Constitutional Structure And Purposes Critical Commentary:

The Constitution and Economic Regulation Michael Conant, 2017-10-19 This study uses basic economic analysis as a technique to comment critically on the original meaning and the interpretation of those clauses of the Constitution that have particular bearing on the economy Many new conclusions are markedly different from those of the Supreme Court and earlier commentators Conant's view is that the commerce clause and the equal protection clause if they had been construed consistently with their comprehensive original meanings would have given much greater federal protection against state laws that impair free markets Economic policy for the nation was vested in Congress To the extent that special interests could buy congressional favor for their anticompetitive activities free markets were impaired within constraints as interpreted by the court These decisions have been criticized for their failure to incorporate the antimonopoly tradition in the Ninth Amendment and their failure to recognize equal protection of laws incorporated into the Fifth Amendment Conant holds that statutory controls of the economy are justifiable in economic theory if they are designed to remedy market failures and thereby increase efficiency If statutes are passed to interfere with markets and create market inefficiencies for the benefit of special interest groups they should be condemned under the standards of normative microeconomics There are four main classes of market failure monopoly externalities public goods and informational asymmetry This masterful analysis examines all four reasons for market failure in depth Litigation costs are analogous to transaction costs If legal principles and rules are clearly and precisely defined by the Supreme Court when they are first appealed litigation and its costs should be minimized Conant claims that if legal principles or rules are uncertain because they lack definable standards the number of legal actions filed and litigation costs will be much greater This promotes additional litigation challenging the many statutes enacted to remedy asserted market failures in an expanding industrial economy This work brilliantly addresses the danger to the economy in court rulings seeking to legislate standards of reasonableness

Constitutional Interpretation Jeffrey M. Shaman, 2000-11-30 This study analyzes the process of constitutional interpretation that is the methodology by which the Supreme Court goes about interpreting the Constitution and offers a comprehensive view of constitutional law through the lens of history political science and jurisprudence Shaman examines the practice of creating meaning for the Constitution the dichotomy of legal formalism and realism the levels of judicial scrutiny the perception of reality and the puzzle of legislative motive While the book traces the historical development of constitutional law its main focus is on modern jurisprudence including analyses of the major themes of constitutional interpretation developed by the Warren Burger and Rehnquist Courts Shaman details the Warren Court's move to a more realistic jurisprudence and its development of a multi level system of judicial review that has become increasingly more complex under the Burger and Rehnquist Courts He critiques the Supreme Court's reversion in recent years to an old fashioned formalistic jurisprudence and the growing tendency of the Court to look to the past rather than to the future to interpret the Constitution The book also includes discussion of recent major

doctrinal developments such as constitutional theory underlying Supreme Court decisions on gender discrimination discrimination on the basis of sexual preference the right to die abortion and freedom of speech **Not Quite Supreme** Dennis Baker, 2010 A critique of the Supreme Court of Canada's power and a defence of Parliament's role in constitutional interpretation *Foreign Policy Objectives in European Constitutional Law* Joris Larik, 2016 Presenting the first comprehensive account of foreign policy objectives as a growing part of European constitutional law this book examines the nature functions and potential of these objectives by approaching EU external relations law through both comparative constitutional analysis and international relations theory *Developing a Constitution for Europe* Erik Oddvar Eriksen, John Erik Fossum, Agustín Menéndez, 2004-08-02 The European Union is currently in the midst of a comprehensive process of reform and the aim of this book is to address the challenge of forging a legitimate Constitution for the EU These authors clarify the constitutional status of the EU to take stock of the European Charter of Fundamental Rights and Convention of the Future of Europe as vehicles to foster and create a European constitution *The Oxford Handbook of Comparative Constitutional Law* Michel Rosenfeld, András Sajó, 2012-05-17 A comprehensive reference resource on comparative constitutional law this title examines the history and development of the discipline its core concepts institutions rights and emerging trends *The Constitution of Society* Anthony Giddens, 1986-03-25 It is likely that this book will be regarded as the most important piece of grand sociological theory in English of the past decade Mark Poster University of California This book will take its place alongside such major statements of sociological theory as those of Parsons and Habermas Anyone interested in the state of the social sciences today the character of social theory or the relevance of philosophy to social theory will now find it essential to grapple with Giddens's bold and incisive book Richard Bernstein Haverford College USA Anthony Giddens's new book is the fullest presentation yet of his theoretical views it has the lean sparse utterly serious craftsmanlike qualities we have learned to expect from its author and which make it a real pleasure to read Dennis Wrong Times Higher Education Supplement *Military Law Review*, 1989 **Traversing the Divide** Kim Rubenstein, 2021-03-05 This collection honours the work of Deborah Cass 15 February 1960 4 June 2013 a brilliant Australian constitutional and international lawyer Deborah studied at the University of Melbourne and Harvard Law School and taught at Melbourne Law School The Australian National University and the London School of Economics A member of The Australian National University's Centre for International and Public Law from 1993 to 2000 Deborah's work offered illuminating new perspectives in a range of fields from the right to self determination critical international legal theory and feminist legal theory to the international trade law system The title of this edited collection draws on one of her articles Traversing the Divide International Law and Australian Constitutional Law 1998 20 Adelaide Law Review 73 This book evolves from a symposium held to draw together academics from around the globe to reflect on Deborah's extensive scholarship and contributions to public law and international law and to examine how her work is of value to current domestic and
