

Contemporary Perspectives on Rhetoric

30th Anniversary Edition

The anniversary edition marks thirty years of offering an indispensable review and analysis of thinkers who have exerted a profound influence on contemporary rhetorical theory: I. A. Richards, Ernesto Grassi, Chaim Perelman and Lucie Otbrechts-Tyteca, Stephen Toulmin, Richard Weaver, Kenneth Burke, Jürgen Habermas, bell hooks, Jean Baudrillard, and Michel Foucault. The brief biographical sketches locate the theorists in time and place, showing how life experiences influenced perspectives on rhetorical thought. The concise explanations of complex concepts are clear, engaging, insightful, and highly accessible, serving as an excellent primer for reading the major works of these scholars. The critical commentary is carefully chosen to highlight implications and to place the theories within a broader rhetorical context. Each chapter ends with a complete bibliography of works by the theorists.

the Twenty-First Century Nicholas J. Crowe, David A. Frank, 2016-04-26 This book arises from a symposium held in Oxford to consider the most fruitful trajectories of rhetoric in the 21st century The gathering comprised an international delegation of leading scholars convened to assess from an array of perspectives the various possible futures of the ancient discipline of rhetoric as it responds vitally to the evolving contexts of the new millennium This collection commemorates that event by extending its scrutiny into a number of specific fields of inquiry It includes a foreword by Prof James J Murphy an introductory article by the editors and six further articles commissioned from among the participants The introduction provides a detailed account of the symposium and foregrounds the delegates articles with a r sum of their arguments and consequent relevance to the overarching theme Each contribution is a freshly minted and original piece of scholarship true to the generative and interactive spirit of the enterprise and speaking pertinently to the field of international rhetoric studies at the present time Rhetoric in the Twenty First Century addresses a spectrum of concerns Scholars and students of rhetoric and language use will naturally find much of interest here and the inclusive ambit of the work will also appeal to students of ethics religion comparative literature intercultural studies and the growing field of communication studies The Legacy of Kenneth Burke Herbert W. Simons, Trevor Melia, 1989 Capturing the lively modernist milieu of Kenneth Burke s early career in Greenwich Village where Burke arrived in 1915 fresh from high school in Pittsburgh this book discovers him as an intellectual apprentice conversing with the moderns Burke found himself in the midst of an avant garde peopled by Malcolm Cowley Marianne Moore Jean Toomer Katherine Anne Porter William Carlos Williams Allen Tate Hart Crane Alfred Stieglitz and a host of other fascinating figures Burke himself who died in 1993 at the age of 96 has been hailed as America s most brilliant and suggestive critic and the most significant theorist of rhetoric since Cicero Many schools of thought have claimed him as their own but Burke has defied classification and indeed has often been considered a solitary eccentric genius immune to intellectual fashions But Burke s formative work of the 1920s when he first defined himself and his work in the context of the modernist conversation has gone relatively unexamined Here we see Burke living and working with the crowd of poets painters and dramatists affiliated with Others magazine Stieglitz s 291 gallery and Eugene O Neill s Provincetown Players the leftists associated with the magazines The Masses and Seven Arts the Dadaists and the modernist writers working on literary journals like The Dial where Burke in his capacity as an associate editor saw T S Eliot s The Wasteland into print for the first time and provided other editorial services for Thomas Mann e e cummings Ezra Pound and many other writers of note Burke also met the iconoclasts of the older generation represented by Theodore Dreiser and H L Mencken the New Humanists and the literary nationalists who founded Contact and The New Republic Jack Selzer shows how Burke s own early poems fiction and essays emerged from and contributed to the modernist conversation in Greenwich Village He draws on a wonderfully rich array of letters between Burke and his modernist friends and on the memoirs of his associates to create a vibrant portrait of the young Burke s transformation from aesthete to social critic **Essays on Classical Rhetoric and**

The Viability of the Rhetorical Tradition Richard Graff, Arthur E. Walzer, Janet M. Atwill, 2012-02-01 *The Viability of the Rhetorical Tradition* reconsiders the relationship between rhetorical theory practice and pedagogy Continuing the line of questioning begun in the 1980s contributors examine the duality of a rhetorical canon in determining if past practice can make us more or less able to address contemporary concerns Also examined is the role of tradition as a limiting or inspiring force rhetoric as a discipline rhetoric's contribution to interest in civic education and citizenship and the possibilities digital media offer to scholars of rhetoric

Rhetoric's Pragmatism Steven Mailloux, 2017-04-27 For over thirty years Steven Mailloux has championed and advanced the field of rhetorical hermeneutics a historically and theoretically informed approach to textual interpretation This volume collects fourteen of his most recent influential essays on the methodology plus an interview Following from the proposition that rhetorical hermeneutics uses rhetoric to practice theory by doing history this book examines a diverse range of texts from literature history law religion and cultural studies Through four sections Mailloux explores the theoretical writings of Heidegger Burke and Rorty among

others Jesuit educational treatises and products of popular culture such as Azar Nafisi's *Reading Lolita in Tehran* and *Star Trek The Next Generation*. In doing so he shows how rhetorical perspectives and pragmatist traditions work together as two mutually supportive modes of understanding and he demonstrates how the combination of rhetoric and interpretation works both in theory and in practice. Theoretically rhetorical hermeneutics can be understood as a form of neopragmatism. Practically it focuses on the production, circulation and reception of written and performed communication. A thought provoking collection from a preeminent literary critic and rhetorician. *Rhetoric's Pragmatism* assesses the practice and value of rhetorical hermeneutics today and the directions in which it might head. Scholars and students of rhetoric and communication studies, critical theory, literature, law, religion and American studies will find Mailloux's arguments enlightening and essential.

What is the New Rhetoric? Susan E. Thomas, 2009-03-26. The Age of Information has spawned a critical focus on human communication in a multimedia world, particularly on theories and practices of writing. With the worldwide web impacting increasingly on academic and business communication, the need has never been greater for advanced study in writing, communication and critical thinking across all genres, sectors and cultures. In recent decades the definitions of new rhetoric have expanded to encompass a variety of theories and movements, raising the question of how rhetoric is understood and employed in the twenty-first century. The essays collected here represent variations on these themes, with each attempting to answer the title's deliberately provocative question, addressing particularly: How the classical art of rhetoric is still relevant today; How it is directly related to modern technologies and the new modes of communication they have generated; How rhetorical practice is informing research methodologies and teaching and learning practices in the contemporary academy.

Culture and Political Psychology Thalia Magioglou, 2014-03-01. This book is perhaps the first systematic treatment of politics from the perspective of cultural psychology. Politics is a complex that psychology usually fails to understand as it assumes a position in society that attempts to be free of politics itself. Politics is associated both with an everyday practice and the dynamics of globalization, with the way group conflicts, ideologies, social representations and identities are lived and co-constructed by social actors. The authors of the book address these issues through their research grounded in different parts of the world on democracy and political order, the social representation of power, gender studies, the use of metaphors and symbolic power in political discourse, social identities and methodological questions. The book will be used by social and political psychologists but is also of interest to the other social sciences: political scientists, sociologists,

anthropologists educationalists and it is at a level where sophisticated lay public would be able to appreciate its coverage Its use in upperlevel college teaching is possible and expected at graduate postgraduate levels *Theorizing Communication*
