Reconsidering Social Constructionism Gale Miller, 2017-09-29 With the impact of social interactionist and ethnographic methodology twenty five years ago the research agenda in social problems began to shift its focus giving rise to the Social Constructionism movement. The present volume and the related shorter text Constructionist Controversies review the substantial contributions made by social constructionist theorists over that period as well as recent debates about the future of the perspective. These contributions redefine the purpose and central questions of social problems theory and articulate a research program for analyzing social problems as social constructions. A generation of theorists has been trained in the constructionist perspective and has extended it through numerous analyses of diverse aspects of contemporary social life. The debates in this volume pose fundamental questions about the major assumptions of the perspective, the ways in which it is practiced and the purposes of social problems theory. Their point of departure is Ibarra and Kitsuse's essay cutting new theoretical ground in calling for investigating vernacular resources especially rhetorical forms in the social problems process. Contributors are forceful proponents both within and outside of the social constructionist community who take a broad array of positions on the current state of social problems theory and on the rhetorical forms that need exploring. They also lay down the general lines for diverse and often competing programs for the future development of the constructionist agenda.

[Handbook of Constructionist Research](#) James A. Holstein, Jaber F. Gubrium, 2013-10-21 Constructionism has become one of the most popular research approaches in the social sciences But until now little attention has been given to the conceptual and methodological underpinnings of the constructionist stance and the remarkable diversity within the field This cutting edge handbook brings together a dazzling array of scholars to review the foundations of constructionist research how it is put into practice in multiple disciplines and where it may be headed in the future The volume critically examines the analytic frameworks strategies of inquiry and methodological choices that together form the mosaic of contemporary constructionism making it an authoritative reference for anyone interested in conducting research in a constructionist vein

lines for diverse and often competing programs for the future development of the constructionist agenda **Collective Morality and Crime in the Americas** Christopher Birkbeck, 2013 This book examines the nature of collective morality as it materializes in public commentary about crime in the Americas and identifies the ways in which the moral community is talked into being and how the imagined moral universe is mapped **The Social Science Encyclopedia** Adam Kuper, 2003-12-16 The Social Science Encyclopedia first published in 1985 to acclaim from social scientists librarians and students was thoroughly revised in 1996 when reviewers began to describe it as a classic This third edition has been radically recast Over half the entries are new or have been entirely rewritten and most of the balance have been substantially revised Written by an international team of contributors the Encyclopedia offers a global perspective on the key issues within the social sciences Some 500 entries cover a variety of enduring and newly vital areas of study and research methods Experts review theoretical debates from neo evolutionism and rational choice theory to poststructuralism and address the great questions that cut across the social sciences What is the influence of genes on behaviour What is the nature of consciousness and cognition What are the causes of poverty and wealth What are the roots of conflict wars revolutions and genocidal violence This authoritative reference work is aimed at anyone with a serious interest in contemporary academic thinking about the individual in society **Challenges and Choices** James A. Holstein, Gale Miller, 2024-11-01 The social constructionist perspective has revolutionized the way that social scientists investigate social problems Constructing Social Problems Spector and Kitsuse 1977 2001 offered the guiding statement of the approach which both transformed and revitalized the sociology of social problems propelling it into a quarter century of exciting and innovative empirical research John Kitsuse and Malcolm Spector challenged conventional approaches to the field they insisted on treating social problems as social constructions as the products of claims making and constitutive definitional processes The purpose of this book is to highlight contemporary challenges to the social constructionist perspective on social problems In 1993 two collections of essays Reconsidering Social Constructionism Debates in Social Problems Theory Holstein and Miller 1993 and Constructionist Controversies Issues in Social Problems Theory Miller and Holstein 1993 brought a wide variety of constructionist challenges into focus Challenges and Choices attempts to distill these debates and offers some compelling suggestions for how challenges may be met and where constructionist studies might proceed in the future While each of the essays in this volume deeply appreciates the constructionist approach each of them points to issues and choices that social constructionists must confront if the perspective is to continue to be a vital part of ongoing debates on social problems The essays critique previous constructionist formulations make suggestions for advancing expanding or diversifying the constructionist agenda and challenge the perspective to move in new directions They remind us that social constructionism is an ongoing not a finished product and the essays point to some of the choices available to social constructionists in moving their projects into new even uncharted territories James A Holstein and Gale Miller are professors in the Department of

