## **Contemporary Philosophy Phenomenological:**

Hegel and Phenomenology Alfredo Ferrarin, Dermot Moran, Elisa Magrì, Danilo Manca, 2019-07-24 This volume articulates and develops new research questions and original insights regarding the philosophical dialogue between Hegel's philosophy, his heritage and contemporary phenomenology including among others Husserl, Heidegger, Merleau-Ponty and Ricoeur. The collection discusses methodological questions concerning the relevance of Hegel's philosophy for contemporary phenomenology, addressing core issues revolving around the key concepts of history, being, science, subjectivity and dialectic. The volume fills a gap in historiography, expanding the knowledge of the impact of Hegel's philosophy on contemporary philosophy and raising new questions on the transformation of transcendental philosophy in post-Kantian philosophy. The contributions gathered in this volume shed new light on issues related to the problem of scientific method in philosophy, on the philosophy of history as well as on the dimension of subjectivity. By providing critical insights into Hegel's philosophy and contemporary phenomenology, the book opens up new research perspectives recommended to philosophers and scholars of different traditions, especially classical German philosophy, phenomenology and history of Western philosophy.

Husserl David W. Smith, David Woodruff Smith, 2006-10-19 In this stimulating introduction, David Woodruff Smith introduces the whole of Husserl's thought, demonstrating his influence on philosophy of mind and language, on ontology and epistemology, and on philosophy of logic, mathematics and science. Starting with an overview of his life and works and his place in twentieth-century philosophy and in Western philosophy as a whole, David Woodruff Smith introduces Husserl's concept of phenomenology, explaining his influential theories of intentionality, objectivity and subjectivity. In subsequent chapters, he covers Husserl's logic, metaphysics, realism and transcendental idealism and epistemology. Finally, he assesses the significance and implications of Husserl's work for contemporary philosophy of mind and cognitive science. Including a timeline, glossary and extensive suggestions for further reading, Husserl is essential reading for anyone interested in this eminent philosopher, phenomenology or twentieth-century philosophy.

Anton Marty and Contemporary Philosophy Giuliano Bacigalupo, Hélène Leblanc, 2019-01-30 This edited collection of eight original essays pursues the aim of bringing the spotlight back on Anton Marty. It does so by having leading figures in the contemporary debate confront themselves with Marty's most significant contributions, which span from philosophy of mind, philosophy of language and ontology to meta-metaphysics and meta-philosophy. The book is divided into three parts. The first part is dedicated to themes in philosophy of language which were at the centre of Marty's philosophical thinking throughout his life. The second part focuses on the problem of the objectivity and phenomenology of time and space upon which Marty was working in the final years of his life. The final part turns to Marty's meta-metaphysical and meta-philosophical considerations. The intended audience of this book are primarily scholars and students interested in the relevant contemporary debates as well as scholars working on the Austrian tradition.

**The Problems of Contemporary Philosophy** Paul Livingston, Andrew Cutrofello, 2015-12-08 This accessible new book provides a clear and wide ranging introduction to the defining problems of contemporary philosophy Its unique feature is to focus on problems that cut across the established divide between analytic and continental philosophical traditions Instead of segregating the two traditions as is usually done the authors offer a critical orientation and guide for readers who are not exclusively affiliated with either approach and who want to understand the increasingly shared questions philosophers are asking and addressing today Each chapter starts with a fundamental overarching question 1 What and how can we know 2 What is the structure of the world 3 What goes beyond the physical world 4 What is to be done 5 What does it mean to orient oneself philosophically Under these headings the authors critically examine the disciplines most fundamental problems Their approach reveals deep and unexpected connections across the analytic continental divide and opens up new ways of thinking about critique itself No other book about contemporary philosophy is as comprehensive and cosmopolitan The Problems of Contemporary Philosophy provides newcomers and seasoned philosophers alike with an entertaining engaging and far reaching portrait of today's philosophical landscape It is an exemplary instance of thinking across and beyond the analytic continental divide

**The New Yearbook for Phenomenology and Phenomenological Philosophy** Burt Hopkins, John Drummond, 2015-03-24 The New Yearbook for Phenomenology and Phenomenological Philosophy provides an annual international forum for phenomenological research in the spirit of Husserl's groundbreaking work and the extension of this work by such figures as Scheler Heidegger Sartre Levinas Merleau Ponty and Gadamer

