# Consulting Profession In Developing Countries A Strategy For Development

**Syed S. Kirmani, Warren C. Baum**

## **Consulting Profession In Developing Countries A Strategy For Development:**

The consulting profession in developing countries : a strategy for development Syed S. Kirmani, Warren C. Baum, 1991

The authors concluded that during the past two decades the number of domestic consulting firms in developing countries has increased phenomenally. However, the quality of their performance has not kept pace with the growth in numbers. The policies and practices of government internal weaknesses in staffing and management and the lack of a supportive environment have prevented domestic consulting firms from effectively exercising the key role that they should in planning, designing and implementing their countries investment programs. The authors also point out that favorable opportunities for growth of the consulting profession exist but a number of constraints will have to be overcome for those to be realized. The profession generally suffers from several structural weaknesses. It is characterized by a small number of large firms, mostly public enterprises which dominate the business and at the other end of the scale a very large number of small or medium size private firms often in a precarious position. The recommended strategy for strengthening the domestic consulting is addressed to both the developing countries and the World Bank and other donors.

**New Perspectives on Construction in Developing Countries** George Ofori, 2012-06-26. Developing countries face the challenge of maintaining economic growth and socio economic development at the core of which sits the construction industry. Considerable research on construction in developing countries took place in the 1970s and 1980s but little since a gap which this book fills. Including contributions from prominent academics and practitioners in Australia, China, the Netherlands, Portugal, Singapore, South Africa, Switzerland and the UK, this is a truly international analysis of a subject of global interest. The most insightful and relevant of recent research on topics such as Millennium Development Goals, the informal

construction sector human resource development technology finance and social change are all addressed in the context of the construction industry in the developing world Also considered are other key aspects of construction industry development such as institution building nurturing of contractors and consultants and championing of industry development programmes While the challenge has grown and the needs have become even more pressing the research to date has rarely presented effective solutions Focussing on those aspects of the construction industry most crucial to development this is a much needed up to date study that sheds new light on a variety of concepts and issues This is essential reading for researchers professionals and students interested in the construction industry in developing countries Readers of this book will be interested in its companion volume Contemporary Issues of Construction in Developing Countries Policies and Measures for Small-contractor Development in the Construction Industry ,1996 *Participatory Development and the World Bank* Bhuvan Bhatnagar,Aubrey C. Williams,1992-01-01 Participatory development is an end and a means It is an end because participation builds skills and enhances people s capacity for action and for enriching their lives It is a means because participation contributes to better development policies and projects As a development agency the World Bank is primarily concerned with exploring how individuals communities and public and private institutions can contribute to making development prospects better and more lasting This report reflects the outcome of a workshop intended to explore some difficult issues such as whether the Bank is approaching the idea of participation in the right way how and to what extent external agencies can encourage participatory development This book is a guide to the learning process The main messages of the introductory chapter reflect further thinking of the learning groups since the workshop **The World Bank in a Changing World** Ibrahim F.I. Shihata,James D. Wolfensohn,2023-12-18 Civil Service Reform and the World Bank Barbara Nunberg,John R. Nellis,1995-01-01 Annotation Surveys the World Bank s experience in supporting developing country civil service reforms and begins to assess the progress made The World Bank recognizes the importance of the civil service to the general welfare of the 4 6 billion people in low and middle income countries Between 1981 and 1991 civil service reform was a prominent feature of 90 World Bank lending operations This paper surveys the Bank s experience in supporting this reform and assesses the progress made The lending operations concentrated on two separate dimensions 1 Shorter term emergency steps to reform public pay and employment policies which center on measures to contain the cost and the size of the civil service 2 longer term civil service strengthening efforts directed toward ongoing sustained management improvements After examining the record of these reforms the authors conclude that the results have been mixed at best They recommend greater emphasis on devising a coherent far reaching strategy for reform and on detailing the set of tactics by which these goals will be achieved *Korean Industrial Policy* Danny M. Leipziger,Peter A. Petri,1993 The World Bank is changing the way it does business in the energy sector This Policy Paper is one of two that outlines the Bank s new policies for the sector The review was prompted by concern about the effects of power generation on the environment

and on populations that may be resettled to make way for projects Another stimulus was the macroeconomic reality of fewer investment resources in many countries And many developing countries are becoming more receptive to reforming the way energy is produced and consumed This paper credits the public monopoly approach of the last 30 years with facilitating expansion of power supplies capturing technical economies of scale and making effective use of scarce managerial and technical skills Nonetheless it recommends several new policies to improve the performance of the electric power sector in developing countries These reforms will guide future Bank activities in the sector Bank loans for electric power will go first to countries clearly committed to improving the performance of their power sectors The Bank will also discourage subsidies on energy prices and will encourage private investment in utilities And it will provide financing to help the least developed countries import power where local generation is not practical The efficiency of production and use of electric power in developing countries is examined in a companion paper Energy Efficiency and Conservation in the Developing World The World Bank's Role The World Bank's Role in the Electric Power Sector is also available in Spanish La función del Banco Mundial en el sector de la electricidad Políticas para efectuar una reforma institucional regulatoria y financiera eficaz ISBN 0 8213 2451 9 Stock No 12451 7 95 Price code 007 Spanis