Contemporary Social Problems in the UK Selwyn

Stanley, 2022-09-30 Social problems are endemic to all societies The UK is no exception and is grappling with a plethora of issues including poverty family breakdown domestic violence teenage pregnancy child abuse and neglect youth offending alcohol and drug misuse mental health issues homelessness and ethnic and religious discrimination These problems have huge implications for the individual the family unit and society at large and take their toll on health wellbeing and community resources They place an enormous amount of strain on government finances and the welfare state and add to the burden on social institutions such as the National Health Service and the social work and criminal justice systems *Contemporary Social Problems in the UK* explores a wide range of social problems in the UK Each social problem has been explored using a range of psychosocial theories to generate an understanding of various causal factors and to examine the linkages between different social problems Government policy and legislation remedial measures preventive approaches and strategies of intervention are also considered for each social problem that has been dealt with Each chapter deals with a particular social problem and has been penned by an expert in that topic The endeavour has been to provide a multi dimensional overview of the social problem in a manner that is engaging and easy to read The end of chapter content includes supplementary reading useful topic related websites besides a quiz and individual group activities to generate discussion and stimulate learning This informative yet accessible textbook will be an invaluable resource for instructors and students in the social sciences as well as professionals who work with people who experience some of these problems

A Neighborhood That Never Changes

Japonica Brown-Saracino, 2010-01-15 Newcomers to older neighborhoods are usually perceived as destructive tearing down everything that made the place special and attractive But as *A Neighborhood That Never Changes* demonstrates many gentrifiers seek to preserve the authentic local flavor of their new homes rather than ruthlessly remake them Drawing on ethnographic research in four distinct communities the Chicago neighborhoods of Andersonville and Argyle and the New England towns of Provincetown and Dresden Japonica Brown Saracino paints a colorful portrait of how residents new and old from wealthy gay homeowners to Portuguese fishermen think about gentrification The new breed of gentrifiers Brown Saracino finds exhibits an acute self consciousness about their role in the process and works to minimize gentrification s risks for certain longtime residents In an era of rapid change they cherish the unique and fragile whether a dilapidated house a two hundred year old landscape or the presence of people deeply rooted in the place they live Contesting many long standing assumptions about gentrification Brown Saracino s absorbing study reveals the unexpected ways beliefs about authenticity place and change play out in the social political and economic lives of very different neighborhoods

The New

Pediatrics Dorothy Pawluch, 2017-07-05 When antibiotics became readily available in the 1950s the danger of life threatening infectious childhood diseases virtually disappeared In that era pediatricians broadened the core professional task of their specialty the prevention and treatment of such diseases to incorporate the behavioral and psychosocial problems of

children and adolescents Pediatricians themselves began to refer to this changing emphasis as the new pediatrics and to see the trend as a natural progression of their specialty into new areas of care At the same time there arose widespread disaffection among practicing general pediatricians defection to other areas of practice and a decline in the popularity of pediatrics as a specialty choice In analyzing the emergence of the new pediatrics as a case study within medical sociology Pawluch shows how professional concerns and interests influence debate around social problems As sociologists began to take greater interest in the problems of childhood and as children's lives became increasingly medicalized as some have argued it is at least in part because of pediatricians willingness to endorse medical definitions for certain social problems and to provide treatment for them Pawluch's underlying concern is that medical professionals have begun to make claims for authority in the definition of what constitutes the social problems of childhood Among the topics she examines are the dissatisfied pediatrician syndrome the potential for a crisis in oversupply of pediatricians and competing providers of services the push for expansion into new areas of care and possible future developments in this specialty

Bits of Organization

Alison Pullen, Carl Rhodes, 2009 The academic study of organizations is in a condition of heterodoxy where diverse methods and theories collide and compete gathered together only in the broken net of a name This book assembles some of the bits that break off in the process of this collision It plays with the already contested boundaries correct images and correct narratives of a legitimate organization studies so as to attest to a destabilization of any theory and method that would desire to capture reproduce and indoctrinate knowledge The book brings together a group of original thinkers and writers who push the boundaries of innovative and unconventional work as governed by prevailing standards in the dominant bastions of organization studies

