The Constructivist Moment Barrett Watten, 2003 Provocative cultural readings of avant garde literature and art

Poetry After Cultural Studies Heidi R. Bean, Mike Chasar, 2011-10-26 Poetry after Cultural Studies elucidates the potential of poetry scholarship when joined with cultural studies In eight searching essays covering an astonishing range of poetic practices geographical regions and methodological approaches this volume reflects on what poetry can accomplish in the broadest social and cultural contexts From Depression era Iowa to the postcolonial landscape of French speaking Martinique whether appearing in newspapers correspondences birders field guides cross stitches or television and the internet the poetry under consideration here is rarely a private lyrical endeavor For a great number of people writing reading publishing and using poetry over the past 150 years verse has not been a retreat from modern life but a way of engaging with and even changing it Whether the subject is post cards talk shows or verse from places as different as academia and MySpace as cultural production and as literary trickery the material examined in this volume demonstrates the central role of poetry as an active cultural presence By bringing together cultural studies poetics and formalist reading without antagonism Poetry after Cultural Studies looks toward a poetry criticism that does not merely do cultural studies but rather employs the resources of that discipline to examine an increasingly legible and audible record of poetic practice Exploring a wide range of poetry from the nineteenth century to the present Poetryafter Cultural Studies showcases the unexpectedly rich intersection of cultural studies theory and current poetry scholarship These essays show forcefully that cultural studies and poetics once thought incommensurable in fact are mutually informative and richer for the effort *Music, the Avant-Garde, and Counterculture* Anabela Duarte, 2024-12-01 This book studies how the complex relationship between music the avant garde and counterculture challenges all sorts of boundaries By exploring the avant garde as a thoughtful inquiry into experimentation creativity and originality we bring to the fore the invisible republics of culture the ephemeral the suppressed and the unconformity of artistic and political undercurrents Avant garde and experimental art are international in scope and their trajectory as we see it has been to expand themselves towards a new enlightenment a critical project and a rhizomatic entity albeit with tacit harmony and cohesion From Bucharest to Paris London to New York Paris to Brazil Cuba or Chile to name a few the same urge for the unknown and anti art poetics emerged almost simultaneously in every field We ask how these separate geographical territories and practices speak to each other and how this might reshape scholars historical understanding of European and American modernity This is an open access book *Poetics and Praxis 'After' Objectivism* W. Scott Howard, Broc Rossell, 2018-08-15 Poetics and Praxis After Objectivism includes an introduction ten chapters and a roundtable afterward all of which have been written specifically for this volume The collection examines late twentieth and early twenty first century poetic praxis within and against the dynamic disparate legacy of Objectivism and the Objectivists This is the first volume in the field to study this vital legacy through current poetic praxis renewing the complexities of the

past in terms of the difficulties of the present The book's scope investigates the continuing relevance of the Objectivist ethos to poetic praxis in our time examining and exemplifying generative intersections of creativity and critique **Poetry, Publishing, and Visual Culture from Late Modernism to the Twenty-first Century** Natalie Pollard, 2020 Exploring works by Djuna Barnes David Jones F T Prince Denise Riley Paul Muldoon and Ted Hughes this volume traces the relationship between twentieth century poetry and art to question the role of art in society **The Art of Twentieth-Century American Poetry** Charles Altieri, 2008-04-15 Written by a leading critic this invigorating introduction to modernist American poetry conveys the excitement that can be generated by a careful reading of modernist poems Encourages readers to identify with the modernists sense of the revolutionary possibilities of their art Embraces four generations of modernist American poets up through to the 1980s Gives readers a sense of the ambitions the disillusionments and the continuities of modernist poetry Includes close readings of particular poems which show how readers can use these works to connect with what concerns them **Unfettering Poetry** J. Robinson, 2006-04-29 This book calls attention to the pervasive but largely unacknowledged poetics of the Fancy evident in poetry written during the British Romantic period These poetics Robinson demonstrates are an early nineteenth century version of what will become the visionary experimental open form poetics of the twentieth century *Writing Into the Future* Alan Golding, 2022-09-13 The dial The little review and the dialogics of the modernist new The new American poetry revisited again New newer and the newest American poetries Poetry anthologies and the idea of the mainstream Serial form in George Oppen and Robert Creeley Place space and new syntax in Oppen's Seascape needle's eye Macro micro material Rachel Blau DuPlessis's Drafts and the post objectivist serial poem Drafts and fragments Rachel Blau DuPlessis's counter Poudian project Drawings with words Susan Howe's visual feminist poetics Authority marginality England and Ireland in the work of Susan Howe Bruce Andrews writing and poetry What about all this writing Williams and alternative poetics Language writing digital poetics and transitional materialities *The Oxford Handbook of Modern and Contemporary American Poetry* Cary Nelson, 2012-02-16 The Oxford Handbook of Modern and Contemporary American Poetry gives readers a cutting edge introduction to the kaleidoscopic world of American poetry over the last century Offering a comprehensive approach to the debates that have defined the study of American verse the twenty five original essays contained herein take up a wide array of topics the influence of jazz on the Beats and beyond European and surrealist influences on style poetics of the disenfranchised religion and the national epic antiwar and dissent poetry the AIDS epidemic digital innovations transnationalism hip hop and more Alongside these topics major interpretive perspectives such as Marxist psychoanalytic disability queer and ecocritical are incorporated Throughout the names that have shaped American poetry in the period Ezra Pound Wallace Stevens Marianne Moore Mina Loy Sterling Brown Hart Crane William Carlos Williams Posey Langston Hughes Allen Ginsberg John Ashbery Rae Armantrout Larry Eigner and others serve as touchstones along the tour of the poetic landscape Experimental Natalia Cecire, 2019-12-30 A compelling revision of

