**Modernity** Dean Jay Irvine, 2008-01-01 Based on extensive new archival and literary historical research Editing Modernity examines these Canadian women writers and editors and their role in the production and dissemination of modernist and leftist little magazines The Technique of Film and Video Editing Ken Dancyger, 2007 Providing a detailed precise look at the artistic and aesthetic principles and practices of editing for both picture and sound this handbook contains analyses of photographs from dozens of classic and contemporary films and videos to provide a sound basis for the professional filmmaker and student editor Editing and Special/Visual Effects Charlie Keil, Kristen Whissel, 2016-08-26 Most moviegoers think of editing and special effects as distinct components of the filmmaking process We might even conceive of them as polar opposites since effective film editing is often subtle and almost invisible whereas special effects frequently call attention to themselves Yet film editors and visual effects artists have worked hand in hand from the dawn of cinema to the present day Editing and Special Visual Effects brings together a diverse range of film scholars who trace how the arts of editing and effects have evolved in tandem Collectively the contributors demonstrate how these two crafts have been integral to cinematic history starting with the trick films of the early silent era which astounded audiences by splicing in or editing out key frames all the way up to cutting edge effects technologies and concealed edits used to create the illusions Throughout readers learn about a variety of filmmaking techniques from classic Hollywood's rear projection and matte shots to the fast cuts and wall to wall CGI of the contemporary blockbuster In addition to providing a rich historical overview

Editing and Special Visual Effects supplies multiple perspectives on these twinned crafts introducing readers to the analog and digital tools used in each craft showing the impact of changes in the film industry and giving the reader a new appreciation for the processes of artistic collaboration they involve

**Women Editing/Editing Women** Chanita Goodblatt, Ann Hollinshead Hurley, 2009-01-14 This collection of essays links current research in the writings and editing of early modern women and in those women who were themselves early editors with a new methodology of editing currently titled the new textualism As such the collection seeks to solve two problems The first concerns the difficulty of editing the works of early modern women writers for whom there is little biographical data a challenging task when the standard life and works format is thus inhibited Second related but slightly different occurs because although we know that there were women who edited in the early modern and even later periods we know little about them as well The new textualism approach to editing which focuses on the material properties of the manuscript or book its print or performance history and records of its dissemination and the sociology of texts provides a fruitful solution to both problems by broadening the concept of agency and hence provides a richer context for the production of a given text The collection includes two sets of essays One set has been reprinted from seminal works in the field of new textualism These include writings by recognized figures like Jerome McGann Leah Marcus and Wendy Wall among others As such that set provides background for the reading of the second a group of six original essays by scholars now working in the field of early modern women writers who directly apply aspects of the new textualism in their research The fusion of the research field of retrieving early modern women writers with the practices of new textualist editing is thus the core of this collection of essays and is illustrative of what can be achieved in the field of editing when this new approach to texts is put into practice

*A Poetics of Editing* Susan L. Greenberg, 2018-09-03 This original and authoritative book offers a first ever attempt to define a poetics of the editing arts It proposes a new field of editing studies in which the ideal editor can be understood in relation to the long theorised author and reader The book's premise is that editing like other forms of making is mostly invisible and can only be brought into full view through a comparative analysis that includes the insights of practitioners The argument laid down in careful layers is supported by a panoramic historical narrative that tracks the shifts in textual authority from religious and secular institutions to the romanticised self of the digital present The dangers posed by the anti editing rhetoric of this hybrid romanticism are confronted head on To the traditional perception of editing as the imposition of closure *A Poetics of Editing* adds a perspective on a dynamic process with a sense of the possible
