Resolving International Disputes Through Super-optimum Solutions Stuart S. Nagel, 2001 This book concerns resolving conflicts on an international level The author states that for the purposes of this book the dispute would have to be at the level of a war revolution or other dispute that involves substantial bloodshed on one or more sides rather than a dispute that merely involves words economic competition or non violent conflict The SOS Resolution is a special kind of Win Win dispute resolution where one where both or all sides come out ahead of even their best initial expectations simultaneously The steps and strategies of this resolution are fully explained Handbook of Peace, Prosperity, and Democracy Stuart S. Nagel, 2002 Analyzing Peace Prosperity Democracy Handbook of Peace Prosperity Democracy 2 **Alternatives for Military Space Radar** Joseph A. Post, 2007 DoD s 2006 Quadrennial Defense Review calls for investment in such systems to grow in order to provide a highly persistent capability to identify and track moving ground targets in denied areas To that end DoD and the National Reconnaissance Office are proposing to develop a constellation of Earth orbiting Space Radar satellites that would provide imagery GMTI and geospatial intelligence products to members of the military and the intelligence community This Congressional Budget Office CBO study prepared at the request of Senators Wayne Allard and Bill Nelson in their respective capacities as the Chairman and Ranking Member of the Senate Committee on Armed Services Subcommittee on Strategic Forces examines the costs and potential performance of four possible designs for a Space Radar system Preface Snapper Grouper Amendment 15A , 2007 **Advances in Policy Studies Since 1950** William N. Dunn, Rita Mae Kelly, This latest volume of the Policy Studies Review Annual series brings together leading policy scientists in a comprehensive review of the field s achievements since its professionalization some forty years ago If an advance is defined as an improvement in theory methodology information or practice how does the field measure up And what should its next goals be This unusual compendium of entirely new essays and articles helps to answer such questions On balance the contributors show the record is mixed Policy sciences draw on the theoretical foundations of many disciplines but have not themselves contributed theoretical advances We have more information but information in itself does not constitute an advance Despite improved interaction between academia and government it is difficult to identify new or better policies that have resulted On the other hand there have been impressive advances in methodology procedures for conducting inquiry that yield reliable and relevant policy knowledge In its candid assessment of trends controversies and unsolved problems this volume charts new directions for the policy sciences **Applications of Win-win Policy** Stuart S. Nagel, 2001-01-01 Political science is normally taught divided into four separate fields with public policy sometimes considered a fifth separate unit Stuart S Nagel argues that because each of of these four core fields political theory American government international relations and comparative government is centrally concerned with governance public policy issues should be integrated throughout the political science curriculum Nagel not only utilizes original data to support his contentions but develops a pedagogical concern with

examining the integration of policy substance into curricular planning and relevant teaching procedures These teaching procedures include creating a sound policy curriculum developing a course in policy analysis methodology and software that can be used for teaching both policy analysis and policy substance **Snapper Grouper Amendment 15B** ,2008

Aistrup,2021-10-21 The 1994 elections represented a watershed year for southern Republicans For the first time since Reconstruction they gained control of a majority of national seats and governorships Yet despite these impressive gains southern Republicans control only three of twenty two state legislative chambers and 37 percent of state legislative seats Joseph A Aistrup addresses why this divergence between the national and subnational levels persists even after GOP national landslides in 1972 1980 1984 1988 and 1994 Explanations for this divergence lie in the interaction between the Republicans Southern Strategy a set of coherent ideological tactics designed to lure southern whites to support GOP candidates and the Republicans top down party development efforts Aistrup analyzes the historical evolution of the Republican Southern Strategy from Goldwater in 1961 to the Contract with America in 1994 Examining the roles of ideology intra party politics gerrymandering and Democratic incumbency in Republican top down advancement he predicts the extent to which these will remain significant obstacles to GOP success in subnational elections after 1994 Aistrup reveals the strengths and weaknesses of the Southern Strategy as it relates to candidate ideology and examines the influences of Republican victories in national and statewide offices on the party s subnational advancement He shows a clear connection between Republican presidential success and southern Republican advancement in local elections