the history of experimental writing from Pound and Stein to Language poetry disclosing its uses and its limits In this bold new study of twentieth century American writing and poetics Natalia Cecire argues that experimental writing should be understood as a historical phenomenon before it is understood as a set of formal phenomena This seems counterintuitive because at its most basic level experimental writing can be thought of as writing which breaks from established forms Touching on figures who are not typically considered experimental such as Stephen Crane Jacob Riis Busby Berkeley Ursula K Le Guin and Gottlob Frege Experimental offers a fresh look at authors who are often treated as constituting a center or an origin point of an experimental literary tradition in the United States including Gertrude Stein Ezra Pound William Carlos Williams and Marianne Moore In responding to a crisis of legitimization in the production of knowledge this tradition borrows and transforms the language of the sciences Drawing upon terminology from the history of science Cecire invokes the epistemic virtue which tethers ethical values to the production of knowledge in order to organize diverse turn of the century knowledge practices feeding into experimental writing Using these epistemic virtues as a structuring concept for the book s argument Cecire demonstrates that experimental writing as we now understand it does not do experiments as in follow a method but rather performs epistemic virtues Experimental texts embody the epistemic virtues of flash objectivity precision and contact associated respectively with population sciences neuroanatomy natural history and toolmaking and anthropology Yet which virtues take precedence may vary widely as may the literary forms through which they manifest Bringing it up to the 1980s Cecire reveals the American experimental literary tradition as a concerted and largely successful rewriting of twentieth century literary history She shows how the Language poets a group of primarily white experimental writers restored to the canon what they saw as modernism s true legacy whose stakes were simultaneously political and epistemological it produced a poet who was an intellectual and a text that was experimental **The Cambridge**

Introduction to Postmodernism Brian McHale, 2015-06-26 This Introduction surveys the full spectrum of postmodern culture from architecture and visual art to fiction poetry and drama **Form, Power, and Person in Robert Creeley's**

Life and Work Stephen Fredman, Steve McCaffery, 2010-03-15 By any measure international reputation influence upon fellow writers and later generations number of books published scholarly and critical attention Robert Creeley 1926 2005 is a literary giant an outstanding irreplaceable poet For many decades readers have remarked upon the almost harrowing emotional nakedness of Creeley s writing In the years since his death it may be that the disappearance of the writer allows that nakedness to be observed more readily and without embarrassment Written by the foremost critics of his poetry Form Power and Person in Robert Creeley s Life and Work is the first book to treat Creeley s career as a whole Masterfully edited by Stephen Fredman and Steve McCaffery the essays in this collection have been gathered into three parts Those in Form consider a variety of characteristic formal qualities that differentiate Creeley from his contemporaries In Power writers reflect on the pressure exerted by emotions gender issues and politics in Creeley s life and work In Person Creeley s unique

