new significance in the last few years as law makers have been forced to return to first principles in order to justify novel practices and arrangements in their constitutional orders. Thus questions of constitutional revolutions challenges to the demands of the rule of law and the separation of powers have taken on new and pressing importance. The essays in this volume address these questions filling the gap in the philosophical analysis of constitutional law. The volume will provoke specialists in philosophy politics and law to develop new philosophically grounded analyses of constitutional law and will be a valuable resource for graduate students in law politics and philosophy.

Australian Constitutional Law

Luke Beck, 2019-10-04 *Australian Constitutional Law: Concepts and Cases* is a highly accessible clear and methodical overview of Australian constitutional law integrating theory and doctrine. It is both comprehensive and concise. This book takes a conceptual rather than chronological approach to topics. With focussed rather than lengthy case extracts the book explains what the law is and why various interpretations have been adopted. Clear explanations enable students to understand and engage with constitutional law including its complexity and nuance. The book's explicit linkages between topics and clear delineation between case extracts and commentary help students make sense of Australian constitutional law as a whole. Conceptual and discussion questions at the end of each chapter facilitate student thinking and discussion about how the law has evolved and how the law is applied. Written by leading constitutional law scholar Luke Beck, *Australian Constitutional Law: Concepts and Cases* is invaluable for students engaging with Australian constitutional law.

Tom Ginsburg, Rosalind Dixon, 2011-01-01 This landmark volume of specially commissioned original contributions by top international scholars organizes the issues and controversies of the rich and rapidly maturing field of comparative constitutional law. Divided into sections on constitutional design and redesign, identity, structure, individual rights and state duties, courts and constitutional interpretation, this comprehensive volume covers over 100 countries as well as a range of approaches to the boundaries of constitutional law. While some chapters reference the text of legal instruments expressly labeled constitutional, others focus on the idea of entrenchment or take a more functional approach. Challenging the current boundaries of the field, the contributors offer diverse perspectives, cultural, historical and institutional, as well as suggestions for future research. A unique and enlightening volume, *Comparative Constitutional Law* is an essential resource for students and scholars of the subject.

European Yearbook of Constitutional Law 2021

Jurgen de Poorter, Gerhard van der Schyff, Maarten Stremmer, Maartje De Visser, 2022-06-06 The *European Yearbook of Constitutional Law* (EYCL) is an annual publication devoted to the study of constitutional law. It aims to provide a forum for in-depth analysis and discussion of new developments in the field both in Europe and beyond. This third volume of the EYCL focuses on constitutional advice, an underexplored topic of legal scholarship today, and addresses this situation by looking beyond constitutional law's familiar focus on the classic separation of powers and the main legislative, executive and judicial bodies implied by this construct. The attention is shifted to mapping and analysing the advisory bodies and functions grouped around and in support of the

legislators administrators and judges at the frontline of the constitutional edifice which is accomplished through national comparative and transnational perspectives on constitutional advice from Europe and beyond Addressing the topic of constitutional advice is necessary to broaden and deepen not only our understanding of advice as a field in its own right but also as a way of rendering a fuller account of contemporary constitutionalism Also the increasing political polarisation across many societies today underscores the need to study constitutional advice on topics of significance in an attempt to bridge divides and end gridlock This book will be of special interest to constitutional scholars and legal scholars more generally as well as to political scientists In addition government officials judges and policy makers wishing to better understand the legal mechanisms and avenues when it comes to rendering or receiving advice in the contemporary constitutional context will find much of relevance Jurgen de Poorter is professor at Tilburg Law School Department of Public Law and Governance Gerhard van der Schyff is associate professor at Tilburg Law School Department of Public Law and Governance Maarten Stremmer is assistant professor at Maastricht University Faculty of Law Department of Public Law Maartje De Visser is associate professor at Yong Pung How School of Law Singapore Management University Singapore
