Cohen, 2001-07-02 The reputation and influence of Emmanuel Levinas 1906-96 has grown powerfully Well known in France in his lifetime he has since his death become widely regarded as a major European moral philosopher profoundly shaped by his Jewish background A pupil of Husserl and Heidegger Levinas pioneered new forms of exegesis with his post modern readings of the Talmud and as an ethicist brought together religious and non religious Jewish and non Jewish traditions of contemporary thought Richard A Cohen has written a book which uses Levinas work as its base but goes on to explore broader questions of interpretation in the context of text based ethical thinking Levinas reorientation of philosophy is considered in critical contrast to alternative contemporary approaches such as those found in modern science psychology Nietzsche Freud Husserl Heidegger Sartre Merleau Ponty Derrida and Ricoeur Cohen explores a manner of philosophizing which he terms ethical exegesis *The New Bergson* John Mullarkey, 1999 At the threshold of the twentieth century Bergson reset the agenda for philosophy and its relationship with science art and even life itself Concerned with both examining and extolling the phenomena of time change and difference he was at one point held as both the greatest thinker in the world and the most dangerous man in the world Yet the impact of his ideas was so all pervasive among artists philosophers and politicians alike that by the end of the First World War it had become impossibly diffuse In a manner imitating his own cult of change the Bergsonian school departed from the scene almost as quickly as it had arrived As part of a current resurgence of interest in Bergson both in Europe and

in North America this collection of essays addresses the significance of his philosophical legacy for contemporary thought

Kierkegaard Bibliography Peter Šajda, Jon Bartley Stewart, 2016 The long tradition of Kierkegaard studies has made it impossible for individual scholars to have a complete overview of the vast field of Kierkegaard research The large and ever increasing number of publications on Kierkegaard in the languages of the world can be simply bewildering even for experienced scholars The present work constitutes a systematic bibliography which aims to help students and researchers navigate the seemingly endless mass of publications The volume is divided into two large sections Part I which covers Tomes I V is dedicated to individual bibliographies organized according to specific language This includes extensive bibliographies of works on Kierkegaard in some 41 different languages Part II which covers Tomes VI VII is dedicated to shorter individual bibliographies organized according to specific figures who are in some way relevant for Kierkegaard The goal has been to create the most exhaustive bibliography of Kierkegaard literature possible and thus the bibliography is not limited to any specific time period but instead spans the entire history of Kierkegaard studies Provided by publisher

Phenomenology of Religion James Cox, 2010-02-10 In this thoroughly revised edition James Cox provides an easily accessible introduction to the phenomenology of religion which he contends continues as a foundational method for the academic study of religion in the twenty first century After dealing with the problematic issue of defining religion he describes the historical background to phenomenology by tracing its roots to developments in philosophy and the social sciences in the early twentieth century The phenomenological method is then outlined as a step by step process which includes a survey of the important classifications of religious behaviour The author concludes with a discussion of the place of the phenomenology of religion in the current academic climate and argues that it can be aligned with the growing scholarly interest in the cognitive science of religion *History of Philosophy: History of modern philosophy. With additions by the translator, an appendix on English and American philosophy by Noah Porter, and an appendix on Italian philosophy by Vincenzo Botta* Friedrich Ueberweg, 1876 [A History of Philosophy](#) Friedrich Ueberweg, 1891 **Kierkegaard's Journals and Notebooks, Volume 7** Søren Kierkegaard, 2014-10-05 For over a century the Danish thinker Søren Kierkegaard 1813-55 has been at the center of a number of important discussions concerning not only philosophy and theology but also more recently fields such as social thought psychology and contemporary aesthetics especially literary theory Despite his relatively short life Kierkegaard was an extraordinarily prolific writer as attested to by the 26 volume Princeton University Press edition of all of his published writings But Kierkegaard left behind nearly as much unpublished writing most of which consists of what are called his journals and notebooks Kierkegaard has long been recognized as one of history's great journal keepers but only rather small portions of his journals and notebooks are what we usually understand by the term diaries By far the greater part of Kierkegaard's journals and notebooks consists of reflections on a myriad of subjects philosophical religious political personal Studying his journals and notebooks takes us into his workshop where we can see his entire universe of thought We can witness the genesis of his published works to be sure but we can also see whole galaxies of concepts new insights and fragments large and small of partially or almost entirely completed but unpublished works Kierkegaard's Journals and Notebooks enables us to see the thinker in dialogue with his times and with himself Volume 7 of this 11 volume series includes six of Kierkegaard's important NB journals Journals NB15 through NB20 covering the months from early January 1850 to mid September of that year By this time it had become clear that popular sovereignty ushered in by the revolution of 1848 and ratified by the Danish constitution of 1849 had come to stay and Kierkegaard now intensified his criticism of the notion that everything even matters involving the human soul could be decided by balloting He also continued to direct his barbs at the established Danish Church and its clergy particularly Bishop J. P. Mynster and Professor H. L. Martensen at the press and at the attempt by modern philosophy to comprehend the incomprehensibility of faith Kierkegaard's reading notes include entries on Augustine the Stoics German mystics Luther pietist authors and Rousseau while his autobiographical reflections circle around the question of which if any of several essays explaining his life and works he

ought to publish Perhaps unsurprisingly Kierkegaard's more personal reflections return once again to his public feud with M
A Goldschmidt and his broken engagement to Regine Olsen Kierkegaard wrote his journals in a two column format one for
his initial entries and the second for the extensive marginal comments that he added later This edition of the journals
reproduces this format includes several photographs of original manuscript pages and contains extensive scholarly
commentary on the various entries and on the history of the manuscripts being reproduced *N-Z, pages 803-1,110*