**The Concept of Affectivity in Early Modern Philosophy** Ádám Smrcz, Maximilian Kiener, Jan Forsman, Hanna Vandenbussche, Davide Monaco, Filip Buyse, Keith Green, Brian Glenney, Christopher Davidson, Zolt Bagi, Dávid Bartha, Dan O'Brien, Hans D. Muller, Csaba Olay, 2017-09-01 There is no need to argue for the relevance of affectivity in early modern philosophy When doing research and conceptualizing affectivity in this period we hope to attain a basic interpretive framework for philosophy in general one that is independent of and cutting across such unfruitful divisions as the time honored interpretive distinction between rationalists and empiricists which we consider untenable when applied to 17th century thinkers Our volume consists of papers based on the contributions to the First Budapest Seminar in Early Modern Philosophy held on 14 15 October 2016 at Eötvös Loránd University Budapest When composing this volume our aim was not to present a systematic survey of affectivity in early modern philosophy Rather our more modest goal was to foster collaboration among researchers working in different countries and different traditions Many of the papers published here are already in implicit or explicit dialogue with others We hope that they will generate more of an exchange of ideas in the broader field of early modern scholarship

Understanding Phenomenology David R. Cerbone, 2014-12-05 Understanding Phenomenology provides a guide to one of the most important schools of thought in modern philosophy The book traces phenomenology's historical development beginning with its founder Edmund Husserl and his pure or transcendental phenomenology and continuing with the later existential phenomenology of Martin Heidegger Jean Paul Sartre and Maurice Merleau Ponty The book also assesses later critical responses to phenomenology from Derrida to Dennett as well as the continued significance of phenomenology for philosophy today Written for anyone coming to phenomenology for the first time the book guides the reader through the often bewildering array of technical concepts and jargon associated with phenomenology and provides clear explanations and helpful examples to encourage and enhance engagement with the primary texts *From Phenomenology to Thought, Errancy, and Desire* B.E. Babich, 2013-04-17 For both continental and analytic styles of philosophy the thought of Martin Heidegger must be counted as one of the most important influences in contemporary philosophy In this book essays by internationally noted scholars ranging from David B Allison to Slavoj Zizek honour the interpretive contributions of William J Richardson's pathbreaking *Heidegger Through Phenomenology to Thought* The essays move from traditional phenomenology to the idea of essential another thinking the questions of translation and existential expressions of the turn of Heidegger's thought the intersection of politics and language the philosophic significance of Jacques Lacan and several essays on science and technology All show the influence of Richardson's first study A valuable emphasis appears in Richardson's interpretation of Heidegger's conception of *die Irre* interpreted as Errancy set in its current locus in a discussion of Heidegger's debacle with the political in his involvement with National Socialism *Foundational Reflections* H.A. Durfee, 2012-12-06 The American University Publications In *From its inception* Philosophy has continued the direction stated in the sub title of the initial volume that of probing new directions in philosophy As the series has developed these probings of new directions have taken the two fold direction of exploring the relationships between the disparate traditions of twentieth century philosophy and with developing new insights into the foundations of some enduring philosophic problems This present volume continues both of these directions The interaction between twentieth century Anglo Saxon and Continental philosophy which was an implicit theme of our first and third volumes and the explicit subject of our second volume is here continued in a series of studies on major figures and topics in each tradition In the context of these interpretative studies Professor Durfee returns again and again to the question of the relationships between the will and the reason and explores the conflicting goals of creativity and objectivity in formulating a philosophic position In so doing he raises the issue as his title suggests of the foundations of philosophy itself He seriously challenges the belief common to both phenomenology and analytic philosophy that philosophizing can be a presuppositionless activity objectively pursued independent of the personal and perhaps arbitrary commitments of the philosopher This issue critical as it is to all forms of philosophy is surely a worthy one for a series such as ours Phenomenology of Intuition and Expression Martin Heidegger, 2010-08-19 The first English

translation of one of Heidegger's most important early lecture courses including his most extensive treatment of the topic of destruction
