## **Contemporary Issues In Health Care:**

**Contemporary Issues in Health Care** David J. Schnall, Carl L. Figliola, 1984-02      **Handbook on Contemporary Issues in Health, Crime, and Punishment** Nathan W. Link, Meghan A. Novisky, Chantal Fahmy, 2024-10-30 The Handbook on Contemporary Issues in Health Crime and Punishment covers many topics on the numerous ways in which mental and physical health and criminal justice system contact influence one another and are intricately intertwined. These often mutually reinforcing dynamics affect a range of health and justice outcomes at individual, familial, group, community, and national levels. Contributions detail this topic from a wide range of disciplinary, theoretical, and international perspectives and rely on various analytical lenses including quantitative, qualitative, policy, analytic, theoretical, conceptual, and lived experiences. The chapters summarize what is known in each topical area but as important they identify emerging theoretical, empirical, and policy directions. In this way, the book is grounded in the current knowledge about the specific topic but also provides new synthesizing material that reflects the knowledge of the leading minds in the field. Conceptually divided into 11 sections, a number of contributions describe the unique experiences of women, people of color, juveniles, older populations, immigrants, LGBTQ individuals, and other sub-populations, i.e. people convicted of drug or sex offenses. Where appropriate, the authors provide both big picture and pragmatic policy directions aimed at reducing system contact, health challenges, and inhumane practices. Given its breadth and depth, the Handbook will appeal broadly to academics, practitioners, policymakers, advocates, and students seeking to understand the many ways in which health and justice system dynamics overlap.

**Contemporary Issues in Health Care** David J. Schnall, Carl L. Figliola, 1984      **Contemporary Issues in Health and Social Care Policy and Practice** Julia Morgan, Vincent La Placa, 2025-02-07 This accessible text presents a comparative analysis of health and social care policy and practice from around the world, with learning points drawn out for the UK. It supports readers to improve practice by reflecting on differences and similarities in the policies of other OECD countries. Divided into two parts, the book opens with a focus on core concepts in health and social care policy and practice such as service user involvement, the promotion of wellbeing, health inequalities, funding, and integrated care. The differing philosophical, socio-political, and historical perspectives that underpin these key areas in different countries are explored in order to develop a greater understanding of the UK system. The second part of the book takes a close look at a range of specific contemporary issues such as end of life care, long-term conditions, homelessness, refugee and migrant health, disability, domestic abuse, substance use, and women in prison. These in-depth case study chapters enable readers to identify best practices and challenges in relation to specific areas of health and social care policy and practice. Ideal for undergraduate students studying health and social care policy from a range of disciplinary backgrounds, this practical text provides a deeper understanding of complex health and social care issues and supports the development of a global and comparative skill set.

**Contemporary Issues in Global Medicine and Moving Toward International Healthcare Equity** Comninellis,

Nick,Waldman, Steven D.,2022-06-24 The COVID 19 pandemic is only the latest prompt about the importance of international health and its broad influence upon social wellbeing The COVID 19 pandemic has highlighted the need for an informed and coordinated effort to achieve international healthcare equity Leaders in international health must be conversant in its issues Contemporary Issues in Global Medicine and Moving Toward International Healthcare Equity provides an understanding of contemporary issues in international medicine It explores the impact of civil unrest on population health and provides practical strategies for providing clinical care in low resource settings Covering topics such as international public health maternal health and drug resistance this book is an essential resource for government officials medical officials physicians nurses social workers sociologists epidemiologists medical students students and educators of higher education researchers and academicians **Contemporary Issues in Maternal Health Care in Africa** Boniface Tatchwenglie Nasah,J. K. G.

Mati,Joseph M. Kasonde,1994 *Contemporary Issues in Mental Health Care in sub-Saharan Africa* Omigbodun, Olayinka,Oyebode, Femi,2018-03-13 Seventy percent of the global burden of mental disorders is located in low and middle income countries LMIC including sub Saharan Africa SSA However in Africa only 0 62% of the national health budget is allocated to mental health compared to a global median of 2 8% and 5% in Europe The government is the source of funding in 62%of patients with severe mental disorder in the World Health Organisation WHO Africa Region the lowest of all the WHO regions and lower compared to a global median of 79% This is compounded by poor resources with mental health outpatient facilities in WHO Africa Region being less than 10% of the global median To address these problems the WHO launched its Mental Health Action Gap Programme mhGAP in 2008 to scale up mental health services in low and middle income countries LMIC The book is directed to all policy makers in sub Saharan Africa to aid decision making about the urgent need for sustainable and relevant mental health care strategies and the important areas that need priority The book should be helpful to local and international researchers in formulating research questions relevant to the African continent and it will be of interest to medical practitioners and students in the region as adjunct to standard text books

Contemporary Issues of Care Roberta R. Greene,2012-11-12 Make sure your clients get the best possible care throughout their lives Contemporary Issues of Care presents the latest research findings on human behavior and the social environment for social workers practicing at the individual family and community levels This timely book applies the functional age model on intergenerational therapy FAM to examine the interaction between the care recipient s biopsychosocial and spiritual functioning and the capacity of the family caregiver to adapt The book s contributors examine the functions of various social systems in caregiving as well as the social worker s role in processing and integrating information to help develop family centered and community based interventions Contemporary Issues of Care focuses on caregiving situations across the life span using research findings to shape social work curriculum and to improve social work practice and services With the family still the primary caregiving institution in the United States the book examines the mutual interdependence among
