use the act as a way to make his argument for his gospel in Galatians
