*Regionalism and Rebellion in Yemen* Stephen W. Day, 2012-06-25 Based on years of in depth field research this book unravels the complexities of the Yemeni state and its domestic politics with a particular focus on the post 1990 years The central thesis is that Yemen continues to suffer from regional fragmentation which has endured for centuries En route the book discusses the rise of President Salih his tribal and family connections Yemen's civil war in 1994 the war's consequences later in the decade the spread of radical movements after the US military response to 9 11 and finally developments leading to the historic events of 2011 This book sets a new standard for scholarship on Yemeni politics and it is essential reading for anyone interested in the modern Middle East the 2011 Arab revolts and twenty first century Islamic politics

*Tribes and Politics in Yemen* Marieke Brandt, 2024-05 This is the first rigorous history of the long running Houthis rebellion and its impact on Yemen now the victim of multi national interventions as outside powers seek to determine the course of its ongoing civil war

*The Evolution of Social Institutions* Dmitri M. Bondarenko, Stephen A. Kowalewski, David B. Small, 2020-09-12 This book presents a novel and innovative approach to the study of social evolution using case studies from the Old and the New World from prehistory to the present This approach is based on examining social evolution through the evolution of social institutions Evolution is defined as the process of structural change Within this framework the society or culture is seen as a system composed of a vast number of social institutions that are constantly interacting and changing As a result the structure of society as a whole is also evolving and changing The authors posit that the combination of evolving social institutions explains the non linear character of social evolution and that every society develops along its own pathway and pace Within this framework society should be seen as the result of the compound effect of the interactions of social institutions specific to it Further the transformation of social institutions and relations between them is taking place not only within individual societies but also globally as institutions may be trans societal and even institutions that operate in one society can arise as a reaction to trans societal trends and demands The book argues that it may be more productive to look

at institutions even within a given society as being parts of trans societal systems of institutions since despite their interconnectedness societies still have boundaries which their members usually know and respect Accordingly the book is a must read for researchers and scholars in various disciplines who are interested in a better understanding of the origins history successes and failures of social institutions The Yemens Richard F. **Africa, Asia, and South America Since 1800** A. J. H. Latham,1995 A reference for graduate and undergraduate students presenting the bibliographic details and sometimes describing and evaluating the content of over 5 000 books in English most published since 1945 and many quite recently but also some earlier works of enduring importance A section of works on all three continents is followed by sections on each which first consider the continent as a whole then each country usually by chronological periods and topics such as economics politics and society Indexed only by author and editor but the table of contents is detailed enough to provide adequate access Distributed in the US by St Martin s Press Annotation copyright Book News Inc Portland Or *Law and Justice in Contemporary Yemen* Sayed Hassan Amin,1987 Cultural Anthropology of the Middle East ,1992 During the last two decades the number of anthropological studies on the Middle East has increased exponentially This partially annotated bibliography offers a comprehensive survey of studies written in English French and German and covers the period from 1965 to 1987 **Democratic Transition in the Middle East** Larbi Sadiki,Heiko Wimmen,Layla Al-Zubaidi,2013 The book is framed with a view to discussing the politics of democratic transition by re assessing power politics critically and from an original angle Specifically this original angle examines the diverse attempts below the state level to carve out a space for democratic struggle in the Arab Middle East AME This space is hypothesized in this manuscript in terms of a democratic faragh or void Sadiki 2004 by relative state retreat absence and society advancement presence **British Policy in Aden and the Protectorates 1955-67** Spencer Mawby,2006-05-18 This is the first detailed account of the confrontation between Britain and President Nasser of Egypt over the Colony of Aden and the surrounding protected states prior to British withdrawal in 1967 Paying particular attention to the conflicting goals of Arab nationalism and British imperialism it is argued that Britain s motivation for this campaign was not solely material but was partly derived from a determination to contain Nasser s influence and to guarantee a continuation of Britain s role in influencing the politics of the Arabian peninsula Mawby argues that a significant problem for the British was the decision to undertake a new imperial adventure in Aden at a time when British economic and military power was on the wane whilst support for the nationalist struggles in the Middle East and the United Nations was increasing He goes on to suggest that British policy and the conduct of military campaigns facilitated the emergence of a radical brand of Arab politics in southwest Arabia By demonstrating the manner in which the rise and fall of British imperialism was telescoped into a short period in

the late 1950s and early 1960s this volume provides an important insight into the unique and unacknowledged place of Aden in the history of British decolonization      **Yemen's Democracy Experiment in Regional Perspective S.**

