**Graham Oppy**

## **Contemporary Philosophy Of Religion:**

**Perspectives in Contemporary Philosophy of Religion** Tommi Lehtonen, Timo Koistinen, 2000      **Issues in Contemporary Philosophy of Religion** Eugene Thomas Long, 2001-11-30 This collection of original articles written by leading contemporary European and American philosophers of religion is presented in celebration of the publication of the fiftieth volume of the International Journal for Philosophy of Religion Following the Editor's Introduction John Macquarrie Adriaan Peperzak and Hent de Vries take up central themes in continental philosophy of religion Macquarrie analyzes postmodernism and its influence in philosophy and theology Peperzak argues for a form of universality different from that of modern philosophy and de Vries analyzes an intrinsic and structural relationship between religion and the media The next three essays discuss issues in analytic philosophy of religion Philip Quinn argues that religious diversity reduces the epistemic status of exclusivism and makes it possible for a religious person to be justified while living within a pluralistic environment William Wainwright plumbs the work of Jonathan Edwards in order to better understand debates concerning freedom determinism and the problem of evil and William Hasker asks whether theological incompatibilism is less inimical to traditional theism than some have supposed Representing the Thomist tradition Fergus Kerr challenges standard readings of Aquinas on the arguments for the existence of God David Griffin analyzes the contributions of process philosophy to the problem of evil and the relation between science and religion Illustrating comparative approaches Keith Ward argues that the Semitic and Indian traditions have developed a similar concept of God that should be revised in view of post Enlightenment theories of the individual and the historical Keith Yandell explores themes in the Indian metaphysical tradition and considers what account of persons is most in accord with reincarnation and karma doctrines Feminist philosophy of religion is represented in Pamela Anderson's article in which she argues for a gender sensitive and more inclusive approach to the craving for infinitude      **Contemporary Philosophy of Religion** Steven M. Cahn, David Shatz, 1980

*Contemporary Debates in Philosophy of Religion* Michael L. Peterson, Raymond J. VanArragon, 2020-01-15 Lively debates on controversial and compelling questions in the philosophy of religion an updated edition of the bestselling title Building upon the reputation of the first edition the extensively revised second edition of *Contemporary Debates in Philosophy of Religion* features fifteen essays which present arguments on some of the most central and controversial topics in philosophy of religion from the discipline's most influential thinkers Considering questions of both emerging and perennial interest from atheistic theistic and agnostic viewpoints the book adopts the series structure which pairs essays espousing opposing perspectives on a particular question or theme in an engaging pro and con format Following accessible introductions to each debate the volume's new and newly revised contributions set the stage for thoughtful and lively discourse between philosophers in philosophy of religion and analytic theology Debates range from vigorous disagreements between theists and their critics to arguments between theists of different philosophical and theological persuasions highlighting points of

contrast for readers while showcasing the field's leading minds in dialogue. The head-to-head chapters offer forceful advocacy for some of the most compelling ideas, beliefs, and objections in the philosophy of religion, opening the conversation up to students to weigh the arguments and engage in comparative analysis of the concepts for themselves. Written to appeal to the non-specialist as well as the professional philosopher, *Contemporary Debates in Philosophy of Religion* is ideal as both a provocative primary text for coursework in analytical theology and philosophy of religion and as a broad survey of the field for scholars and general readers with an interest in the questions which underpin contemporary philosophy of religion and theology.

Contemporary Philosophy and Religious Thought Malcolm Luria Diamond, 1974-01-01 *The Reign of Religion in Contemporary Philosophy* Sarvepalli Radhakrishnan, 1920 **Faith, Reason and Existence** John Aleksander Hutchison, 1956 Continental Philosophy and Philosophy of Religion Morny Joy, 2010-11-05

This is the first book that provides access to twelve Continental philosophers and the consequences of their thinking for the philosophy of religion. Basically in the second half of the twentieth century it has been treated from within the Anglo-American school of philosophy which deals mainly with proofs and truths and questions of faith. This approach is more concerned with human experience and pays more attention to historical context and cultural influences. As such it provides challenging questions about the way forward for philosophy of religion in the twenty-first century.

**The Routledge Handbook of Contemporary Philosophy of Religion** Graham Oppy, 2015-04-17

Philosophy of religion has experienced a renaissance in recent times paralleling the resurgence in public debate about the place and value of religion in contemporary Western societies. The Routledge Handbook of Contemporary Philosophy of Religion is an outstanding reference source to the key topics, problems, and debates in this exciting subject. Comprising over thirty chapters by a team of international contributors, the Handbook is divided into seven parts: theoretical orientations; conceptions of divinity; epistemology of religious belief; metaphysics and religious language; religion and politics; religion and ethics; religion and scientific scrutiny. Within these sections, central issues, debates, and problems are examined, including religious experience; religion and superstition; realism and anti-realism; scientific interpretation of religious texts; feminist approaches to religion; religion in the public square; tolerance; religion and meta-ethics; religion and cognitive science; and the meaning of life. Together they offer readers an informed understanding of the current state of play in the liveliest areas of contemporary philosophy of religion. The Routledge Handbook of Contemporary Philosophy of Religion is essential reading for students and researchers of philosophy of religion from across the Humanities and Social Sciences.

