Constitutional Right To Suicide The:

The Constitutional Right to Suicide G. Steven Neeley, 1994 Medical technology has made it possible to sustain existence past the point where the competent adult might rationally conclude that life is no longer worth living Nevertheless the current state of the law often makes it difficult if not impossible for an individual to have unfettered control over the act of dying as determinations against medical intervention are frequently swept under broad legal proscriptions of self directed death This book cogently argues that an examination of the constitutional right to privacy and allied constitutional precepts reveal that the United States Constitution protects those decisions which are profoundly personal intimate and integral to the control of one's own destiny The decision which fits this criterion more closely than any other is whether to continue living or not for intrinsic to the control of one's life is the choice of electing to forego continued life Hence constitutional guarantees of individual liberty protect the right of the individual at least under certain circumstances to terminate his or her own existence

Physician-Assisted Death James M. Humber, Robert F. Almeder, Gregg A. Kasting, 1994-02-04 Physician Assisted Death is the eleventh volume of Biomedical Ethics Reviews We the editors are pleased with the response to the series over the years and as a result are happy to continue into a second decade with the same general purpose and zeal As in the past contributors to projected volumes have been asked to summarize the nature of the literature the prevailing attitudes and arguments and then to advance the discussion in some way by staking out and arguing forcefully for some basic position on the topic targeted for discussion For the present volume on Physician Assisted Death we felt it wise to enlist the services of a guest editor Dr Gregg A Kasting a practicing physician with extensive clinical knowledge of the various problems and issues encountered in discussing physician assisted death Dr Kasting is also our student and just completing a graduate degree in philosophy with a specialty in biomedical ethics here at Georgia State University Apart from a keen interest in the topic Dr Kasting has published good work in the area and has in our opinion done an excellent job in taking on the lion's share of editing this well balanced and probing set of essays We hope you will agree that this volume significantly advances the level of discussion on physician assisted euthanasia Incidentally we wish to note that the essays in this volume were all finished and committed to press by January 1993

Medical Law and Moral Rights Carl Wellman, 2005-12-29 Medical Law and Moral Rights discusses live issues arising in modern medical practice Do patients undergoing intolerable irremediable suffering have a moral right to physician assisted suicide Ought they to have a comparable legal right Do the moral duties of a mother to care for and not abuse her child also apply to her fetus Ought fetuses to be given legal rights requiring pregnant women to submit to medical treatment without their consent Ought single women homosexual couples or persons carrying serious genetic defects to have a legal right to procreate Ought a physician to perform an abortion requested for some frivolous reason Ought physicians to be permitted to refuse to provide medically futile treatment demanded by their patients An examination of relevant court cases shows how United States law answers these questions The author then advocates improvements in the law to make it respect our moral rights more fully To justify his conclusions he proposes original conceptions of the human rights to life procreational autonomy privacy equitable treatment and personal security Thus these essays test the usefulness of the theory of rights explained and

Worst Case Bioethics George J. Annas, 2010-03-01 Bioethics still in its infancy is routinely called on by the government to provide political cover for controversial public health decisions involving the life and death of Americans Doomsday or worst case scenarios are often at the heart of these biopolitical decisions A central feature of science fiction these scenarios can impart useful insights But worst case scenarios like Frankenstein's monster can also be unpredictably destructive undermining both preparedness and the very values bioethics seeks to promote Discovering a new flu strain for example leads immediately to visions of the 1918 flu pandemic the worst in human history Likewise a ticking time bomb scenario leads to the use of the saving lives rationale that permits lawyers to justify it and physicians to carry it out The worst case charge of death panels continues to threaten meaningful healthcare reform in the US Fundamental change in American healthcare Annas argues will require fundamental change in American including confronting our obsession with technology and our denial of death and replacing our over reliance on the military and market metaphors in medicine A combination of the ecological and rights metaphors could help us successfully navigate the waters of change In Worst Case Bioethics George Annas employs contemporary disputes involving death and disaster to explore the radical changes underway in public health practice the application of constitutional law to medicine and human rights discourse to promote human health and wellbeing Worst case scenarios especially worst case bioethics scenarios distort debate limit options rationalize human rights abuses and undermine equality and social justice It is nonetheless possible to temper worst case scenarios in ways that promote both the development of a meaningful American bioethics and a life and liberty affirming global health and human rights movement Written at the intersection of law bioethics public health and human rights Worst Case Bioethics will interest not only bioethicists but scholars in public health public policy and human rights law as well as members of the public who want to participate in these policy debates
