Contemporary Altar Prayers Volume 7:

History of the Christian Church, Volume VII. Modern Christianity. The German Reformation. , Modern British Utopias, 1700-1850 Vol 7 Gregory Claeys,2024-10-28 In the period 1700 1850 the history of utopian thought cast light on ideas of property holding community and social and political reform movements including those for the extension of rights to slaves women and animals This text includes some of the best known tracts of the period **Books in Print Supplement** ,1985 **Subject Guide to Books in Print** ,1993 **The Materiality of Religion in Early Modern English Drama** Elizabeth Williamson,2016-03-03 The Materiality of Religion in Early Modern English Drama is the first book to present a detailed examination of early modern theatrical properties informed by the complexity of post Reformation religious practice Although English Protestant reformers set out to destroy all vestiges of Catholic idolatry public theater companies frequently used stage properties to draw attention to the remnants of traditional religion as well as the persistent materiality of post Reformation worship The Materiality of Religion in Early Modern English Drama explores the relationship between popular culture and theatrical performance by considering the social history and dramatic function of these properties addressing their role as objects of devotion idolatry and remembrance on the professional stage Rather than being aligned with identifiably Catholic or Protestant values the author reveals how religious stage properties functioned as fulcrums around which more subtle debates about the status of Christian worship played out Given the relative lack of existing documentation on stage properties The Materiality of Religion in Early Modern English Drama employs a wide range of source materials including inventories published in the Records of Early English Drama REED volumes to account for the material presence of these objects on the public stage By combining historical research on popular religion with detailed readings of the scripts themselves the book fills a gap in our knowledge about the physical qualities of the stage properties used in early modern productions Tracing the theater s appropriation of highly charged religious properties The Materiality of Religion in Early Modern English Drama provides a new framework for understanding the canonization of early modern plays especially those of Shakespeare **The Contemporary Review** ,1866 **The Oxford Edition of the Sermons of John Donne, Volume VII** Peter McCullough, Erica Longfellow,2024-12-11 Volume VII of The Oxford Edition of the Sermons of John Donne gathers sermons preached by Donne at different venues for the related liturgical occasions of marriages christenings and the churching of women after childbirth The volume contains ten sermons seven of them undated and in the case of the christening sermons also for parties unknown one of the two churching sermons survives only in an authorially revised state as two separate but obviously coeval sermons Longfellow and McCullough establish that these sermons were preached across almost the whole of Donne s preaching career from among his earliest ca 1615 16 to 1627 four years before his death In each case an authoritative text has been established by freshly collating multiple copies of the seventeenth century print editions as well as multiple manuscript copies which predate the print witnesses For the first time these

sermons appear with full critical apparatus The Introduction provides the first dedicated account of the place of sermons in the social liturgical and theological contexts of these occasions in post Reformation England A headnote to each sermon describes its textual state and supplies local historical social and intellectual context and suggestions for further reading Extensive commentaries document Donne s use of sources both acknowledged and unacknowledged translate passages in foreign languages and gloss important and unfamiliar words Although largely neglected by previous scholarship these sermons emerge here as unique the only known sermons for churchings challenging for views on women and marriage more conservative than many of Donne s contemporaries and as evidence of Donne s Calvinist sacramental theology and his anti Catholicism They are also fine examples of Donne s skill in crafting emotionally compelling sermons suited to the unique demands of both occasion and auditory
