Shook, 2005-01-01 The Dictionary of Modern American Philosophers includes both academic and non academic philosophers and a large number of female and minority thinkers whose work has been neglected It includes those intellectuals involved in the development of psychology pedagogy sociology anthropology education theology political science and several other fields before these disciplines came to

be considered distinct from philosophy in the late nineteenth century. Each entry contains a short biography of the writer, an exposition and analysis of his or her doctrines and ideas, a bibliography of writings, and suggestions for further reading. While all the major post-Civil War philosophers are present, the most valuable feature of this dictionary is its coverage of a huge range of less well-known writers, including hundreds of presently obscure thinkers. In many cases, the *Dictionary of Modern American Philosophers* offers the first scholarly treatment of the life and work of certain writers. This book will be an indispensable reference work for scholars working on almost any aspect of modern American thought. *A History of Philosophy in Australia* S. A. Grave, 1984      **A Hundred Years of British Philosophy** Rudolf Metz, 2014-06-03 This is Volume XIV of twenty-two in a series on 20th Century Philosophy. Originally published in 1938, *The Library of Philosophy* was designed as a contribution to the History of Modern Philosophy under the heads first of different Schools of Thought: Sensationalist, Realist, Idealist, Intuitivist; secondly of different Subjects: Psychology, Ethics, Aesthetics, Political Philosophy, Theology. Dr. Rudolf Metz's book, entitled *Die philosophischen Strömungen der Gegenwart in Grossbritannien*, of which this volume is a translation, was the first attempt to give a detailed account to his own countrymen of the development of British philosophy during the last and the first part of this century. *Lectures on Philosophy* George Edward Moore, 2014-06-23 This is Volume XV in a collection of twenty-two on 20th Century Philosophy. First published in 1966 as a part of the Muirhead library of Philosophy, this work consists of selections from three courses of lectures. The first course was given in the academic year 1925-26, the second in 1928-29, and the third in 1933-34. The first two, entitled *Metaphysics*, were intended primarily for Part II of the Moral Sciences Tripos; the last, entitled *Elements of Philosophy*, for Part I. The selections from the second course, which are the most extensive, are printed first. *Contemporary Perspectives on Early Modern Philosophy* Martin Lenz, Anik Waldow, 2013-05-13 Normativity has long been conceived as more properly pertaining to the domain of thought than to the domain of nature. This conception goes back to Kant and still figures prominently in contemporary epistemology, philosophy of mind, and ethics. By offering a collection of new essays by leading scholars in early modern philosophy and specialists in contemporary philosophy, this volume goes beyond the point where nature and normativity came apart and challenges the well-established opposition between these all too neatly separated realms. It examines how the mind's embeddedness in nature can be conceived as a starting point for uncovering the links between naturally and conventionally determined standards governing an agent's epistemic and moral engagement with the world. The original essays are grouped in two parts. The first part focuses on specific aspects of theories of perception, thought formation, and judgment. It gestures towards an account of normativity that regards linguistic conventions and natural constraints as jointly setting the scene for the mind's ability to conceptualise its experiences. The second part of the book asks what the norms of desirable epistemic and moral practices are. Key to this approach is an examination of human beings as parts of nature who act as natural causes and are determined by their sensibilities and sentiments. Each part concludes with a chapter that integrates features of the

historical debate into the contemporary context      **Philosophical Papers** George Edward Moore,2014-06-03 This is Volume XVII of twenty two in a series on 20th Century Philosophy Originally published in 1959 it is a contribution to the History of Modern Philosophy under the heads first of different Schools of Thought Sensationalist Realist Idealist Intuitivist secondly of different Subjects Psychology Ethics Aesthetics Political Philosophy Theology This is a collection of papers by George Edward Moore Emeritus Professor of Philosophy and Fellow of Trinity College in the University of Cambridge      **History of Philosophy** Johann Eduard Erdmann,2014-04-04 First published in 2002 This is Volume II of three volumes on modern philosophy from 1890 looking at the history of philosophy from the first period of Pantheism Descartes Malebranche and Spinoza to the third period of Mediation and the works of Kant Fichte Reinhold Schelling and Hegel to name a few      **The Development of Bertrand Russell's Philosophy** Ronald Jager,2014-06-03 This is Volume XI of twenty two in a collection on 20th Century Philosophy Originally published in 1994 this volume of the Muirhead library of philosophy in the author's words attempts not what is difficult but what is impossible What it attempts is a critical account of Russell's philosophy just that without supposing that every reader is himself a philosopher at the beginning though he may be at the end It is written for those who know of Russell's philosophy and wish to know about it for those who know about it and wish to know it

Niels Bohr and Contemporary Philosophy J. Faye,H. Folse,2013-03-09 Since the Niels Bohr centenary of 1985 there has been an astonishing international surge of scholarly analyses of Bohr's philosophy Now for the first time in Niels Bohr and Contemporary Philosophy Jan Faye and Henry Folse have brought together sixteen of today's leading authors who have helped mould this new round of discussions on Bohr's philosophy In fifteen entirely new previously unpublished essays we discover a surprising variety of the different facets of Bohr as the natural philosopher whose framework of complementarity shaped the final phase of the quantum revolution and influenced two generations of the century's leading physicists There is much on which the authors included here agree but there are also polar disagreements which assure us that the philosophical questions revolving around Bohr's new viewpoint will continue to be a subject of scholarly interest and discussion for years to come This collection will interest all serious students of history and philosophy of science and foundations of physics      *Encyclopedia of Asian Philosophy* Oliver Leaman,2006-10-19 Incorporating cultural and religious contexts this unique Encyclopedia provides a vital guide to the main concepts and thinkers in Asian philosophy starting with Abhidharma and ending with Zurvan The main philosophical trends and thinkers in each geographical area are featured with an emphasis on contemporary developments and movements The A-Z structured encyclopedia emphasizes that Asian philosophy is not merely an ancient form of thought but that it is a living philosophy with roots in the past and also a potent and animate presence today This translates into the reciprocal exchange of theories between Eastern and Western thinking for example of new schools of thought such as orientalism Requiring no prior knowledge of philosophy religion or Asian cultures this book is essential reading for students teachers and the interested individual who wishes to gain an

understanding of the philosophical basis to Asian cultural systems      *Ludwig Wittgenstein* Alice Ambrose, Morris Lazerowitz, 2002-08-15 This volume is a comprehensive collection of critical essays on *The Taming of the Shrew* and includes extensive discussions of the play's various printed versions and its theatrical productions. Aspinall has included only those essays that offer the most influential and controversial arguments surrounding the play. The issues discussed include gender authority, female autonomy and unruliness, courtship and marriage, language and speech, and performance and theatricality.

**The Philosophical Papers of Alan Donagan, Volume 1** Alan Donagan, 1994 A major voice in late twentieth century philosophy, Alan Donagan is distinguished for his theories on the history of philosophy and the nature of morality. The *Philosophical Papers of Alan Donagan* volumes 1 and 2 collect 28 of Donagan's most important and best known essays on historical understanding and ethics from 1957 to 1991. Volume 1 includes essays on Spinoza, Descartes, Bradley, Collingwood, Russell, Moore, and Popper, as well as two previously unpublished papers on the history of philosophy as a discipline and on Ryle and Wittgenstein's nature of philosophy. Linked by Donagan's commitment to the central importance of history for philosophy and his interest in problems of historical understanding, these essays represent the remarkable scope of Donagan's thought.