artistic and psychological project of constructing a person reflected in his correspondence teaching interviews collaborations and meditations on the concept of experience is excavated While engaging these three major topics the authors remain as Creeley does intent upon the ways such issues appear in language for Creeley s nakedness is most conspicuously displayed in his intimate relationship with words Contributors Charles Altieri Rachel Blau DuPlessis Stephen Fredman Benjamin Friedlander Alan Golding Michael Davidson Steve McCaffery Peter Middleton Marjorie Perloff Peter Quartermain Libbie Rifkin *Truth Is Trickiest* Jennifer Neville, 2024-11-30 At the end of the tenth century English manuscript the Exeter Book there is a collection of almost one hundred riddles They are notable for many reasons but one feature in particular has challenged modern readers their lack of solutions In *Truth Is Trickiest* Jennifer Neville argues that the absence of solutions rather than being an unfortunate accident uncovers an essential quality of these texts In opposition to the general expectation that a successfully solved riddle will have one correct answer Neville argues that the Exeter Book riddles are written to generate multiple solutions The correct response to an Exeter Book riddle is not a single elegant solution but instead an ongoing process of interpretation that leads readers to question what they think they know *Truth Is Trickiest* contextualizes its readings within the larger field of Old English poetry early medieval material culture and Anglo Latin riddles The book pursues the central issue of interpretation in relation to social values craftsmanship hierarchical social structures violence irony humour and sexuality It concludes with a full list of previously proposed solutions to document the history of the ongoing argument that the Exeter Book riddles have provoked **Avant-folk** Ross Hair, 2016 A critical study of the intersection of folk and avant garde poetics in transatlantic small press poetry networks from the 1950s up to the present *Among Friends* Anne Dewey, Libbie Rifkin, 2013-05-15 With friendship as an optic the essays in this volume offer important new insights into the gender politics of the poetic avant garde since poetry as an institution has continued to be transformed by dramatic changes wrought by second wave feminism sexual liberation and gay rights These essays reveal the intimate social negotiations that fight fracture and queer the conventions of authority and community that have long constrained women poets and the gendering of poetic subjectivities From this shared perspective the essays collected here investigate a historically and aesthetically wide ranging array of subjects from Joanne Kyger and Philip Whalen s trans Pacific friendship to Patti Smith s grounding of her punk persona in the tension between her romantic friendships with male artists and her more professional connections to the poets of the St Geographies of Identity Jill Darling, 2021 *Geographies of Identity Narrative Forms Feminist Futures* explores identity and American culture through hybrid prose work by women and expands the strategies of cultural poetics practices into the study of innovative narrative writing Informed by Judith Butler Homi Bhabha Harryette Mullen Julia Kristeva and others this project further considers feminist identity politics race and ethnicity as cultural content in and through poetic and non narrative forms The texts reflected on here explore literal and figurative landscapes linguistic and cultural geographies sexual borders and spatial topographies Ultimately they offer non

prescriptive models that go beyond expectations for narrative forms and create textual webs that reflect the diverse realities of multi ethnic multi oriented multi linguistic cultural experiences Readings of Gertrude Stein s *A Geographical History of America* Renee Gladman s *Juice* Pamela Lu s *Pamela A Novel* Claudia Rankine s *Don t Let Me Be Lonely* Juliana Spahr s *The Transformation* Theresa Hak Kyung Cha s *Dict e* Gloria Anzald a s *Borderlands La Frontera* and Layli Long Soldier s *WHEREAS* show how alternatively narrative modes of writing can expand access to representation means of identification and subjective agency and point to horizons of possibility for new futures These texts critique essentializing practices in which subjects are defined by specific identity categories and offer complicated contextualized and historical understandings of identity formation through the textual weaving of form and content **Stubborn Poetries** Peter Quartermain,2013-06-25 *Stubborn Poetries* is a study of poets whose work because of its difficulty or simple resistance to conventional explication remains more or less firmly outside the canon Book jacket **Nobody's Business** Brian M. Reed,2013-08-15 Since the turn of the new millennium English language verse has entered a new historical phase but explanations vary as to what has actually happened and why What might constitute a viable avant garde poetics in the aftermath of such momentous developments as 9 11 globalization and the financial crisis Much of this discussion has taken place in ephemeral venues such as blogs e zines public lectures and conferences *Nobody s Business* is the first book to treat the emergence of Flarf and Conceptual Poetry in a serious way In his engaging account Brian M Reed argues that these movements must be understood in relation to the proliferation of digital communications technologies and their integration into the corporate workplace Writers such as Andrea Brady Craig Dworkin Kenneth Goldsmith Danny Snelson and Rachel Zolf specifically target for criticism the institutions skill sets and values that make possible the smooth functioning of a postindustrial globalized economy Authorship comes in for particular scrutiny how does writing a poem differ in any meaningful way from other forms of content providing While often adept at using new technologies these writers nonetheless choose to explore anachronism ineptitude and error as aesthetic and political strategies The results can appear derivative tedious or vulgar they can also be stirring compelling and even sublime As Reed sees it this new generation of writers is carrying on the Duchampian practice of generating antiart that both challenges prevalent definitions of art and calls into question the legitimacy of the institutions that define it [Stitch, Unstitch](#) Kristin Grogan,2025-08-26 The labor of literature is often thought of as a specialized craft distinct from everyday work In *Stitch Unstitch* Kristin Grogan traces an alternative vision of writing and the writer arguing that modernist poetry was deeply shaped by ordinary labor and the people who performed it This relationship provoked powerful political and aesthetic experiments and allowed modernist poets to imagine ways of life beyond the demand to earn a living Poetic form Grogan shows offers ways to reflect on the meaning and worth of labor particularly types of gendered labor that are typically unseen and undervalued Her fine grained readings locate modernist poetry within sites of social reproduction factory work craft labor and other forms of manual labor placing literary texts alongside objects such as

constructivist posters and set design household notes and homemade books Grogan considers Ezra Pound s ideology of craft and artisanal labor Lola Ridge s immersion in the New York garment industry Langston Hughes s encounter with Soviet workers theater Gertrude Stein s gendered and queer domestic labors and Lorine Niedecker s employment as a hospital cleaner Blending Marxist and feminist theory with attentive close readings *Stitch Unstitch* is a revelatory materialist account of the values of poetry