Phillips,2008-11-10 This study examines the nature of changes to Yemen s power structures political dynamics and institutions since the intention to democratize was announced in 1990 paying particular attention to the role of Yemeni President Ali Abdullah Saleh      Jewish-Muslim Relations and Migration from Yemen to Palestine in the Late Nineteenth and Twentieth Centuries Ari Ariel,2013-12-05 In Jewish Muslim Relations and Migration from Yemen to Palestine in the Late Nineteenth and Twentieth Centuries Ari Ariel analyzes the impact of local regional and international events on ethnic and religious relations in Yemen and Yemeni Jewish migration patterns Previous research has dealt with single episodes of Yemenite migration during limited spans of time Ariel instead provides a broad sweep of the migratory flows over the 70 year time span during which most of Yemen s Jews moved to Palestine and then Israel He successfully avoids the polemic nature of much of the literature on Middle Eastern Jewry by focusing on the social economic and political transformations that provoked and then sustained this migration      *The Hadrami Awakening* Natalie Mobini-Kesheh,1999 This thoughtful richly informed study is the fruit of wide reading and painstaking research It is written with assurance and refreshing lucidity and is a valuable addition to existing studies on the Hadrami diaspora Asian Affairs A ground breaking study of the Hadrami community in Indonesia The book considers the evolution of Indonesian Arab identity in the context of the rise of nationalism throughout Southeast Asia during the early twentieth century      Introduction to Middle Eastern Law Chibli Mallat,2007 Mapping out Middle Eastern law from its earliest records to the latest decisions of Middle Eastern high courts Mallat focuses on the way legislators and courts conceive of law and apply it and introduces its main sources and legal concepts in a manner accessible to the non specialist legal scholar or practitioner      **Political Ecology and the Role of Water** Gerhard Lichtenthäler,2017-03-02 How can we explain the over exploitation and degradation of natural resources in the countries of the South Population growth poverty and problems associated with common property resource management have been common themes in this debate yet insufficient attention has been paid to how traditional political relations and local perceptions affect natural resource capture and resource allocation This is especially evident with respect to groups and communities at the political and geographical peripheries of state influence and control for whom self identity is constructed around notions of autonomy and food self sufficiency This informative book addresses this omission by discussing water resource allocation and management It focuses in particular on the socio economic and political contexts which influence approaches to and determine practices of water management Taking the example of the tribal communities of the Sa dah basin in the northern Yemen it analyzes the politics of environmental change with particular reference to groundwater resource degradation within the conceptual framework of political ecology      **The Yemeni War of 1994: Causes and Consequences** Prof. Jamal Sanad Al-Suwaidi,2013 On May 22 1990 a long standing Yemeni national dream became reality

when North and South Yemen were united in the Republic of Yemen The process of political integration was violently disrupted four years later however when civil war broke out This book is an examination of the 1994 civil war by five international area experts The events leading to the conflict are viewed from both northern and southern perspectives The South s fear of Islamic fundamentalism emanating from the north is contrasted with northern concerns of a southern push to advance social progress at the expense of traditionalism A major chapter focuses on the tribes and tribal organizations in the contemporary political development of Yemen Tribalism as a system and whether it played a role in the 1994 civil war is also discussed in detail The regional implications of the civil war are also examined In assessing the consequences for the Arabian peninsula particular attention is paid to Yemen s capacity to influence events in the region its relationship with Saudi Arabia and other Gulf Cooperation Council GCC states and the functioning of a balance of power system in the area A
