Ochnio, 2025-05-30 The book provides a critical analysis of EU law making policy on the confiscation of the proceeds of crime using a minimalist restorative approach to justice focused on the rights of victims and communities and more proactive roles for all participants in confiscation procedures This book shows how the examined policy has been translated into the EU law standards adopted as its realisation and whether the gaps identified in these standards are reflected in the domestic law of the comparator EU jurisdictions Poland Germany and France The post conviction confiscation regime in England and Wales is also explored as an example of an alternative non EU model of value based confiscation Considering the complex juridical nature of confiscation which challenges the applicability of the civil criminal dichotomy this book recommends a twofold approach when shaping EU confiscation mechanisms focused on linking policy objectives with a restorative approach to justice and making the appropriate choice of criminal or civil routes for confiscation This book will be of key interest to scholars students and practitioners in EU policy and law criminal law EU and national law on confiscation EU criminal justice policy and more broadly to European studies criminology and international organisations      *Supplement to Eighth Editions, Modern Criminal Procedure* Yale Kamisar, Wayne R. **Contemporary Criminal Justice in America** Harry M. Humphreys, 1980 **Drugs and the Law** Gary J. Miller, 1992 **Modern Criminal Law** A P Simester, 2024-04-18 This book brings together leading scholars from the next generation of UK criminal lawyers to celebrate the work of GR Sullivan Emeritus Professor at University College London in the year of his retirement from writing Simester and Sullivan s Criminal Law Theory and Doctrine The contributors examine many of the areas in which GR Bob Sullivan s own writing has been influential ranging from general doctrines such as causation and culpability across specific offences like theft and fraud through defences including necessity and insanity before turning finally to matters affecting the criminal process notably challenges to the doctrine of precedent in criminal law Taken together the essays are a powerful tribute to Bob s standing and influence upon modern criminal law At the same time individually they make sophisticated contributions to our understanding of some pressing issues in contemporary criminal law The essays illustrate the increasing importance of theoretical argument in modern criminal law as well as the manner in which doctrinal debates have become interwoven with arguments about criminalisation norms The resulting collection is thus a tribute also to the character of modern academic

criminal law a character that Bob and the writers of his generation did so much to develop
