The Replication of Retail Fashion Formats into Foreign Countries Christoph Schröder, 2014-10-30 Christoph Schröder does one of the first attempts to analyze format transfers within the scope of different strategies, format elements, countries, and success, with focus on the fashion industry. Three distinct format transfer strategies are identified. The empirically observed design of format elements supports and extends the existing research. Fashion firms standardize their Retail culture, which acts as a foundation for a successful format transfer strategy. International retailers face specific challenges with regard to the decision on their retail format abroad, which is known as an important success driver.
