The present book is a synthetic outline of the most important fields of folk plastic art in Poland represented as far as possible in their historical development. The authors regard folk art as one of the essential elements of the traditional culture of Polish peasants. The first chapters of the book describe the fundamental framework of the existence of village inhabitants namely spatial systems of settlement types of peasants farmsteads the shape of the dwelling and its interior. Gradually we learn more about the furnishings of the house and objects of everyday use with the whole richness of their forms and decoration. Beginning with wooden equipment carved and painted through ceramic artifacts and specimens of artistic blacksmithery the authors pass to country made textiles and to costume distinguishing their most important types. Further parts of the book are devoted to art which expresses directly the spiritual culture of Polish folk namely to such fields as sculpture painting and graphic art and to the creative work related to native annual rites.

Out Looking In will be relevant to a large and varied public. John E. Bowlit author of *Forbidden Art Soviet Nonconformist Art 1956-1988* This is an essential book for scholars of modernism who are eager in the wake of post structuralist and post modernist reevaluations of the construction of modernism's history to broaden discussions beyond a narrow French orientation. It will serve as an important stimulus for rethinking European art in general in this period. Linda Dalrymple Henderson University of Texas Austin. Clearly written and well organized *Out Looking In* will be the indispensable reference work in English on early modern Polish art. Cavanaugh's treatment based on solid research and critical insight is illuminating. Wojtech Jirat Wasiutynski Professor of Art Queen's University. The visual richness and comprehensiveness of *Out Looking In* will make it a primary resource in the West for images of early modern Polish art as well as arguing for the centrality of Polish art to the discussion of European modernism. This is revisionism at its most insightful. Wendy Salmond author of *Arts and Crafts in Late Imperial Russia* This book goes a long way in correcting our geographically narrow understanding of European modernism. While arguing for Poland's place in the annals of artistic modernism Cavanaugh elegantly manoeuvres between the sensitive issues determining national artistic identity and the international context of this debate. Myroslava M. Mudrak Ohio State University. This is one of the most important critical analyses of turn of the century Polish art. *Out Looking In* will inspire a broad response from a wide international circle of historians of art literature and artistic culture.
