Contemporary Politics Rhetoric And Discourse:

Contemporary Politics, Rhetoric, and Discourse Kenneth W. Thompson, 1988 Contemporary Politics, Rhetoric and Discourse Kenneth W. Thompson, 1988-08-04 This volume examines the rhetoric of contemporary politics and statesmanship. It discusses television, changing value systems, and other forces which influence the national and international politics of the late twentieth century. Topics include the role of rhetoric in the media, liberalism and conservatism, national defense and intelligence work, as well as the rhetoric and reality of presidential and international politics. **Politics and Rhetoric** James Martin, 2013-10-08 Rhetoric is the art of speech and persuasion, the study of argument, and in Classical times an essential component in the education of the citizen. For rhetoricians, politics is a skill to be performed and not merely observed. Yet in modern democracies we often suspect political speech of malign intent and remain uncertain how properly to interpret and evaluate it. Public arguments are easily dismissed as mere rhetoric rather than engaged critically with citizens encouraged to be passive consumers of a media spectacle rather than active participants in a political dialogue. This volume provides a clear and instructive introduction to the skills of the rhetorical arts. It surveys critically the place of rhetoric in contemporary public life and assesses its virtues as a tool of political theory. Questions about power and identity in the practices of political communication remain central to the rhetorical tradition: how do we know that we are not being manipulated by those who seek to persuade us? Only a grasp of the techniques of rhetoric and an understanding of how they manifest themselves in contemporary politics, argues the author, can guide us in answering these perennial questions. **Politics and Rhetoric** draws together in a comprehensive and highly accessible way relevant ideas from discourse analysis, classical rhetoric, updated to a modern setting, relevant issues in contemporary political theory, and numerous carefully chosen examples and issues from current politics. It will be essential reading for all students of politics and political communications.

Debasing Political Rhetoric Ofer Feldman, 2023-04-26 This book is a companion to *Political Debasement: Incivility, Contempt, and Humiliation in Parliamentary and Public Discourse*. It brings together interdisciplinary contributions to provide a comprehensive and detailed exploration of the nature, function, and effect of debasement language used by selected political leaders in Western and non-Western countries. Among them are Donald Trump in the USA, Recep Tayyip Erdoğan in Turkey, Rodrigo Duterte in the Philippines, Jair Bolsonaro in Brazil, Abe Shinzō in Japan, Pauline Hanson in Australia, Kyriakos Mitsotakis in Greece, Geert Wilders in the Netherlands, Beppe Grillo in Italy, and Santiago Abascal in Spain. Chapters focus specifically on the language of these leaders while examining debasement discourse from narrow and broad perspectives. The former includes the use of crude or abusive language, e.g., curses, obscenity, and swearing to demean, humiliate, mock, insult, or belittle based on the actual or perceived object or entity, e.g., race, religion, national gender identity, or sexual orientation; the latter includes the use of devious or indirect irony, sarcasm, cynicism, ridicule, subtlety, and understatement to degrade and discredit other individuals or groups. The book represents the collective wisdom of scholars and researchers, experts in fields such as communication.

Class, Self, Culture Beverley Skeggs, 2013-11-05 Class Self Culture puts class back on the map in a novel way by taking a new look at how class is made and given value through culture It shows how different classes become attributed with value enabling culture to be deployed as a resource and as a form of property which has both use value to the person and exchange value in systems of symbolic and economic exchange The book shows how class has not disappeared but is known and spoken in a myriad of different ways always working through other categorisations of nation race gender and sexuality and across different sites through popular culture political rhetoric and academic theory In particular attention is given to how new forms of personhood are being generated through mechanisms of giving value to culture and how what we come to know and assume to be a self is always a classed formation Analysing four processes of inscription institutionalisation perspective taking and exchange relationships it challenges recent debates on reflexivity risk rational action theory individualisation and mobility by showing how these are all reliant on fixing some people in place so that others can move
