Lawrence Durrell's Major Novels, Or, The Kingdom of the Imagination Donald P. Kaczvinsky, 1997 Through his use of Gnostic beliefs Durrell destabilizes our notions of the real and suggests that the civilization to emerge out of the ruins of a devastated Europe will not be Christian but Quincunxial Durrell's aesthetic and thematic concerns establish him as a significant indeed central voice in twentieth century British literature His career which spans over five decades links the British High Modernists with the Postmodernists [Heresy and Heterotopia in Works by Lawrence Durrell](#) Anne R. Zahlan, Isabelle Keller-Privat, 2025-03-15 [Heresy and Heterotopia in Works by Lawrence Durrell](#) Alexandria to Angkor Wat gathers new essays by international scholars who examine heretical concepts and heterotopian counter spaces in Durrell's thought and writing The volume includes studies of texts set in locations from the Mediterranean to Cambodia with spatial focus ranging from the Egypt of The Alexandria Quartet and of Anatole France's *Thaïs* to the scattered locations of The Avignon Quintet with stops along the way for the island books and other treatments of wandering and exile in poetry as well as prose The contributors approach Durrell's texts from a variety of perspectives philosophical and intertextual architectural and historical mystical and digital In so doing they expose the deeper echoes set off by his wide ranging literary production and map out the metaphysical literary and aesthetic connections that account for Durrell's impact on our understanding of those twentieth century social and cultural paradigms that foreshadow the disruptions of today's world

Re-reading The Alexandria Quartet of Lawrence Durrell (Durrell Studies 8) Richard Pine, 2023-08-25 Lawrence Durrell's *The Alexandria Quartet* is regarded as the central work in his fiction It has provoked critical commentary ever since the appearance of its individual volumes Justine 1957 Balthazar 1958 Mountolive and Clea 1959 and the publication in a one volume edition in 1962 Scores of Master's and PhD dissertations have been written since the 1960s on this most compelling and provocative novel Today *The Alexandria Quartet* stimulates critical discussion in works addressing the city Durrell's representation of Alexandria the theory of relativity the role of memory the recurring feature of the doppelgänger and the presence of the Gothic uncanny his frequent references to D H Lawrence his treatment of women characters his interest in Gnosticism and his own description of the Quartet as a strange mixture of sex and the secret service This volume of essays

addresses all these themes and brings together the mature work of four scholars on this central work of Durrell's fiction together with two essays on its sequels *Tunc Nunquam* 1968-70 and *The Avignon Quintet* 1974-85 Literatures of War Eve Patten, Richard Pine, 2020-11-09 The most terrible disaster that one group of human beings can inflict on another is war Wars cause misery on an indescribable scale Yet we go on doing it to one another generation after generation Why Warfare is a recurrent and universal characteristic of human existence The mythologies of practically all peoples abound in wars and the superhuman deeds of warriors and pre-literate communities apparently delighted in the recital of stories about battles Since our species became literate a mere 5 000 years ago written history has mostly been the history of wars Thousands who knew war evidently sickened of it and dreamt of lasting peace expressing their vision in literature and art in philosophy and religion They imagined Utopias freed of martial ambition and bloodshed which harked back to the Golden Age of classical antiquity to the Christian vision of a paradise lost and to the Arcadia of Greek and Latin poetry so richly celebrated in the canvases of Claude and Poussin All these things bear eloquent testimony to the human longing for peace but they have not triumphed over our dreadfully powerful propensity to war from the Introduction by Anthony Stevens In this multi-disciplinary collection of essays on the manifestations of war in poetry fiction drama music and documentaries scholars and practitioners from an international context describe the transformation of the war experience into chronicles of hope and despair from Herodotus up to the present day The Heraldic World of Lawrence Durrell Bruce Redwine, 2022-03-02 Lawrence Durrell's position as one of the twentieth century's leading novelists is continually being enlarged and revised This book presents unusual and unorthodox explorations of Alexandria the city at the heart of Durrell's writing his family relationships his biographer Michael Haag and his affinity with such diverse writers as Rilke and Virgil In particular it offers an insight into Durrell's emotions and sensibilities in elaborating his Sicilian Carousell and a penetrating and totally unique reading of Durrell's Alexandria Quartet in the light of the art and landscape of ancient Egypt *The Booker Prize and the Legacy of Empire* Luke Strongman, 2021-12-28 This book is about the Booker Prize the London-based literary award made annually to the best novel written in English by a writer from one of those countries belonging to or formerly part of the British Commonwealth The approach to the Prize is thematically historical and spans the award period to 1999 The novels that have won or shared the Prize in this period are examined within a theoretical framework mapping the literary terrain of the fiction Individual chapters explore themes that occur within the larger narrative formed by this body of novels collectively invoked cultures social trends and movements spanning the stages of imperial heyday and decline as perceived over the past three decades Individually and collectively the novels mirror often in terms of more than a single static image British imperial culture after empire contesting and reinterpreting perceptions of the historical moment of the British Empire and its legacy in contemporary culture The body of Booker novels narrates the demise of empire and the emergence of different cultural formations in its aftermath The novels are grouped for discussion according to the way in which they deal with aspects of the

