does it mean to say that poetry is dark How does the presence of darkness give meaning to literary works Such questions sit at the centre of this study of Lord Byron a man who has been characterised as intrinsically dark by generations of scholars This is the first book to offer a comprehensive survey of Byron's darkness producing new and innovative readings of his poetry by exploring how darkness both literal and figurative helps to structure his work's ideological topography and facilitates the exchange of ideas between its different ideological systems Canvassing a variety of issues relevant to a number of different manifestations of darkness the study explores such diverse topics as the relationship between sublime aesthetics and the gendering of desire the connection between darkness and Byron's Scottish nationalism and the influence of blackness on his engagement with the Orient With such a broad focus in mind it also engages with texts that represent Byron's oeuvre in its broadest sense engaging not only with canonical texts such as Manfred and Don Juan but also selections from Byron's juvenilia the Oriental Tales and his letters and journals as well as surveying the critical reviews that helped to influence the colour of his work and its later reception Recognition or Disagreement Axel Honneth,Jacques

Rancière,2016-05-10 Axel Honneth is best known for his critique of modern society centered on a concept of recognition

Jacques Rancière has advanced an influential theory of modern politics based on disagreement. Underpinning their thought is a concern for the logics of exclusion and domination that structure contemporary societies. In a rare dialogue, these two philosophers explore the affinities and tensions between their perspectives to provoke new ideas for social and political change. Honneth sees modern society as a field in which the logic of recognition provides individuals with increasing possibilities for freedom and is a constant catalyst for transformation. Rancière sees the social as a policing order and the political as a force that must radically assert equality. Honneth claims Rancière's conception of the political lies outside of actual historical societies and involves a problematic desire for egalitarianism. Rancière argues that Honneth's theory of recognition relies on an overly substantial conception of identity and subjectivity. While impassioned, their exchange seeks to advance critical theory's political project by reconciling the rift between German and French post-Marxist traditions and proposing new frameworks for justice.
