Cloe,1988 **Popular Science** ,1924-11 Popular Science gives our readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better **Integrated Project Delivery for Building Infrastructure Opportunities** Howard McKew,2023-12-12 This book examines in great detail the D B and IPD methods while touching on D B B and CM project deliveries In this vein the discussion regarding IPD is a variation from ASHRAE Technical Committee TC 7 1 Integrated Building Design IBD with the focus herein on HVAC Led IPD Opportunities by consulting engineers and mechanical contractors This IPD variation is also described later in the book as a 21st century version of what was 20th century D B project delivery although D B project delivery is still widely used *The*

Ogoki River Guides Edward J. Hedican, 2010-10-30 The *Ogoki River Guides* describes the prolonged struggle that members of a small native community in northern Ontario have undertaken in their attempt to establish a viable local economy. The leaders of Collins the community in which the events of the book take place have made a concerted effort to ensure that the community takes charge of its own affairs and in doing so have generated some important lessons for governmental policy in northern areas. The study makes evident the fact that certain changes in current government practices are needed especially in areas of local inputs into policy and control issues if community based groups like *Ogoki River Guides* are to flourish and if real local initiatives in economic development has a chance to become a widespread pattern in northern areas. The suggestions then is that studies such as the present one which focus on the economic development projects of the native community are necessary in order to help orient government policy and planning. The author uses as exchange theory approach to study the conditions favouring emergent community leadership and to analyse the ways in which political activity in small communities is apt to change under particular conditions and stresses. Yet he also demonstrates some of the inadequacies of exchange theory itself especially in terms of its difficulty in accounting for variations in historical and cultural change. The *Ogoki River Guides* should be of interest not only to those in the academic community but also to those concerned with native affairs at the community level or in higher administrative capacities of planning policy and development.