Corrupt Exchanges Donatella Della Porta, Alberto Vannucci, 1999-01-01 Political corruption has traditionally been presented as a phenomenon characteristic of developing countries authoritarian regimes or societies in which the value system favored tacit patrimony and clientelism Recently however the thesis of an inverse correlation between corruption and economic and political development and therefore democratic maturity has been frequently and convincingly challenged Countries with a long democratic tradition such as the United States Belgium Britain and Italy have all experienced a combination of headline grabbing scandals and smaller scale cases of misappropriation In **Corrupt Exchanges** primary research on Italian cases judicial proceedings in depth interviews parliamentary documents and press databases combined with a cross national comparison based on a secondary analysis of corruption in democratic systems is used to develop a model to analyze corruption as a network of illegal exchanges The authors explore in great detail the structure of that network by examining both the characteristics of the actors who directly engage in the corruption and the resources they exchange These processes of degeneration have caused a crisis in the dominant paradigm in both academic and political considerations of corruption The book is organized around the analysis of the resources that are exchanged and of the different actors who take part Politicians in business illegal brokers Mafia members protected entrepreneurs and party

appointed bureaucrats exchange resources on the illegal market altering the institutional system of interactions between the state and the market In this complex web of exchanges bonds of trust are established that allow the corrupt exchange to thrive The book will serve both as a theoretical approach to a political problem of large bearing on democratic institutions and a descriptive warning of a system in peril **The Ashgate Research Companion to Moral Panics** Charles

Krinsky,2016-03-23 The Ashgate Research Companion to Moral Panics offers a comprehensive assemblage of cutting edge critical and theoretical perspectives on the concept of moral panic All chapters represent original research by many of the most influential theorists and researchers now working in the area of moral panic including Nachman Ben Yehuda and Erich Goode Joel Best Chas Critcher Mary deYoung Alan Hunt Toby Miller Willem Schinkel Kenneth Thompson Sheldon Ungar and Grazyna Zajdow Chapters come from a range of disciplines including media studies literary studies history legal studies and sociology with significant new elaborations on the concept of moral panic and its future informed and powerful critiques and detailed empirical studies from several continents A clear and comprehensive survey of a concept that is increasingly influential in a number of disciplines as well as in popular culture this collection of the latest research in the field addresses themes including the evolution of the moral panic concept sex panics media panics moral panics over children and youth and the future of the moral panic concept **Critical Readings: Moral Panics And The Media** Critcher, Chas,2006-03-01

First coined by Stanley Cohen in 1972 moral panic is a key term in media studies used to refer to sudden eruptions of indignant concern about social issues An occurrence of moral panic is characterised by stylized and stereotypical representation by the mass media and a tendency for those in power to claim the moral high ground and pronounce judgement In this important book Chas Critcher brings together essential readings on moral panics which he contextualises in the light of moral panic scholarship through an editor s introduction and concise section introductions The first section discusses moral panic models and includes contributions on the history and intellectual background of the concept Differences in thinking between British and American moral panic scholarship are also examined A second section features important case studies including AIDS Satanism drugs paedophilia and asylum seekers This is followed by readings that look at themes such as the importance of language rhetoric and discourse the dynamics of media reporting and how it affects public opinion and the idea of the risk society Finally readings critique and debate the use and relevance of moral panic models **Critical Readings Moral Panics And The Media** is a valuable resource for students and researchers in media studies criminology and sociology Essays by David L Altheide Nachman Ben Yehuda Joel Best Theodore Chiricos John Clarke Stan Cohen Chas Critcher Mary deYoung Julie Dickinson Erich Goode Johanna Habermeier Stuart Hall Sean P Hier Tony Jefferson Philip Jenkins Hans Mathias Kepplinger Jennifer Kitzinger Daniel Maier Katkin Angela McRobbie Peter Meylakhs Suzanne Ost Bryan Roberts Liza Schuster Stephen Stockwell Kenneth Thompson Sarah L Thornton Sheldon Ungar Simon Watney Jeffrey Weeks Michael Welch Paul Williams *Courts* Cassia Spohn,Craig Hemmens,2011-11-09 Authored text sections and

carefully selected accompanying readings that illustrate the questions and controversies legal scholars and court researchers are investigating in the 21st century Edited readings introduce students to classic studies of the criminal court system and to cutting edge research on decision making by court actors An introduction to each reading gives students an overview of the purpose main points and conclusion of each article and evaluates their policy implications How to Read a Research Article tied to the first reading in the book guides students in understanding and learning from the research articles Mini chapters precede the selection of readings and offer clear and concise explanations of key terms and concepts in each section coupled with boxes with special interest topics and review materials that enhance student comprehension
