Intersecting Colors Vanja Malloy,2015-09-10 Josef Albers 1888 1976 was an artist teacher and seminal thinker on the perception of color A member of the Bauhaus who fled to the U S in 1933 his ideas about how the mind understands color influenced generations of students inspired countless artists and anticipated the findings of neuroscience in the latter half of the twentieth century With contributions from the disciplines of art history the intellectual and cultural significance of Gestalt psychology and neuroscience Intersecting Colors offers a timely reappraisal of the immense impact of Albers s thinking writing teaching and art on generations of students It shows the formative influence on

his work of non scientific approaches to color notably the work of Johann Wolfgang von Goethe and the emergence of Gestalt psychology in the first decades of the twentieth century The work also shows how much of Albers s approach to color dismissed in its day by a scientific approach to the study and taxonomy of color driven chiefly by industrial and commercial interests ultimately anticipated what neuroscience now reveals about how we perceive this most fundamental element of our visual experience Edited by Vanja Malloy with contributions from Brenda Danilowitz Sarah Lowengard Karen Koehler Jeffrey Saletnik and Susan R Barry

Revisiting the First Russian Art Exhibition of 1922 Isabel Wünsche, Miriam Leimer, 2022-12-12 The First Russian Art Exhibition Erste Russische Kunstausstellung which opened at the Galerie van Diemen in Berlin on October 15 1922 and later travelled to Amsterdam introduced a broad Western audience to the most recent artistic developments in Russia The extensive show more than a thousand works including paintings graphic works sculptures stage designs architectural models and works of porcelain was remarkably inclusive in its scope which ranged from traditional figurative painting to the latest constructions of the Russian avant garde Coming on the heels of the Treaty of Rapallo the exhibition was a first cultural step towards bilateral relations between two young and yet internationally isolated new states the Weimar Republic and the Russian Soviet Republic Moving away from the narrow focus on the avant garde the volume presents new research that examines the exhibition's broader historical scope and cultural implications The reception of the exhibition within artistic circles in Germany Europe the United States and Japan in the 1920s is addressed as well as the disposition of many of the works exhibited The combination of longer thematic essays and short features along with reproductions of newly identified works and a selection of unpublished archival materials make this book valuable to both a scholarly and a general readership

Kurt Schwitters Megan R. Luke, 2014-02-14 German artist Kurt Schwitters 1887 1948 is best known for his pioneering work in fusing collage and abstraction the two most transformative innovations of twentieth century art Considered the father of installation art Schwitters was also a theorist a Dadaist and a writer whose influence extends from Robert Rauschenberg and Eva Hesse to Thomas Hirschhorn But while his early experiments in collage and installation from the interwar period have garnered much critical acclaim his later work has generally been ignored In the first book to fill this gap Megan R Luke tells the fascinating even moving story of the work produced by the aging isolated artist under the Nazi regime and during his years in exile Combining new biographical material with archival research Luke surveys Schwitters's experiments in shaping space and the development of his Merzbau describing his haphazard studios in Scandinavia and the United Kingdom and the smaller quieter pieces he created there She makes a case for the enormous relevance of Schwitters's aesthetic concerns to contemporary artists arguing that his later work provides a guide to new narratives about modernism in the visual arts These pieces she shows were born of artistic exchange and shaped by his rootless life after exile and they offer a new way of thinking about the history of art that privileges itinerancy over identity and the critical power of humorous inversion over unambiguous communication Packed with images Kurt Schwitters completes the narrative of an artist who remains a considerable force today *Dane Rudhyar* Deniz Ertan, 2009 Dane Rudhyar 1895 1985 was a unique figure in

twentieth century American culture a composer thinker painter poet novelist and expert on astrology His life and activities illuminate crucial twentieth century American themes about society history creativity and identity Favoring synthesis and a blend of what he called unity and multiplicity Rudhyar created a rare bridge between the West and the East built on American foundations His thought and work transcended disciplinary boundaries integrating perspectives that were and often still are generally pursued in isolation from each other The book is enriched with numerous color illustrations of Rudhyar's paintings and with examples drawn from his music and writings Book Jacket *Provocative Plastics* Susan Lambert, 2021-01-07 Plastics have now been our most used materials for over fifty years This book adopts a new approach exploring plastics contribution from two perspectives as a medium for making and their value in societal use The first approach examines the multivalent nature of plastics materiality and their impact on creativity through the work of artists designers and manufacturers The second perspective explores attitudes to plastics and the different value systems applied to them through current research undertaken by design materials and socio cultural historians The book addresses the environmental impact of plastics and elucidates the ways in which they can and must be part of the solution The individual viewpoints are provocative and controversial but together they present a balanced and scholarly unpicking of the debate that surrounds this ubiquitous group of materials The book is essential reading for a wide academic readership interested in the Arts and Humanities especially Design and Design History Anthropology and Cultural Material and Social Histories

