Contemporary Psychology And Carmel:

Contemporary Psychology and Carmel John Sullivan, 1982-01-01 **Subversion and Liberation in the Writings of St. Teresa of Avila** Antonio Pérez-Romero, 2023-04-12 **Carmelite Studies 2**, 1982 Handbook of Spirituality for Ministers Vol. 2 Robert J. Wicks, 2000 **Self, Earth, and Society** Thomas N. Finger, 2020-03-12

Our era is experiencing unparalleled and rapid transience The twentieth century began with the telephone and ended with e mail People change jobs and homes a half dozen times or more in their lives Air and water pollution are threatening the well being of the earth itself Wars their multiplying refugees and political crises are tearing societies apart If there is a key word for our era it might be alienation Amid increasing and often chaotic complexity individuals struggle to attain an integrated stable self with durable relationships An expanding ecological consciousness reveals our estrangement from the earth Societies are internally divided by clashing political and economic perspectives and processes This profound and important book recognizes and reveals the connections among these three alienations Thomas Finger undertakes a probing critical conversation with culture and develops his own public theology Each alienation is analyzed in depth through the writings of secular authors His theological construction draws neither on modern philosophy nor worldviews but perhaps surprisingly on Scripture To support his emphasis on Christ Finger engages the skepticism of the much celebrated Jesus Seminar He rejects the widespread claim that Christianity's transcendent God is largely absent from the world and legitimates human exploitation of it For transcendence means that God is different but not distant from the world Finger then examines the roles of Jesus Father and Spirit in his earthly ministry In this and later scriptures these three act and interact in a salvific manner that can only be divine This means that his Father and Spirit also suffer with Jesus in his death and with all creation as Jurgen Moltmann brilliantly explains and accompany him in his resurrection This also means that the creation exists in God as some feminists maintain and originated as the overflow of God's love and character into a realm which was hardly distant from God yet very different In addition this entails that every human self and the process of becoming a self as God's creations must be respected as indeed must all earthly creatures and the basic structures needed to form and maintain any society Theological developments in the last decade have done much to critique misguided biblical interpretations which would justify unbridled human exploitation and abuse of creation But work in exploring how an understanding of a trinitarian transcendent God results in creative and caring relationship between humanity and creation has been less developed In discussing these matters with Dr Finger I am convinced that his proposed work holds the promise of meeting an important need within global theological discussions today Further I know that Dr Finger is fully capable of accomplishing this project Thus from my vantage point where I have the opportunity of hearing theological discussions on these subjects from the major Christian traditions and from throughout the globe it is clear that Dr Finger's proposal will fill a theological void and enrich our search for truth Wesley Granberg Michaelson Executive Secretary Commission on Church and Society World Council of Churches

1988 1994 General Secretary Reformed Church in America 1994 2011 *Healed by Love* Daniel Chowning, 2025-04-15 Find healing through the path of contemplative prayer which is God's self communication in love and awakens within us our own need for transformation God has planted in our hearts an insatiable longing to love and be loved that is to love God others and creation with the very love of God We know however from our human experience that we fail to love as we desire with all our hearts In *Healed by Love* Carmelite Friar Daniel Chowning urges those in need of healing to seek refuge in the spiritual doctrine of St John of the Cross The more we grow in love the healthier we become The doctrine of St John of the Cross is one of healing and transformation of the human person For him the path of contemplation which is God's self communicating love is a journey of purification healing and transformation at the deepest root of our being where we can love God others and creation according to God's original plan for us and grow toward the fullness of who God created us to be In *Healed by Love* those suffering in body and spirit may find comfort through the teaching of St John of the Cross and the path of contemplative prayer

Carmelus, 1991 *Crafting Contemporary Pagan Identities in a Catholic Society* Kathryn Rountree, 2016-05-13 Contemporary western Paganism is now a global religious phenomenon with Pagans in many parts of the world sharing much in common from a nature revering worldview and lifestyle to a host of chants invocations ritual tools and magical practices But there are also locally specific differences Local religious contexts landscapes histories traditions politics values and norms all impact on local Paganisms This is nowhere more evident than in a strongly Catholic society where religion and culture are deeply entwined Taking the Mediterranean society of Malta as a case study this book invites readers inside the world of a small hidden sub culture Showing what it is like being Pagan in a society where the vast majority of the population is Roman Catholic and Catholicism permeates every sphere of public and domestic social and political life Rountree reveals that Paganism here is a unique brew of indigenous and global influences Pagans employ both creativity and borrowing in constructing identities within a cultural context characterized by antagonism as well as continuity This book explores the intersections of religious and cultural identity the global and local Paganism and Christianity with insights grounded in rich ethnographic detail based on long term fieldwork Rountree makes invaluable comparisons with other studies of modern Pagans and their various worlds

Psychoanalytic Perspectives on Art, V. 3

Mary M. Gedo, 2013-05-13 This new hardcover annual offers a unique scholarly format an interdisciplinary dialogue that it is hoped will foster the development of a sound useful methodology for applying psychoanalytic insight to art and artists The series provides a medium for those who study art those who interpret it and occasionally those who create it formally to explore the meaning of an artistic work as the direct reflection of the inner world of its creator Within each volume individual topics are addressed by either an art historian or a psychoanalyst with a response frequently tendered by an expert from the other field Reviews of important books of cross disciplinary interest are treated in a similar manner and include rebuttals by the authors themselves It is precisely this exchange of ideas among scholars with difference perspectives on the meaning of a work of art that sets PPA apart from the standard art history publication Its depth of scholarship coupled with its innovative format make it a fascinating addition to the burgeoning field of psychoanalytic studies of art history Mass-Produced Original Paintings, the Psychology of Art, and an Everyday Aesthetics Martin S. Lindauer, 2020-10-20 This book examines the contribution of mass produced original painting to the psychology of art psychological aesthetics and art criticism Mass produced paintings are an inexpensive accessible ubiquitous and hand painted popular art by anonymous artists or teams Sold in an array of outlets ranging from flea markets to shopping centers to cruise ships they decorate hotels offices and homes Addressed is their neglect in current scholarship in favor of a nearly exclusive investigation of the high arts and their audiences as represented by museum paintings Lindauer contextualizes his analysis by tracing the historical origins of this type of painting popular art in general and their evolutionary trajectory exploring issues including the impact of art and artists creativity on viewers the overemphasis on originality and name recognition what is art and who can be called an artist and the extension of aesthetics to include an everyday kind The book concludes with directions for future research in the popular and traditional arts the psychology of art and more broadly the ties that transcend barriers between science the arts and the humanities It will appeal to students and scholars from across the fields of psychology sociology philosophy art history and cultural media and communication studies *Gender, Families and Transmission in the Contemporary Jewish Context* Martine Gross, Sophie Nizard, Yann Scioldo-Zurcher, 2017-05-11 Bringing together social science researchers from France Israel the United States Belgium and Switzerland this book analyses contemporary Jewishness within the constant dialectic between faithfulness to Jewish tradition and culture and adherence to the values of modernity and democracy Systems of family and gender normativity have durably influenced the traditional Jewish universe but the norms and the institutions that embody them are today shaky Individualization the essence of modernity is at work in the Jewish world as it is elsewhere and new identities are emerging and question the transmission of Jewish identities and traditions The contributions here highlight the contrasting experiences of societies in the Diaspora and in Israeli society societies that are different yet sometimes very close because of tensions around religious and identity boundaries As such this book revisits the relationship to the other and the conditions for an alliance among people a notion dear to Judaism **Subject Catalog**
