**Contemporary Political Protest** Abby Peterson,2018-02-06 This title was first published in 2001 An investigation of the new wave of militant political activity emerging across Europe The book examines the role of emotions in militant activity the way in which the body is implicated in militant political actions and the concept of media modernity as a precondition for the contemporary politics of militancy *The Oxford Handbook of Social Movements* Donatella Della Porta,Mario Diani,2015 The Oxford Handbook of Social Movements is an innovative volume that presents a comprehensive exploration of social movement studies mapping the field and expanding it to examine the recent

developments in cognate areas of studies within and beyond sociology and political science This volume brings together the most distinguished social and political scientists working in this field each writing thought provoking essays in their area of expertise and facilitates conversations between classic social movement agenda and lines of research The Oxford Handbook of Social Movements discusses core theoretical perspectives recent contributions from the field and how patterns of macro social change may affect social movements as well as suggesting what contributions social movement studies can give to other research areas in various disciplines

Between the Avant-garde and the Everyday Timothy Brown,Lorena Anton,2011-07-01 The wave of anti authoritarian political activity associated with the term 1968 can by no means be confined under the rubric of protest understood narrowly in terms of street marches and other reactions to state initiatives Indeed the actions generated in response to 1968 frequently involved attempts to elaborate resistance within the realm of culture generally and in the arts in particular This blurring of the boundary between art and politics was a characteristic development of the political activism of the postwar period This volume brings together a group of essays concerned with the multifaceted link between culture and politics highlighting lesser known case studies and opening new perspectives on the development of anti authoritarian politics in Europe from the 1950s to the fall of Communism and beyond

Understanding Political Violence: A Criminological Approach Ruggiero, Vincenzo,2006-03-01 The author distinguishes between political violence from below for example collective violence insurgency armed struggle and terrorism and political violence from above which includes indiscriminate repression institutional and state violence torture and war

**Two Sides of a Barricade** Christian Scholl,2013-12-28 Two Sides of a Barricade argues that to construct global democracy conflict and dissent must be taken seriously Christian Scholl explores the political significance of the confrontations within four sites of interaction bodies space communication and law Each site of struggle provides a different entry point to understand the influence of protester and police tactics on each other At the same time the four sites of struggle allow a comprehensive

analysis of how the contestation of global hegemonic forces during summit protests trigger a preemptive shift in social control through increased deployment of biopolitical forms of power This book is freely available in an open access edition thanks to Knowledge Unlatched an initiative that provides libraries and institutions with a centralized platform to support OA collections and from leading publishing houses and OA initiatives Learn more at the Knowledge Unlatched website at <https://www.knowledgeunlatched.org> and access the book online at the SUNY Open Access Repository at <http://hdl.handle.net/20.500.12648/1709>

*The Policing of Transnational Protest* Abby Peterson, 2016-02-24 Having long been a neglected issue the policing of protest began to attract considerable attention in the 1990s climaxing in the events in Seattle of 1999 These protests and the changing political climate since September 11 2001 mean that a new cycle of protest is challenging the concept of law and order and civil liberties This book examines how new policing styles are developing using case studies from North America and Europe The volume brings together researchers from a number of disciplines sociology criminology political science and mass communication who focus on new forms of political protest policing and public order Political Consumerism, 2005

*Force and Contention in Contemporary China* Ralph Thaxton, 2016-08-08 This book shows how memories of Mao era suffering drive popular resistance to state power in authoritarian China Feminists and Queer Theorists Debate the Future of Critical Management Studies Alison Pullen, Nancy Harding, Mary Phillips, 2017-04-24 What is CMS and what is its future is a question that has beguiled and frustrated academics within and outside its community Using ideas from feminist and queer theory here authors aim to generate thinking on the future of CMS and ideas of how scholarly communities can engage in working lives differently

