Contemporary Film Theory:

Contemporary Film Theory Antony Easthope, 1993 At the beginning of the twentieth century the extraordinary medium of film presented itself as a new way of understanding the increasing complexity of modern life *Lacan and Contemporary Film* Todd McGowan, 2020-09-08 This unique volume collects a series of essays that link new developments in Lacanian psychoanalytic theory and recent trends in contemporary cinema Though Lacanian theory has long had a privileged place in the analysis of film film theory has tended to ignore some of Lacan's most important ideas As a result Lacanian film theory has never properly integrated the disruptive and troubling aspects of the filmic experience that result from the encounter with the Real that this experience makes possible Many contemporary theorists emphasize the importance of the encounter with the Real in Lacan's thought but rarely in discussions of film By bringing the encounter with the Real into the dialogue of film theory the contributors to this volume present a new version of Lacan to the world of film studies These essays bring this rediscovered Lacan to bear on contemporary cinema through analysis of a wide variety of films including *Memento* *Eyes Wide Shut* *Breaking the Waves* and *Fight Club* The films discussed here demand a turn to Lacanian theory because they emphasize the disruptive role of the Real and of jouissance in the experience of the human subject There is a growing number of films in contemporary cinema that speak to film's power to challenge and disturb the complacency of spectators and the essays in *Lacan and Contemporary Film* analyze some of these films and bring their power to light Because of its dual focus on developments in Lacanian theory and in contemporary film this collection serves as both an accessible introduction to current Lacanian film theory and an introduction to the study of contemporary cinema Each essay provides an accessible jargon free analysis of one or more important films and at the same time each explains and utilizes key concepts of Lacanian theory The collection stages an encounter between Lacanian theory and contemporary cinema and the result is the enrichment of both The Real of Reality: The Realist Turn in Contemporary Film Theory, 2021-08-30 This book provides philosophical insight into the nature of reality by reflecting on its ontological qualities through the medium of film The main question is whether we have access to reality through film that is not based on visual representation or narration Is film in spite of its immateriality a way to directly grasp and reproduce reality Why do we perceive film as real at all What does it mean to define its own reproducibility as an ontological feature of reality And what does film as a medium exactly show The contributions in this book provide from a cinematic perspective diverse philosophical analyses to the understanding of the challenging concept of the real of reality Contemporary Film Theory Downey, 2001-01-01 **The Crisis of Political Modernism** D.
