Construction On Contaminated Sites:

Construction on Contaminated Sites J. Scott Lowe, Theodore J. Trauner, 1997 Provides information on how to reduce and manage the risks associated with unexpected findings of hazardous waste on construction sites This text offers advice on immediate actions to take upon discovery of hazardous materials and how to measure the impact to the operation It also provides methods to resolve or prevent disputes that follow such a discovery The book includes indicators for determining the existence of hazardous waste on construction sites helps the contractor determine immediate actions to be taken and reviews how owners and contractors can prepare for the discovery of hazardous materials EPA Workshop on Radioactively Contaminated Sites, 1990 Contaminated Soil '93 F. Arendt, G.J. Annokkée, R. Bosman, W.J. van den Brink, 2012-12-06 F Arendt XxX Conference chairman w Harder TNO Conference co chairman The 1993 Berlin conference on contaminated sites is the fourth in a series of meetings initiated by the Netherlands Organization of Applied Scientific Research TNO in 1985 and later continued with the Karlsruhe Nuclear Research center KfK of Germany The present economic stagnation or recession in many countries is leading to various proposals to reduce the level of costly environmental activities restricted funds are used for really urgent cases rather than precautionary measures The level of soil contamination caused by the former centrally planned economies adds to this tendency The Conference tries to broach this controversy by discussing once more the targets and strategies of soil remediation with follow up use of the site as an important parameter Both new regulations and modifications of existing lists for a tolerable level of contamination are reviewed alike Immobilization and enclosure of pollutants are often less expensive than complete remediation and consequently may grow in significance We consider the conference of great significance for demonstrating the experiences gained with management and remediation of contaminated sites internationally among others to avoid mistakes and excessive costs Two new types of soil contamination became apparent after the end of the cold war Many military sites airfields and training grounds are being abandoned After decades of use large sections and hot spots of these sites are polluted to a high average level **Environmental Law for the Construction Industry** Amanda Stubbs, Chris Dering, 2002 Environmental Law for the Construction Industry is an introduction to the wide subject of environmental law as it affects the construction industry Changes in the structure of contracting arrangements have meant that those traditionally concerned with the construction process must now take greater interest in environmental law In addition there is now a mass of regulation governing matters such as waste management water pollution noise and other nuisances that have to be adhered to in practice **Remediation Manual for Contaminated Sites** David L.