*Contemporary Philosophy of Religion* Steven Duncan, 2007-01-01

Contents: What is the Philosophy of Religion? Three Competing Paradigms in Contemporary Philosophy of Religion: Deductivism, Neo-Thomism, Analytic Philosophy, Analytic Atheism, and the Meaningfulness of Religious Language; Atheistic Deductivism; Inductivism; Mitchell's Inductivist Proposal; Swinburne's Bayesian Theism; Swinburne on the Prior Probability of Theism; Swinburne's Positive Case for Theism; Swinburne's Theodicy; the Future of Inductivism; Post-Deductivism; Deductivism and the Ethics of Belief; The Post-Deductivists

on Evil Plantinga's Reformed Epistemology Plantinga and Wolterstorff Christian Philosophy Recent Work on the Traditional Arguments for God's Existence      Reconfigurations of Philosophy of Religion Jim Kanaris, 2018-03-01 This collection addresses as it exemplifies an identity crisis in contemporary philosophy of religion. It represents a unique two-way dialogue between philosophers of religion and scholars of religion and broaches issues pertaining to the philosophy of religion and the philosophical tradition on the one hand and religious studies, theology, and the modern academy on the other. While each author manages the current challenges in philosophy of religion differently, one can nonetheless discern a polyphony of interests surrounding a postcritical, postsecular appreciation of religion. In part 1, contributors ask how philosophy of religion can accommodate both the strengths and weaknesses of Western analytic and continental traditions, incorporate developments in ideology critique, gender studies, and Asian philosophies, and negotiate the perceived stalemate in philosophy of religion. Part 2 addresses these questions in terms of a philosophy of religion that is postcolonial in intention and multidisciplinary in orientation and features scholarship from the fields of both religion and theology. An underlying theme is the importance of ushering philosophy of religion into a postphenomenological era of religious studies and theology. This is a neglected dimension in many laudable discussions about philosophy of religion that this volume hopes to emend.      *Issues in Contemporary Philosophy of Religion*, 2001      Contemporary Philosophy of Religion Charles Taliaferro, 1998-02-04 This volume provides a vivid and engaging introduction to contemporary philosophy of religion.      Religion and Friendly Fire D.Z. Phillips, 2017-03-02 In locating friendly fire in contemporary philosophy of religion, D.Z. Phillips shows that more harm can be done to religion by its philosophical defenders than by its philosophical despisers. Friendly fire is the result of an uncritical acceptance of empiricism, and Phillips argues that we need to examine critically the claims that individual consciousness is the necessary starting point from which we have to argue for the existence of an external world and the reality of God, that God is a person without a body, a pure consciousness, and that to assent to a religious belief is essentially to assign a truth value to a proposition independent of any confessional context. When these products of friendly fire are avoided, we arrive at a new understanding of belief, trust, and the soul, and refuse to say more or less than we know about the realities of human life in the service of religious apologetics.      *Dialogues in the Philosophy of Religion* J. Hick, 2010-04-07 This is a collection of John Hick's essays on the understanding of the world's religions as different human responses to the same ultimate transcendent reality. He is in dialogue with contemporary philosophers, some of whom contribute new responses with Evangelicals, with the Vatican, and other both Catholic and Protestant theologians.      **Contemporary Philosophy and Religion Thought** Malcolm L. Diamond, 1974      *Basic Modern Philosophy of Religion* Frederick Ferré, 2013-06-19 This book provides a reasoned, comprehensive understanding of what religion is, as well as a clear and critical assessment of whether, in the light of modern developments in philosophy, contemporary thinking people can responsibly maintain religious belief in God. The book is divided into three major sections; the first deals with what all religions may be said to have in

common the second discusses theistic religion and the issue of intellectually responsible belief in God the third examines current developments within a particular theistic religion Christianity Originally published in 1968 the book is basic both in the nature of the issues it discusses and in the clarity and comprehensiveness of its presentation it is varied in the arguments and perspectives dealt with it provides an introduction to philosophical thinking through the problems of philosophy of religion and it deals seriously with controversial movements in theology A Guide to Contemporary Philosophy of Religion Charles S. Milligan, 1971 Life's Ultimate Questions John P. Newport, 2001 **Volume 10: Philosophy of Religion** Guttorm Fløistad, 2009-12-15 The present volume is a continuation of the series Contemporary Philosophy As with the earlier volumes in the series the present Chronicles purport to give a survey of significant trends in contemporary philosophy The need for such surveys has I believe increased rather than decreased over the years The philosophical scene appears for various reasons more complex than ever before The continuing process of specialization in most branches the increasing contact between philosophers from various cultures the emergence of new schools of thought particularly in philosophical logic and in the philosophy of language and ethics and the increasing attention being paid to the history of philosophy in discussions of contemporary problems are the most important contributing factors Surveys of the present kind are a valuable source of knowledge of this complexity The surveys may therefore help to strengthen the Socratic element of modern philosophy the intercultural dialogue or Kommunikationsgemeinschaft So far nine volumes have been published in this series viz Philosophy of Language and Philosophical Logic Volume 1 Philosophy of Science Volume 2 Philosophy of Action Volume 3 Philosophy of Mind Volume 4 African Philosophy Volume 5 Medieval Age Philosophy Volumes 6 1 and 6 2 Asian Philosophy Volume 7 Philosophy of Latin America Volume 8 and Aesthetics and Philosophy of Art Volume 9
