Gendered Bodies introduces readers to women s visual art in contemporary China by examining how the visual process of gendering reshapes understandings of historiography sexuality pain and space When artists take the body as the subject of female experience and the medium of aesthetic experiment they reveal a wealth of noncanonical approaches to art The insertion of women s narratives into Chinese art history rewrites a historiography that has denied legitimacy to the woman artist The gendering of sexuality reveals that the female body incites pleasure in women themselves reversing the dynamic from woman as desired object to woman as desiring subject The gendering of pain demonstrates that for those haunted by the sociopolitical past the body can articulate traumatic memories and psychological torment The gendering of space transforms the female body into an emblem of landscape devastation remaps ruin aesthetics and extends the politics of gender identity into cyberspace and virtual reality The work presents a critical review of women s art in contemporary China in relation to art traditions classical and contemporary Inscribing the female body into art generates not only visual experimentation but also interaction between local art cultural production and global perception While artists may seek inspiration and exhibition space abroad they often reject the Western label feminist artist An extensive analysis of artworks and artists both well and little known provides readers with discursively persuasive and visually provocative evidence Gendered Bodies follows an interdisciplinary approach that general readers as well as scholars will find inspired and inspiring [China's Art Market since 1978](#) Li Ma,2023-09-30 This book examines the rising global prominence of China s art market throughout the twentieth and twenty first centuries To understand the far reaching impact of Chinese art on global consumption this book traces the shift from regional markets to global markets It asks how the Chinese art market re emerged from its politicized past innovated within the private economy boom remained resilient despite the global financial crisis and flourished on the global stage despite the COVID 19 pandemic Ultimately it argues that cultural entrepreneurship enabled Chinese art professionals to reinvent their space and to participate in the global artworld
