Political Theology in an Age of Discontent Jonathan Cole,2019-05-16 At a moment in which interest in political theology is rising acceptance of a public role for religion is declining and cynicism regarding both political and religious institutions is overflowing this book investigates the possibilities and constraints of a Christian political theology that can meaningfully mediate Scripture doctrine and political reality In critical dialogue with political theologians and political philosophers past and present we explore the origins meaning and purpose of Christian political theology in an age of growing discontent with the once impregnable liberal democratic order of yesteryear Approaching politics as both art and science this book lays a challenge at the feet of political theologians to offer a theological account of politics that is genuinely illuminating of political reality and efficacious for the faithful who seek to operate within it [The Notion of Mission in Karl Barth's Ecclesiology](#)

Wessel Bentley,2009-12-14 As the church moves towards its 21st century of existence it is confronted by challenges it has never known before Globalization the rise of different socio political orders and a growing tendency towards a post modern understanding of the world are but some of the issues This changing world demands self reflection from the church It has to consider its place identity and function thereby giving rise to the exploration of its mission In this book the ecclesiology of Karl Barth is explored By considering Barth s understanding of the church s relationship with different parties such as God other religions those outside the Christian faith the State and its own inner dynamics the church will be reminded of its missionary function in the world The church s relationships are important for they direct the way in which it fits into the world When it considers that it exists purely because of God s self revelation and that its own existence is an act of faith in response to this divine self disclosure it becomes aware of defined parameters within which the church can operate under the banner of mission

God's Patience and our Work Ben Fulford,2024-02-28 In *God's Patience and our Work* Ben Fulford argues that Hans Frei s theology and ethics offers unheralded but valuable resources for thinking about the social and political engagement of Christian communities in pluralistic societies in light of hope in Jesus Christ He shows how Frei s project of recovering the conditions for and shape of a generous orthodoxy runs through his work offering broad flexible vision of Christian identity ethical responsibility and humanistic witness focused in the person and presence of Jesus Christ In dialogue with liberation theologies Fulford draws from Frei an account of divine patience and providence to frame hopeful

pragmatic Christian participation in work for dignity justice and penultimate reconciliation rooted in new and deeper contextual reading of his work

The Classical and Christian Origins of American Politics Kody W. Cooper, Justin Buckley Dyer, 2022-12-15 There has been a considerable amount of literature in the last 70 years claiming that the American founders were steeped in modern thought This study runs counter to that tradition arguing that the founders of America were deeply indebted to the classical Christian natural law tradition for their fundamental theological moral and political outlook Evidence for this thesis is found in case studies of such leading American founders as Thomas Jefferson and James Wilson the pamphlet debates the founders invocation of providence during the revolution and their understanding of popular sovereignty The authors go on to reflect on how the founders political thought contained within it the resources that undermined in principle the institution of slavery and explores the relevance of the founders political theology for contemporary politics This timely important book makes a significant contribution to the scholarly debate over whether the American founding is compatible with traditional Christianity

Civil Religion in Modern Political Philosophy Steven Frankel, Martin D. Yaffe, 2020-07-28 Inspired by Machiavelli modern philosophers held that the tension between the goals of biblical piety and the goals of political life needed to be resolved in favor of the political and they attempted to recast and delimit traditional Christian teaching to serve and stabilize political life accordingly This volume examines the arguments of those thinkers who worked to remake Christianity into a civil religion in the early modern and modern periods Beginning with Machiavelli and continuing through to Alexis de Tocqueville the essays in this collection explain in detail the ways in which these philosophers used religious and secular writing to build a civil religion in the West Early chapters examine topics such as Machiavelli s comparisons of Christianity with Roman religion Francis Bacon s cherry picking of Christian doctrines in the service of scientific innovation and Spinoza s attempt to replace long held superstitions with newer progressive ones Other essays probe the scripture based anti Christian argument that religion must be subordinate to politics espoused by Jean Jacques Rousseau and David Hume both of whom championed reason over divine authority Crucially the book also includes a study of civil religion in America with chapters on John Locke Montesquieu and the American Founders illuminating the relationships among religious and civil history acts and authority The last chapter is an examination of Tocqueville s account of civil religion and the American regime Detailed thought provoking and based on the careful study of original texts this survey of religion and politics in the West will appeal to scholars in the history of political philosophy political theory and American political thought

SCM Core Text: Christian Doctrine Mike Higton, 2013-01-25 The SCM Core Text Christian Doctrine offers an up to date accessible introduction to one of the core subjects of theology Written for second and third year university students it shows that Christian Doctrine is not a series of impossible claims to be clung to with blind faith Mike

Higton argues that it is rather a set of claims that emerge in the midst of Christian life as Christian communities try to make enough sense of their lives and of their world to allow them to carry on Christian communities have made sense of their own life and the life of the wider world in which they are set as life created by God to share in God's own life They have seen themselves and their world as laid hold of God's life in Jesus of Nazareth and as having the Spirit of God's own life actively at work within them This book explores these and other central Christian doctrines and in each case shows how the doctrine makes sense and how it is woven into Christian life It will help readers to see what sense it might make to say the things that Christian doctrine says and how that doctrine might affect the way that one looks at everything the natural world gossip culture speaking in tongues politics dieting human freedom love High Noon justice computers racism the novels of Jane Austin parenthood death and fashion
