Indigeneity in the Mexican Cultural Imagination Analisa Taylor, 2013-09-25 Since the end of the Mexican Revolution in 1917 the state has engaged in vigorous campaign to forge a

unified national identity Within the context of this effort Indians are at once both denigrated and romanticized Often marginalized they are nonetheless subjects of constant national interest Contradictory policies highlighting segregation assimilation modernization and cultural preservation have alternately included and excluded Mexico's indigenous population from the state's self-conscious efforts to shape its identity Yet until now no single book has combined the various elements of this process to provide a comprehensive look at the Indian in Mexico's cultural imagination *Indigeneity in the Mexican Cultural Imagination* offers a much needed examination of this fickle relationship as it is seen through literature ethnography film and art The book focuses on representations of indigenous peoples in post-revolutionary literary and intellectual history by examining key cultural texts Using these analyses as a foundation Analisa Taylor links her critique to national Indian policy rights and recent social movements in Southern Mexico In addition she moves beyond her analysis of indigenous peoples in general to take a gendered look at indigenous women ranging from the villainized Malinche to the highly romanticized and sexualized Zapotec women of the Isthmus of Tehuantepec The contradictory treatment of the Indian in Mexico's cultural imagination is not unique to that country alone Rather the situation there is representative of a phenomenon seen throughout the world Though this book addresses indigeneity in Mexico specifically it has far-reaching implications for the study of indigenaety across Latin America and beyond Much like the late Edward Said's *Orientalism* this book provides a glimpse at the very real effects of literary and intellectual discourse on those living in the margins of society This book's interdisciplinary approach makes it an essential foundation for research in the fields of anthropology history literary critique sociology and cultural studies While the book is ideal for a scholarly audience the accessible writing and scope of the analysis make it of interest to lay audiences as well It is a must read for anyone seeking a deeper understanding of the politics of indigeneity in Mexico and beyond

twentieth and twenty first centuries they have constructed a literary corpus that moves them beyond those parameters Gloria E Chac n considers the growing number of contemporary Indigenous writers who turn to Maya and Zapotec languages alongside Spanish translations of their work to challenge the tyranny of monolingualism and cultural homogeneity Chac n argues that these Maya and Zapotec authors reconstruct an Indigenous literary tradition rooted in an Indigenous cosmolectics a philosophy originally grounded in pre Columbian sacred conceptions of the cosmos time and place and now expressed in creative writings More specifically she attends to Maya and Zapotec literary and cultural forms by theorizing kab awil as an Indigenous philosophy Tackling the political and literary implications of this work Chac n argues that Indigenous writers use of familiar genres alongside Indigenous language use of oral traditions and new representations of selfhood and nation all create space for expressions of cultural and political autonomy Chac n recognizes that Indigenous writers draw from universal literary strategies but nevertheless argues that this literature is a vital center for reflecting on Indigenous ways of knowing and is a key artistic expression of decolonization