**Surviving State Terror** Barbara Sutton, 2018-05-15 Honorable Mention 2019 Distinguished Book Award given by the Sex Gender Section of the American Sociological Association Honorable Mention 2019 Marysa Navarro Book Prize given by the New England Council of Latin American Studies NECLAS A profound reflection on state violence and women's survival In the 1970s and early 80s military and security forces in Argentina hunted down tortured imprisoned and in many cases murdered political activists student organizers labor unionists leftist guerrillas and other people branded subversives This period was characterized by massive human rights violations including forced disappearances committed in the name of national security State terror left a deep scar on contemporary Argentina but for many survivors and even the nation itself talking about this dark period in recent history has been difficult and at times taboo For women who endured countless forms of physical sexual and emotional violence in clandestine detention centers the impetus to keep quiet about certain aspects of captivity has been particularly strong In *Surviving State Terror* Barbara Sutton draws upon a wealth of oral testimonies to place women's bodies and voices at the center of the analysis of state terror The book showcases poignant stories of women's survival and resistance disinterring accounts that have yet to be fully heard grappled with and understood With a focus on the body as a key theme Sutton explores various instances of violence toward women such as sexual abuse and torture at the hands of state officials Yet she

also uses these narratives to explore why some types of social suffering and certain women's voices are heard more than others and how this can be rectified in our own practices of understanding and witnessing trauma. In doing so, Sutton urges us to pay heed to women survivors' political voices, activist experiences, and visions for social change. Recounting not only women's traumatic experiences but also emphasizing their historical and political agency, *Surviving State Terror* is a profound reflection on state violence, social suffering, and human resilience, both personal and collective.

**Animal Rights Activism** Kerstin Jacobsson, Jonas Lindblom, 2025-10-01 We're in an era of ever-increasing attention to animal rights and activism; around the issue, it is growing more widespread and prominent. In this volume, Jonas Lindblom and Kerstin Jacobsson use the animal rights movement in Sweden to offer the first analysis of social movements through the lens of Emile Durkheim's sociology of morality. By positing social movements as essentially a moral phenomenon and morality itself as a social fact, the book complements more structural, cultural, or strategic action-based approaches, even as it also demonstrates the continuing value of classical sociological approaches to understanding contemporary society.

**Understanding Politics and Society** Fabio de Nardis, 2020-03-26 This textbook presents political sociology as a connective social science that studies political phenomena by creating fruitful connections with other perspectives. The relationship between politics and society is more complex than ever due to the emergence of new power structures, forms of conflict, organization, and management, and social practices of political participation. Several scholars describe this historical phase as the depoliticization of representative politics. The book addresses classical themes and approaches to political sociology but also dedicates several chapters to contemporary developments within political sociology, including for instance the role of the internet and bottom-up political communication in social movements. In addition, the volume acts as a professional tool for those scholars and researchers that are beginning to study political processes from a sociological perspective.

**The Ritual of May Day in Western Europe** Abby Peterson, Herbert Reiter, 2016-05-20 Eric Hobsbawm claimed that the international May Day, which dates back to a proclamation in 1889 by the Second International, is perhaps the most ambitious of labour rituals. The first international May Day demonstrations in 1890 were widely celebrated across Europe and became the one day each year when organized labour could present its goals to the public, an eight-hour workday being the first concrete demand, shortly followed by those for improved working conditions, universal suffrage, peace among nations, and international solidarity. The May Day ritual celebration was the self-assertion and self-definition of the new labour class through class organization. Thus, it was trade unions and social democratic and socialist parties throughout Europe which took the initiative and have sustained May Day as a labour ritual to this day. Part I of this theoretically informed volume explores how May Day demonstrations have evolved and taken different trajectories in different political contexts. Part II focuses on May Day rituals today. By comparing demonstration-level data of over 2000 questionnaires from six countries including Belgium, Italy, Spain, Sweden, Switzerland, and the UK, the reader is able to gain a thorough understanding of how participants are bestowing