transition from empire to a post imperial culture from early imperial expansion through colonization retrenchment decolonization and postcolonial pessimism to the emergence of tribal nationalisms and post imperial nation states The focus throughout is primarily literary and contingently cultural Islands of the Mind Richard Pine,2020-02-05 730 million people almost 10% of the world s population inhabit islands One quarter of the states represented at the United Nations are islands Islands constitute almost twenty percent of the total land area of Greece and exhibit more significant aspects of biodiversity than other global contexts They are both occasions of triumph and occurrences of catastrophe Islands are both open and enclosed communities points of arrival and departure Islands exert a fascination for the visitor and generate in the islander both positive and negative mindsets The romantic fallacies about self sufficiency and insularity of islands are constantly challenged This collection of essays by scholars from some of the world s most compelling islands Jersey Ireland Tasmania Corfu Ereikousa Prince Edward Island Malta explores the psychology of islands islanders and their visitors the literatures they stimulate and the scientific ethical and biogeographical issues they present in an increasingly globalised world Corfu the home of Lawrence and Gerald Durrell in the 1930s and host to literary and scientific enquiry is the place where this collection was conceived and occupies a central place in its discussions **The Oxford Encyclopedia of British**

Sociability and Society K. Ludwig Pfeiffer, 2023-03-21 Today churches political parties trade unions and even national sports teams are no guarantee of social solidarity At a time when these traditional institutions of social cohesion seem increasingly ill equipped to defend against the disintegration of sociability K Ludwig Pfeiffer encourages us to reflect on the cultural and literary history of social gatherings from the ancient Athenian symposium to its successor forms throughout Western history From medieval troubadours to Parisian salons and beyond Pfeiffer conceptualizes the symposium as an institution of sociability with a central societal function As such he reinforces a programmatic theoretical move in the sociology of Georg Simmel and builds on theories of social interaction and communication characterized by Max Weber George Herbert Mead Jürgen Habermas Niklas Luhmann and others To make his argument Pfeiffer draws on the work of a range of writers including Dr Samuel Johnson and Diderot Virginia Woolf and Marcel Proust Dorothy Sayers Joseph Conrad and Stieg Larsson Ultimately Pfeiffer concludes that if modern societies do not find ways of reinstating elements of the Athenian symposium especially those relating to its ritualized ease decency and style of interaction they will have to cope with increasing violence and decreasing social cohesion

George Eliot's 'The Lifted Veil' Franco Marucci, 2022-01-31 The negative historical judgment given to George Eliot s *The Lifted Veil* amounts nowadays to a gross critical blunder and in the last three decades the story has been firmly reinstated in Eliot s major canon The premise of the present book is that George Eliot s oeuvre is a compact macrotext where themes motifs patterns and cultural and personal archetypes recur with variations and that *The Lifted Veil* functions as the linchpin of this oeuvre A sequential approach to the story is authorized by the use of a mimetic enunciation that simulates a gradual definition of events places and characters as

they have appeared to the narrating I in the course of time until the moment of the enunciation Contextualizing The Lifted Veil means placing it within Eliot's oeuvre and against the background of Victorian mid century fiction in a further meaning seeing it as intersecting various contemporary genres and subgenres such as that of the European and American literature of the veil that of the archetypal icon of the femme fatale that of Wilkie Collins's dead secret novels The most significant facet that critical literature on The Lifted Veil has tended to overlook is however the encrypting of the experience of a failed religious conversion and the foreshadowing of the search for a spiritual and racial identity of Daniel Deronda the hero of Eliot's final novel

Lawrence Durrell: The Mindscape Richard Pine, 2016-07-27 In this second volume of his study of the Anglo Irish novelist Lawrence Durrell following the appearance in 1988 of *The Dandy and the Herald Manners Mind and Morals from Brummell to Durrell* Richard Pine examines in detail Durrell's unique contribution to the development of the modern novel concentrating in particular on the evidence of Durrell's private notebooks and diaries Pine's twenty year friendship with Durrell has resulted in an intimate portrait of a singular mind whose extraordinary career both as a writer and as a British colonial official is hallmarked by the creation of the Heraldic Universe an imaginative realm within which the artist reigns supreme