**The United Nations at Age Fifty** Christian Tomuschat, 2023-07-03 The 50th anniversary of the United Nations provides a welcome opportunity to reflect on what the world organization has been able to achieve during the first half century of its existence The contributions assembled in this volume all purport to ascertain whether and to what extent it has been possible to promote the community values acknowledged by the UN Charter through methods and mechanisms in accordance with the rule of law The work does not confine itself to focusing solely on developments of the past and provides insights which can be used as beacons for the future The volume has been divided into two parts The first part is devoted to the institutions and mechanisms designed to maintain international peace and security The second part addresses the additional tasks of the UN Contributions are from experts who as nationals of countries enjoying special privileges within the UN system or seeking to obtain such a position are intimately familiar with the policies of their governments what specific objectives they would like to see pursued by the competent organs and what changes in the institutional structure they may suggest

**Proceedings of a Conference on Currency Substitution and Currency Boards** Nissan Liviatan, 1993-01-01 Eighteen well known policymakers and economists discuss the rising use of currency substitution in Latin America They examine the effects of currency boards on substitute currencies and on national stabilization programs Latin American countries including Argentina Bolivia Peru and Uruguay increasingly use dollars as a substitute for domestic currency The experts debate whether the region should encourage or resist this trend Topics include the effects of substitution on inflation liquidity and exchange rates The discussions on Argentina Peru and Brazil focus on the ways in which currency boards have affected stabilization in these countries They consider whether such boards can strengthen fiscal discipline and speed economic adjustment A currency

board issues money that is converted into a foreign reserve currency at a fixed exchange rate This independent institution takes over the central bank's role as the sole issuer of base money It also manages the exchange rate to keep the currency stable and convertible

Borrower Ownership of Adjustment Programs and the Political Economy of Reform John H. Johnson, Sulaiman S. Wasty, 1993-01-01 China has done much to reform its price system achieve macroeconomic stability and restore growth Nevertheless price distortions remain in three key areas This study suggests further price reforms for the energy grain and transport sectors It explains why energy price adjustments should have only a modest effect on consumer prices but a highly positive effect on the economy It discusses why China may have to reduce consumer subsidies to achieve the necessary reforms for grain prices The study describes what the government must do to strengthen commodity markets generate competition and make allowances for seasonal price variations China's transport sector has been a critical development bottleneck The paper reviews tariff adjustments and other reforms that would modernize the transport system and help it meet growing demand These reforms also would encourage energy conservation and help integrate the national economy

**Making Motherhood Safe** Anne G. Tinker, 1993-01-01 This collection reviews national policies that critically influence economic performance in developing countries It describes principles that shape good economic policy and illustrates them with case studies In an overview that draws together insights from the essays the volume editor explains why poor countries need sound government policies to offset unfavorable conditions including scant natural resources adverse problems that occur with monetary and exchange rate policies and financial sector reform The basic rules for monetary policy in an open economy are developed along with the different ways in which financial reform and financial repression affect an economy Practical ways to deal with foreign exchange markets are described They include such arrangements as multiple exchange rates for commercial transactions and dual rates that separate commercial and financial transactions Also examined are the ways in which trade liberalization and trade restrictions impede economic development Advice is given on developing a uniform structure that balances the administration of taxes with the efficiency of a tax structure The book examines the relationship between budget deficits and money creation and suggests management strategies for developing sound economic policy that include advice on inflation control international trade import restrictions income tax rates and price and wage controls Published for the World Bank by Oxford University Press

**Information Technology in World Bank Lending** Nagy Hanna, Sandor Boyson, 1993-01-01 This study describes a strategy to reduce poverty by boosting labor

productivity and economic growth It focuses on Uganda's two key sectors agriculture and industry The strategy seeks to make Uganda a self sufficient food producer and a major crop exporter It also advocates policies that would make the nation less dependent on imports and better at marketing its own products Some suggestions include ways to improve labor markets raise agricultural output and broaden the tax base Other recommendations discuss ways to develop the financial sector and spur savings and investment Also examined are the government's economic adjustment policies and their effects on the poor Analysts point out the different ways that poverty affects men and women The study also discusses how to increase public funds for social services that would improve the labor force It recommends policies that will help women become full partners in Uganda's development Tables and other illustrations throughout the text provide detailed statistics on Uganda's economic status Topics include crop yields poverty indicators gross domestic product and public sector expenses

*Social Gains from Female Education* K. Subbarao, Laura Raney, 1993-01-01 This paper on the social gains from female education is part of a series prepared by the World Bank on the benefits of improving opportunities for women The paper suggests that expanding women's opportunities enhances their productivity and earning potential and thus contributes to better economic performance and poverty alleviation Education raises the productivity and earnings of both men and women Over time female education also contributes to slower population growth and healthier families The Bank believes that in efforts to expand women's opportunities priority should be given to education through the secondary level reproductive health agriculture private entrepreneurship and the wage labor force This paper is concerned with the estimation of these social gains from female education at the secondary level The paper examines the role of female education measured by gross enrollment rates at the secondary level relative to and or in combination with some health and family planning services that influence fertility and infant mortality It uses reduced form estimation of the total fertility rate and infant mortality rate The paper presents cross country regressions based on data drawn from 72 developing countries The analysis in this paper generally shows that female secondary education family planning and health programs all affect fertility and mortality and the effect of female secondary education appears to be very strong Results suggest that family planning will reduce fertility more when combined with female education especially in countries that now have low female secondary enrollment levels DK
