Fairholm, 2009-04-05 hand Indeed we do not easily move out of one mind set into another What we believe to be true given our particular experience often seems to be the only truth Often we need some outside force to trigger reevaluation and rethinking That triggering force to intellectual growth may be a new idea a new situation a new value a new boss or some other significant emotional event maybe even a new book The Research Foundation This book is founded on two pillars one a model of five leadership mind sets common in the last 100 years first presented in Gilbert W Fairholm s 1998a 1998b book Perspectives on Leadership From the Science of Management to its Spiritual Heart and two Matthew R Fairholm s 2002 dissertation Conceiving Leadership Exploring Five Perspectives of Leadership by Investigating the Conceptions and Experiences of Selected Metropolitan Washington Area Municipal Managers which analyzed and validated the perspectives model see the Appendix for more details The data collected confirm there are five distinct perspectives of leadership evident in the 100 year history of leadership study and practice The resulting model defines the five perspectives in terms of descriptions of leadership in action leadership tools and behaviors and the way leaders approach