meaning on May Day rituals By concluding with reflections on the future of the May Day ritual in Western Europe this ground breaking book provides a detailed analysis of its evolution as a protest event **Handbook on Planning and Power** Michael Gunder,Kristina Grange,Tanja Winkler,2023-05-09 Drawing on research from diverse thinkers in urban planning and the built environment this Handbook articulates the cutting edge of contemporary understandings about power and its impact on planning It identifies the current state of knowledge about planning and power as well as emerging trajectories within this field of research **The Kurdish Question in Turkey** Cengiz Gunes,Welat Zeydanlioglu,2013-09-23 Almost three decades have passed since political violence erupted in Turkey s south eastern regions where the majority of Turkey s approximately 20 million Kurds live In 1984 the Kurdistan Workers Party PKK initiated an insurgency which intensified in the following decades and continues to this day Kurdish regions in Turkey were under military rule for more than a decade and the conflict has cost the lives of 45 000 people including soldiers guerrillas and civilians The complex issue of the Kurdish Question in Turkey is subject to comprehensive examination in this book This interdisciplinary edited volume brings together chapters by social theorists political scientists social anthropologists sociologists legal theorists and ethnomusicologists to provide new perspectives on this internationally significant issue It elaborates on the complexity of the Kurdish question and examines the subject matter from a number of innovative angles Considering historical theoretical and political aspects of the Kurdish question in depth and raising issues that have not been discussed sufficiently in existing literature this book is an invaluable resource for students and scholars of Nationalism and Conflict Turkish Politics and Middle Eastern politics more broadly **Natural** Chelsea Mary Elise Johnson,2024-10-15 How Black women celebrate their natural hair and uproot racialized beauty standards Hair is not simply a biological feature it s a canvas for expression Hair can be cut colored dyed covered gelled waxed plucked lasered dreadlocked braided and relaxed Yet its significance extends beyond mere aesthetics Hair can carry profound moral spiritual and cultural connotations serving as a reflection of one s beliefs heritage and even political stance In Natural Chelsea Mary Elise Johnson delves into the complex world surrounding Black women s hair and offers a firsthand look into the kitchens beauty shops conventions and blogs that make up the twenty first century natural hair movement the latest evolution in Black beauty politics Johnson shares her own hair story and amplifies the voices of women across the globe who after years of chemically relaxing their hair return to a natural style Johnson describes how many women initially transition to natural hair out of curiosity or as a wellness practice but come to view their choice as political upon confronting personal insecurities and social stigma both within and outside of the Black community She also investigates natural hair entrepreneurs who use their knowledge to create lucrative and socially transformative haircare ventures Distinct from a politics of respectability or Afrocentricity Johnson s argument is that today s natural hair movement advances a politics of authenticity She offers going natural as a practice of self love and acceptance a critique of exclusionary economic arrangements and an exploitative beauty industry and an act of anti racist political resistance Natural powerfully

illustrates how the natural hair movement is part of a larger social change among Black women to assert their own purchasing power standards of beauty and bodily autonomy      Fractal Leadership Athina Karatzogianni, Jacob Matthews, 2023-11-30 Fractal Leadership serves as a point of reference for those interested in tracing the development of leadership in social movements from the 1960s to today      *Anarchist Studies* ,2003      **Movements in Time** Natalie Churn, Cecile Lawrence, 2013-01-14 2011 was a tumultuous year in terms of social protest movements The Occupy movement spread across the globe with unprecedented support of an enormity not seen since 1968 while revolutions in Egypt Tunisia Morocco Syria and Libya caught the attention of the global media and brought the word revolution back into public discussions on social justice and governance For many people worldwide it appears that it is time for social political and economic change And it is precisely time in all its forms which cannot be ignored in this context As something that surrounds us and affects every aspect of our lives time is at once a tool for control for order for emancipation for understanding the future and the past and measuring degrees of freedom and quality of life in the present This book brings together essays from fields such as politics cultural studies and philosophy in order to reinterpret and reorient current thinking on the possibilities for new understandings of concepts of time to bring about social change History as the passing of time clock time the exchange value of time qualitative time and alternative or marginal notions of temporality are analysed through the lens of various theoretical thinkers and applied to a multitude of political and social case studies Breaking away from traditional notions of time as linear and against common socially constructed understandings of time these essays suggest that new conceptions of time can have a major influence on creating a more just tolerant world