From Space in Modern Art to a Spatial Art History Jutta Vinzent, 2019-12-02 This book traces artists theories of constructive space in the first half of the twentieth century Drawing on these concepts and recent theories on space it develops a methodology termed Spatial Art History that conceives of artworks as physical spatio temporal things which produce the social to overcome the reductive understanding of art as a mere mirror or facilitator of society **The Russian Jewish Diaspora and European Culture, 1917-1937** Jörg Schulte, Olga Tabachnikova, Peter Wagstaff, 2012-04-03 The Jewish emigration from Russia after the Revolution of 1917 changed the face of Jewish culture in Western Europe Russian Jews brought with them the visions of a national Jewish literature in Hebrew Yiddish or Russian and new concepts of secular Jewish music and art Often they acted as intermediaries between Jewish centres in Europe which resulted in the creation of a single sphere of Jewish culture common to all parts of the European diaspora Although some stayed in Western Europe for only a few years before moving on to Palestine the budding Hebrew culture in Palestine would not have been the same without this relatively short period of intense contact between Russian Jewish and Western European cultures **The Unsung Hero of the Russian Avant-Garde: The Life and Times of Nikolay Punin** Natalia Murray, 2012-06-27 This book is the first biography of Nikolay Punin 1888-1953 One of the most prominent art critics of the avant garde in 1919 Punin was the Commissar of the Hermitage and Russian Museums he was lecturing at the Academy of Arts and at the State University in Petrograd and subsequently Leningrad He was the right hand of Lunacharsky and the head of the Petrograd branch of the

Visual Arts Department of Narkompross From 1913 till 1938 Punin worked at the Russian Museum and organized several major exhibitions of Russian art Yet his name is not widely known in the West primarily because his file languished in the KGB archives since he died in 1953 partly because his grave in the Gulag where he died is marked only by a number and partly because his own reputation became submerged under that of his lover poet and writer Anna Akhmatova Through the life and inheritance of Nikolay Punin this book will examine the very phenomenon of the Russian avant garde and its fate after the October Revolution as well as the artistic trends and cultural policies which dominated Soviet art in the 1930 1950s For an interview with the author on The Voice of Russia July 19th 2012 click here **Plastics** Anne Gunnison,David Joselit,2025-11-11 Why modern and contemporary art and art conservation can't be understood without taking account of the revolutionary impact of plastics Modern and contemporary art wouldn't exist without the invention of plastics From sculpture to paint and photography to film plastics have shaped every major medium of art In turn plastics have revolutionized art conservation transforming the possibilities of preservation but also producing new challenges for conservators struggling to preserve toxic and degrading material Hailed as utopian in the twentieth century plastics today are often understood as pollution and waste a central cause of ecological crisis *Plastics* is the first book to address the multifaceted history of plastics from the perspective of artists art historians conservators and environmental scientists *Plastics* demonstrates that this material cannot easily be summarized as toxic or utopian catastrophic or necessary Instead plastics define the modern world in both its possibility and failures The book also reveals how artists have been a critical overlooked voice in debates about plastics and how they have offered theories of the material through works that explore its potential and harmfulness Presenting a variety of perspectives on the world of plastics through the lens of art artmaking art history and art conservation *Plastics* shows why and how coming to terms with this material is critical to understanding not only modern and contemporary art and art conservation but also the crises of the twenty first century *Situating El Lissitzky* Nancy Perloff,Brian M. Reed,Brian Reed,2003 Reassessing the complex career of one of the most influential yet controversial experimental artists of the early 20th century this volume of essays looks at the prolific painter designer architect and photographer El Lissitzky 1890 1941 ***Sculpture in Rotterdam*** Jan van Adrichem,Jelle Bouwhuis,Mariette Dölle,2002
