Racism and social change in the Republic of Ireland Bryan Fanning, 2018-09-30 Now in its second edition Racism and Social Change in the Republic of Ireland provides an original and challenging account of racism in twenty first century Irish society and locates this in its historical political sociological and policy contexts It includes specific case studies of the experiences of racism in twenty first century Ireland alongside a number of historical case studies that examine how modern Ireland came to marginalize ethnic minorities Various chapters examine responses by the Irish state to Jewish refugees before during and after the Holocaust asylum seekers and Travellers Other chapters examine policy responses to and academic debates on racism in Ireland A key focus of the various case studies is upon the mechanics of exclusion experienced by black and ethnic minorities within institutional processes and of the linked challenge of taking racism seriously in twenty first century Ireland

Changing Welfare States Anton Hemerijck, 2013 Changing Welfare States is a major new examination of the wave of social reform that has swept across Europe over the past two decades In a comparative fashion it analyses reform trajectories and political destinations in an era of rapid socioeconomic restructuring including the critical impact of the global financial crisis on welfare state futures The book argues that the overall scope of social reform across the member states of the European Union varies widely In some cases welfare state change has been accompanied by deep social conflicts while in other instances unpopular social reforms received broad consent from opposition parties trade unions and employer organizations The analysis reveals trajectories of welfare reform in many countries that are more proactive and reconstructive than is often argued in academic research and the media Alongside retrenchments there have been deliberate attempts often given impetus by intensified European economic integration to rebuild social programs and institutions and thereby accommodate welfare policy repertoires to the new economic and social realities of the 21st century Welfare state change is work in progress leading to patchwork mixes of old and new policies and institutions on the lookout perhaps for greater coherence Unsurprisingly that search process remains incomplete resulting from the institutionally bounded and contingent adaptation to the challenges of economic globalization fiscal austerity family and gender change adverse
