instead of Churchill seemingly minor twists of fate on which world shaking events might have hinged Alternative history has long been the stuff of parlor games war gaming and science fiction but over the past few decades it has become a popular stomping ground for serious historians The historian Richard J Evans now turns a critical slightly jaundiced eye on a subject typically the purview of armchair historians The book s main concern is examining the intellectual fallout from historical counterfactuals which the author defines as alternative versions of the past in which one alteration in the timeline leads to a different outcome from the one we know actually occurred What if Britain had stood at the sidelines during the First World War What if the Wehrmacht had taken Moscow The author offers an engaging and insightful introduction to the genre while discussing the reasons for its revival in popularity the role of historical determinism and the often hidden agendas of the counterfactual historian Most important Evans takes counterfactual history seriously looking at the insights pitfalls and intellectual implications of changing one thread in the weave of history A wonderful critical introduction to an often overlooked genre for scholars and casual readers of history alike

**Commercial News USA.** ,1983 **Designing Women** Lucy Fischer,2003-07-30 Grand sensational and exotic Art Deco design was above all modern exemplifying the majesty and boundless potential of a newly industrialized world From department store window dressings to the illustrations in the Sears Roebuck Co catalogs to the glamorous pages of Vogue and Harper s Bazar Lucy Fischer documents the ubiquity of Art Deco in mainstream consumerism and its connection to the emergence of the New Woman in American society Fischer argues that Art Deco functioned as a trademark for popular notions of femininity during a time when women were widely considered to be the primary consumers in the average household and as the tactics of advertisers as well as the content of new magazines such as Good Housekeeping and the Woman s Home Companion increasingly catered to female buyers While reflecting the growing prestige of the modern woman Art Deco inspired consumerism helped shape the image of femininity that would dominate the American imagination for decades to come In films of the middle and late 1920s the Art Deco aesthetic was at its most radical Female stars such as Greta Garbo Joan Crawford and Myrna Loy donned sumptuous Art Deco fashions while the directors Cecil B DeMille Busby Berkeley Jacques Feyder and Fritz Lang created cinematic worlds that were veritable Deco extravaganzas But the style soon fell into decline and Fischer examines the attendant taming of the female role throughout the 1930s as a growing conservatism challenged the feminist advances of an earlier generation Progressively muted in films the Art Deco woman once an object of intense desire gradually regressed toward demeaning caricatures and pantomimes of unbridled sexuality Exploring the vision of American womanhood as it was portrayed in a large body of films and a variety of genres from the fashionable musicals of Josephine Baker and Fred Astaire and Ginger Rogers to the fantastic settings of Metropolis The Wizard of Oz and Lost Horizon Fischer reveals America s long standing fascination with Art Deco the movement s iconic influence on cinematic expression and how its familiar style left an indelible mark on American culture

*The Contingent Object of Contemporary Art* Martha Buskirk, 2005-02-18 An exploration of transformations in the nature of the art object and artistic authorship in the last four decades In this book Martha Buskirk addresses the interesting fact that since the early 1960s almost anything can and has been called art Among other practices contemporary artists have employed mass produced elements impermanent materials and appropriated imagery have incorporated performance and video and have created works through instructions carried out by others Furthermore works of art that lack traditional signs of authenticity or permanence have been embraced by institutions long devoted to the original and the permanent Buskirk begins with questions of authorship raised by minimalists use of industrial materials and methods including competing claims of ownership and artistic authorship evident in conflicts over the right to fabricate artists works Examining recent examples of appropriation she finds precedents in pop art and the early twentieth century readymade and explores the intersection of contemporary artistic copying and the system of copyrights trademarks and brand names characteristic of other forms of commodity production She also investigates the ways that connections between work and context have transformed art and institutional conventions the impact of new materials on definitions of medium the role of the document as both primary and secondary object and the significance of conceptually oriented performance work for the intersection of photography and the human body in contemporary art Buskirk explores how artists active in the 1980s and 1990s have recombined strategies of the art of the 1960s and 1970s She also shows how the mechanisms through which art is presented shape not only readings of the work but the work itself She uses her discussion of the readymade and conceptual art to explore broader issues of authorship reproduction context and temporality

**Designing Modern America** Christopher Innes, 2008-10-01 From the 1920s through the 1950s two individuals Joseph Urban and Norman Bel Geddes did more by far to create the image of America and make it synonymous with modernity than any of their contemporaries Urban and Bel Geddes were leading Broadway stage designers and directors who turned their prodigious talents to other projects becoming mavericks first in industrial design and then in commercial design fashion architecture and more The two men gave shape to the most quintessential symbols of the modern American lifestyle including movies cars department stores and nightclubs along with private homes kitchens stoves fridges magazines and numerous household furnishings Illustrated with more than 130 photographs of their influential designs this book tells the engrossing story of Urban and Bel Geddes Christopher Innes shows how these two men with a background in theater lent dramatic flair to everything they designed and how this theatricality gave the distinctive modernity they created such wide appeal If the American lifestyle has been much imitated across the globe over the past fifty years says Innes it is due in large measure to the designs of Urban and Bel Geddes Together they were responsible for creating what has been called the Golden Age of American culture

A Violent Embrace renée c. hoogland, 2014-01-07 Instead of asking questions about the symbolic meaning or underlying truth of a work of art renée c. hoogland is concerned with the actual work that it does in the world whether intentionally or not Why do we find ourselves in tears in front of an abstract painting Why do some cartoons of the prophet Muhammad generate worldwide political outrage What in other words is the compelling force of visual images even or especially if they are nonfigurative repulsive or downright ugly Rather than describing analyzing and interpreting artworks hoogland approaches art as an event that obtains on the level of actualization presenting retellings of specific artistic events in the light of recent interventions in aesthetic theory and proposing to conceive of the aesthetic encounter as
